

Table of Contents

Steganalysis for Reversible Data Hiding	1
<i>Ho Thi Huong Thom, Ho Van Canh, and Trinh Nhat Tien</i>	
An Incremental View Maintenance Approach Using Version Store in Warehousing Environment	9
<i>AbdulAziz S. Almazyad, Mohammad Khubeb Siddiqui, Yasir Ahmad, and Zafar Iqbal Khan</i>	
The Study of Synchronization Framework among Multi-datasets	17
<i>Dongjin Yu and Wangqing Li</i>	
Clustering News Articles in NewsPage.com Using NTSO	26
<i>Tae-ho Jo</i>	
Categorizing News Articles Using NTC without Decomposition	34
<i>Tae-ho Jo</i>	
A Comparative Analysis of XML Schema Languages	41
<i>Muhammad Shahid Ansari, Noman Zahid, and Kyung-Goo Doh</i>	
Mining Approximate Frequent Itemsets over Data Streams Using Window Sliding Techniques	49
<i>Younghee Kim, Eunkyoung Park, and Ungmo Kim</i>	
Preserving Referential Integrity Constraints in XML Data Transformation	57
<i>Md. Sumon Shahriar and Jixue Liu</i>	
Know-Ont: Engineering a Knowledge Ontology for an Enterprise	66
<i>Harshit Kumar and Pil Seong Park</i>	
Transformation of Data with Constraints for Integration: An Information System Approach	74
<i>Md. Sumon Shahriar and Jixue Liu</i>	
Comparative Analysis of XLMiner and Weka for Association Rule Mining and Clustering	82
<i>A.M. Khattak, A.M. Khan, Tahir Rasheed, Sungyoung Lee, and Young-Koo Lee</i>	
Infobright for Analyzing Social Sciences Data	90
<i>Julia Ann Johnson and Genevieve Marie Johnson</i>	
Enhanced Statistics for Element-Centered XML Summaries	99
<i>José de Aguiar Moraes Filho, Theo Härder, and Caetano Sauer</i>	

Algorithm for Enumerating All Maximal Frequent Tree Patterns among Words in Tree-Structured Documents and Its Application 107
 Tomoyuki Uchida and Kayo Kawamoto

A Method for Learning Bayesian Networks by Using Immune Binary Particle Swarm Optimization 115
 Xiao-Lin Li, Xiang-Dong He, and Chuan-Ming Chen

A Semantics-Preserving Approach for Extracting OWL Ontologies from UML Class Diagrams 122
 Zhuoming Xu, Yuyan Ni, Lili Lin, and Huajian Gu

Data Warehousing and Business Intelligence: Benchmark Project for the Platform Selection 137
 Cas Apanowicz

Automatic Extraction of Decision Rules from Non-deterministic Data Systems: Theoretical Foundations and SQL-Based Implementation 151
 Dominik Ślęzak and Hiroshi Sakai

Soft Set Approach for Maximal Association Rules Mining 163
 Tutut Herawan, Iwan Tri Riyadi Yanto, and Mustafa Mat Deris

Soft Set Theoretic Approach for Dimensionality Reduction 171
 Tutut Herawan, Ahmad Nazari Mohd. Rose, and Mustafa Mat Deris

Rough Set Approach for Categorical Data Clustering 179
 Tutut Herawan, Iwan Tri Riyadi Yanto, and Mustafa Mat Deris

Author Index 187
