

Contents

1 Morphology and Microstructure of the Hepatobiliary System	1
1.1 Morphology	1
References	17
1.2 Microstructure	19
References	25
2 Liver and Spleen Function	27
2.1 Liver Function	27
References	44
2.2 Spleen Function	45
References	47
3 Imaging Agents	49
3.1 Morphology and Physiology Imaging Agents	49
References	67
3.2 Radiolabeling of Red Blood Cells and Leucocytes	70
References	73
3.3 Gallium-67 Citrate	73
References	74
3.4 Somatostatin Receptor Imaging Agent	75
References	76
3.5 Fluorine 18, 2-Fluoro-2-deoxy-D-glucose (¹⁸ F-FDG)	77
References	82
4 Imaging of Liver and Spleen Morphology	85
4.1 Imaging with Radiocolloid	85
References	98
4.2 Adenoma and Focal Nodular Hyperplasia	99
References	105

4.3	Hemangioma	106
	References	113
4.4	Somatostatin Receptor Scintigraphy	114
	References	122
5	Imaging and Quantification of Hepatobiliary Function	125
5.1	Hepatobiliary Imaging	125
	References	152
5.2	Measurement of Hepatic Arterial vs. Portal Venous Blood Flow	153
	References	160
5.3	Hepatopulmonary Syndrome	160
	References	165
5.4	Duodenogastric Bile Reflux	166
	References	170
5.5	Imaging and Quantification of Hepatocyte Asialoglycoprotein Receptors with Tc-99m Galactosyl Human Serum Albumin	171
	References	172
6	Gallbladder, Sphincter of Oddi, Cholecystokinin, and Opioid Relation	175
6.1	Effect of Cholecystokinin on the Gallbladder and Sphincter of Oddi	175
	References	187
6.2	Opioids	190
	References	194
7	Intrahepatic Cholestasis	197
7.1	Imaging with Tc-99m HIDA	197
	References	205
7.2	Imaging with Tc-99m Galactosyl Human Serum Albumin	207
	References	209
8	Extrahepatic Cholestasis	211
8.1	Intraluminal Causes	211
	References	223
8.2	Wall Thickening	224
	References	233
8.3	Combined Intrahepatic and Extrahepatic Cholestasis (Sclerosing Cholangitis)	235
	References	239
8.4	Extrinsic Compression	239
	References	241

9 Diseases of the Gallbladder	243
9.1 Chronic Calculous Cholecystitis	246
References.....	254
9.2 Chronic Acalculous Cholecystitis	257
References.....	270
9.3 Acute Cholecystitis	272
References.....	287
9.4 Management of Gallbladder Disease	290
References.....	296
10 Biliary Dyskinesia	299
References	315
11 Pediatric Nuclear Hepatology	319
11.1 Congenital Biliary Atresia vs. Neonatal Hepatitis	319
References.....	331
11.2 Cystic Diseases of the Hepatobiliary System	332
References.....	339
12 Malignant Liver Lesions.....	341
12.1 Management.....	346
References.....	346
13 Liver Transplantation	347
13.1 Types of Liver Transplantation.....	347
13.2 Normal Functioning Liver Transplant.....	351
References.....	360
Index	363
