

Contents

Material Properties of Alginates	1
Ivan Donati and Sergio Paoletti	
Alginate Production: Precursor Biosynthesis, Polymerization and Secretion	55
Bernd H.A. Rehm	
Bacterial System for Alginate Uptake and Degradation	73
Wataru Hashimoto, Yukie Maruyama, Takafumi Itoh, Bunzo Mikami, and Kousaku Murata	
Enzymatic Alginate Modification	95
Helga Ertesvåg, Svein Valla, and Gudmund Skjåk-Bræk	
Alginate Gene Regulation	117
Dennis E. Ohman	
Role of Alginate in Bacterial Biofilms	135
Larry J. Halverson	
Microbial Production of Alginates: Physiology and Process Aspects	153
Wael Sabra and An Ping Zeng	
Alginate-Based Blends and Nano/Microbeads	175
Kamalesh Prasad and Jun-ichi Kadokawa	
Applications of Alginates in Food	211
Iain A. Brownlee, Chris J. Seal, Matthew Wilcox, Peter W. Dettmar, and Jeff P. Pearson	

**Alginate and Its Comonomer Mannuronic Acid:
Medical Relevance as Drugs..... 229**
Abbas Mirshafiey and Bernd H.A. Rehm
