

Contents

Part I Mineralogy

Mineralogy of the Rare-Earth Elements. F. P. Cesbron (with 5 Figures)	3
Mineralogy of Niobium and tantalum: Crystal Chemical Relationships, Paragenetic Aspects and Their Economic Implications P. Černý and T. S. Ercit (with 21 Figures)	27
Pyrochlore Group Minerals from the Qaqarssuk Carbonatite Complex. C. Knudsen (with 8 Figures)	80

Part II Geochemistry

REE (Y), Nb, and Ta Enrichment in Pegmatites and Carbonatite-Alkalic Rock Complexes. P. Möller (with 18 Figures)	103
Geochemistry of Granites Associated with Tantalum and Niobium Mineralization. P. J. Pollard (with 8 Figures)	145

Part III Characterization of Ore Deposits

Rare Earth Mineral Deposits and Their Industrial Importance. P. Möller (with 3 Figures)	171
The Bastnaesite-Fluorite-Barite Deposit of the Kizilcaören District, Eskisehir, Turkey. G. Morteani and M. Satir (with 3 Figures)	189
Characteristics of Pegmatite Deposits of Tantalum. P. Černý (with 18 Figures)	195
Geologic Characteristics and Genetic Problems Associated with the Development of Granite-Hosted Deposits of Tantalum and Niobium. P. J. Pollard (with 5 Figures)	240

Geological Setting of Tantalum-Bearing Mineralization in the Caledonides of SE Ireland. P. McArdle and P. S. Kennan (with 1 Figure)	257
---	-----

Part IV Prospecting

Prospecting for Rare-Earth Element Deposits. P. Möller	263
Exploration for Granite-Hosted Tantalum Deposits: An Approach via District Analysis. P. J. Pollard (with 1 Figure)	266
Exploration Strategy and Methods for Pegmatite Deposits of Tantalum. P. Černý (with 15 Figures)	274
Geochemical Evaluation of the Tantalum Potential of Pegmatites. G. Morteani and R. Gaupp (with 6 Figures)	303
Prospection for Niobium-Rich Alkaline Rocks. G. Morteani (with 5 Figures)	311
Geochemical Exploration Guide for Rare-Metal Pegmatites Examples from Nigeria and Sudan. G. Matheis and D. Küster (with 2 Figures)	321

Part V Processing of Ores

Processing of Tantalum and Niobium Ores. G. Roethe (with 6 Figures)	331
--	-----

Part VI Application

Production Properties and Application of Tantalum, Niobium and Their Compounds. W. W. Albrecht (with 9 Figures)	345
Industrial Applications of Rare Earth Elements. C. Preinfalk and G. Morteani (with 1 Figure).	359
Subject Index	371
