

Contents

Introduction to the Theory and Practice of High-Performance
Liquid Chromatography
R. NEWTON 1

High-Performance Liquid Chromatography of Catecholamines
and Their Metabolites in Biological Material
S. ALLENMARK 32

High Performance Liquid Chromatography of the Neuropeptides:
The Endogenous Opioid Peptides
A. T. MCKNIGHT, A. D. CORBETT, S. J. PATERSON, L. E. ROBSON,
and H. W. KOSTERLITZ 66

High-Performance Liquid Chromatography of Vitamin D and its Application
to Endocrinology
G. JONES, and H. F. DeLUCA 95

High Performance Liquid Chromatography in the Analysis
of Prostaglandins, Thromboxanes and Leukotrienes
I. A. TAVARES 140

High-Performance Liquid Chromatography of Gastrointestinal Hormones
C. SELDEN, P. N. MATON, and V. S. CHADWICK 158

High-Performance Liquid Chromatography of Steroid Hormones
H. L. J. MAKIN, and E. HEFTMANN 183

The Mass Spectrometer as a Detector for High-Performance Liquid
Chromatography: Problems of Interfacing
D. E. GAMES, and E. D. RAMSEY 235

Subject Index 257
