Abstract	6
1. Introduction	7
2. The Arabian Peninsula: geography, topography and climate	8
3. Bryological exploration	14
4. Bryogeography and floristic elements	16
(Sub) Cosmopolitan element	16
Northern element	16
Xerotherm-Pangaeian element	18
Circum-Tethyan element	18
Tropical element (Pantropical, Palaeotropical and Afriomontane species)	20
Endemics	24
Phytogeographical analysis	24
5. Systematic treatment	26
Artificial key to the main groups of bryophytes on the Arabian Peninsula and Socotra ...	26
Class: Anthocerotopsida (hornworts)	27
Class: Hepaticopsida (liverworts)	28
Artificial key to the Subclass Marchantiidae	28
Artificial key to the Subclass Metzgeriidae	35
Artificial key to the Subclass Jungermanniidae	36
Class: Bryopsida (mosses)	41
Artificial key to the acrocarpous mosses of the Arabian Peninsula and Socotra	41
Artificial key to the pleurocarpous mosses of the Arabian Peninsula and Socotra	67
6. Synopsis of species and geographical checklist	75
7. Distribution maps	88
8. Acknowledgements	127
9. References	128
