|--------------------|----|
| Preface .....      | 15 |
| Introduction ..... | 17 |

## **1 Implementing Management Systems with SAP ..... 23**

|                                             |    |
|---------------------------------------------|----|
| 1.1 Basic Principles .....                  | 24 |
| 1.2 Quality Elements .....                  | 27 |
| 1.3 Documenting the Management System ..... | 35 |
| 1.4 QM Information System .....             | 35 |
| 1.5 Environment Management .....            | 36 |
| 1.6 Laws .....                              | 40 |
| 1.7 Outlook .....                           | 41 |

## **2 Modeling QM Business Processes Using the EPC Method ..... 43**

|                                                         |    |
|---------------------------------------------------------|----|
| 2.1 Basic Principles .....                              | 43 |
| 2.2 Definition of Concepts .....                        | 44 |
| 2.2.1 Business Process .....                            | 44 |
| 2.3 Event-Driven Process Chain (EPC) .....              | 48 |
| 2.3.1 Elements of the Event-Driven Process Chain .....  | 48 |
| 2.3.2 Structure of the Event-Driven Process Chain ..... | 51 |
| 2.3.3 Scenario .....                                    | 52 |

## **3 Overview of SAP ERP ..... 61**

|                                                          |    |
|----------------------------------------------------------|----|
| 3.1 SAP AG .....                                         | 61 |
| 3.2 Development of SAP ERP .....                         | 61 |
| 3.3 Modules of the SAP ERP System .....                  | 62 |
| 3.4 SAP R/3 and SAP ERP Releases .....                   | 67 |
| 3.5 SAP PLM and Quality Management .....                 | 77 |
| 3.6 Project Management for SAP ERP Implementations ..... | 78 |
| 3.7 Customizing .....                                    | 85 |
| 3.8 Client Concept .....                                 | 86 |
| 3.9 Organizational Structure .....                       | 87 |

|        |                                            |     |
|--------|--------------------------------------------|-----|
| 3.10   | SAP Work Center .....                      | 87  |
| 3.11   | SAPscript .....                            | 88  |
| 3.12   | Reports .....                              | 88  |
| 3.13   | ABAP Programs .....                        | 90  |
| 3.14   | SAP ERP QM as a CAQ System .....           | 90  |
| 3.15   | New SAP Technologies .....                 | 92  |
| 3.15.1 | SAP ERP Strategy .....                     | 92  |
| 3.15.2 | SAP Business Suite .....                   | 93  |
| 3.15.3 | SAP NetWeaver Portal .....                 | 94  |
| 3.15.4 | Using SAP NetWeaver Portal in SAP QM ..... | 97  |
| 3.15.5 | Principles of SAP Internet Scenarios ..... | 101 |
| 3.15.6 | Recording Quality Notifications .....      | 102 |
| 3.15.7 | Creating Quality Certificates .....        | 106 |

## **4 Operating SAP ERP ..... 111**

|     |                                                            |     |
|-----|------------------------------------------------------------|-----|
| 4.1 | General Notes .....                                        | 111 |
| 4.2 | Logon and Logoff .....                                     | 111 |
| 4.3 | User Interface .....                                       | 113 |
| 4.4 | Print .....                                                | 122 |
| 4.5 | User Settings: User Profile .....                          | 124 |
| 4.6 | Working with Transaction Codes and Multiple Sessions ..... | 125 |
| 4.7 | Help in the SAP ERP System .....                           | 129 |
| 4.8 | Display Functions and List Displays .....                  | 134 |

## **5 Quality Management in the Supply Chain ..... 139**

|       |                               |     |
|-------|-------------------------------|-----|
| 5.1   | Basic Principles .....        | 139 |
| 5.2   | Supply Chain Management ..... | 141 |
| 5.3   | Materials Management .....    | 142 |
| 5.3.1 | Procurement .....             | 143 |
| 5.3.2 | Production .....              | 147 |
| 5.3.3 | Sales .....                   | 149 |
| 5.3.4 | Customer Service .....        | 151 |
| 5.4   | Summary .....                 | 153 |

## **6 Quality and Inspection Planning ..... 155**

|       |                                                         |     |
|-------|---------------------------------------------------------|-----|
| 6.1   | Basic Principles .....                                  | 155 |
| 6.2   | Overview of Quality and Inspection Planning .....       | 159 |
| 6.3   | Basic Data for Quality and Inspection Planning .....    | 161 |
| 6.3.1 | General Master Data .....                               | 162 |
| 6.3.2 | Basic Quality- and Inspection-Planning Data .....       | 177 |
| 6.4   | SAP QM Inspection Plan .....                            | 201 |
| 6.4.1 | General Remarks .....                                   | 201 |
| 6.4.2 | Administrating Inspection Plans .....                   | 209 |
| 6.4.3 | Structure of the Inspection Plan (Plan Structure) ..... | 218 |
| 6.4.4 | Engineering Workbench .....                             | 239 |
| 6.5   | Multiple Specifications .....                           | 242 |
| 6.6   | Quality Planning in Procurement .....                   | 248 |
| 6.6.1 | Material Master and Quality Info Record .....           | 249 |
| 6.6.2 | Incoming Inspection .....                               | 252 |
| 6.7   | Quality Planning in Production .....                    | 263 |
| 6.8   | Quality Planning in Sales and Distribution .....        | 272 |
| 6.8.1 | Certificate Processing .....                            | 279 |
| 6.9   | FMEA and Control Plan .....                             | 283 |

## **7 Quality Inspection ..... 295**

|        |                                                              |     |
|--------|--------------------------------------------------------------|-----|
| 7.1    | Basic Principles .....                                       | 296 |
| 7.2    | Inspection-Lot Creation .....                                | 300 |
| 7.3    | Results Recording .....                                      | 306 |
| 7.3.1  | Characteristic Results .....                                 | 311 |
| 7.3.2  | Defects .....                                                | 322 |
| 7.4    | Inspection-Lot Completion .....                              | 324 |
| 7.5    | Inspection Costs .....                                       | 326 |
| 7.6    | Sample Management .....                                      | 328 |
| 7.7    | Quality Inspection in Sales and Distribution .....           | 331 |
| 7.8    | Quality Inspection in Production .....                       | 331 |
| 7.9    | Quality Inspection in Procurement .....                      | 336 |
| 7.10   | Interfaces to External Systems and Measurement Devices ..... | 338 |
| 7.11   | Connecting Complex External Measurement Systems .....        | 341 |
| 7.11.1 | Overview .....                                               | 341 |
| 7.11.2 | Keyboard Wedge .....                                         | 341 |

|        |                                                            |     |
|--------|------------------------------------------------------------|-----|
| 7.11.3 | Test Equipment Drivers for SAP GUI .....                   | 342 |
| 7.11.4 | Subsystems with Separate User Interfaces .....             | 342 |
| 7.11.5 | Direct Integration of Inspection and Analysis Systems .... | 343 |
| 7.11.6 | Importing a Plan .....                                     | 343 |
| 7.12   | Example .....                                              | 344 |
| 7.12.1 | Sample Company .....                                       | 344 |
| 7.12.2 | Quality Assurance in the Power Tools Area .....            | 344 |
| 7.12.3 | Analyses in the Adhesives Area .....                       | 346 |
| 7.12.4 | External Statistics Program .....                          | 346 |

## **8 Quality Control ..... 349**

|       |                                                                               |     |
|-------|-------------------------------------------------------------------------------|-----|
| 8.1   | Basic Principles .....                                                        | 349 |
| 8.2   | Usage Decision .....                                                          | 350 |
| 8.3   | Quality Level .....                                                           | 363 |
| 8.4   | Vendor Evaluation .....                                                       | 365 |
| 8.4.1 | Basic Principles .....                                                        | 365 |
| 8.4.2 | Master Data .....                                                             | 366 |
| 8.4.3 | Evaluation Criteria .....                                                     | 367 |
| 8.4.4 | Vendor Evaluation .....                                                       | 374 |
| 8.4.5 | Evaluations .....                                                             | 380 |
| 8.5   | Statistical Process Control (SPC) .....                                       | 383 |
| 8.6   | Dynamic Modification of Inspection Severity and<br>Inspection Frequency ..... | 389 |
| 8.7   | Batch Logs .....                                                              | 390 |
| 8.8   | Quality-Related Costs .....                                                   | 391 |
| 8.8.1 | Basic Principles .....                                                        | 391 |
| 8.8.2 | Cost and Performance Accounting .....                                         | 393 |
| 8.8.3 | Recording Quality-Related Costs .....                                         | 394 |
| 8.8.4 | Evaluation of Quality-Related Costs .....                                     | 395 |
| 8.8.5 | Implementation Options with SAP ERP .....                                     | 396 |

## **9 Quality Notification ..... 397**

|       |                                                                   |     |
|-------|-------------------------------------------------------------------|-----|
| 9.1   | Basic Principles .....                                            | 397 |
| 9.2   | Quality Notifications in SAP ERP .....                            | 399 |
| 9.2.1 | Scenario: Complaint Management with<br>Quality Notification ..... | 401 |
| 9.2.2 | Functions and Elements of the Quality Notification .....          | 420 |

|       |                                                                               |     |
|-------|-------------------------------------------------------------------------------|-----|
| 9.3   | Quality Notification with Integrated Document Management .....                | 433 |
| 9.3.1 | Creating a Document .....                                                     | 436 |
| 9.3.2 | Documents in the Quality Notification .....                                   | 439 |
| 9.3.3 | Documents in the Quality Info Record .....                                    | 439 |
| 9.3.4 | Documents in the Inspection Plan/Routing .....                                | 440 |
| 9.4   | Quality Notification in Sales and Distribution .....                          | 440 |
| 9.5   | Quality Notification in Production .....                                      | 444 |
| 9.5.1 | Scenario with Notification Type Q3/F3, Internal<br>Problem Notification ..... | 447 |
| 9.6   | Quality Notification in Procurement .....                                     | 448 |
| 9.7   | Solution Database .....                                                       | 453 |
| 9.8   | Stability Study .....                                                         | 456 |
| 9.8.1 | Description .....                                                             | 456 |
