Contents

Part I: Algebraically Approximate and Noisy Realization of Discrete-Time Dynamical Systems

1 Introduction 3

2 Input/Output Map and Additive Noises 11
2.1 Input Response Maps (Input/Output Maps with Causality) 11
2.2 Analysis for Algebraically Approximate and Noisy Realization 13
2.3 Measurement Data with Noise 14
2.4 Analyses for Approximate and Noisy Data 14
2.5 Algebraically Constrained Least Square Method 17
2.5.1 Algebraic CLS Method and Analytic CLS Method ... 19
2.6 Historical Notes and Concluding Remarks 19

3 Algebraically Approximate and Noisy Realization of Linear Systems 21
3.1 Basic Facts Regarding Linear Systems 21
3.2 Finite Dimensional Linear Systems 23
3.3 Partial Realization Theory of Linear Systems 25
3.4 Algebraically Approximate Realization of Linear Systems ... 26
3.5 Algebraically Noisy Realization of Linear Systems 36
3.5.1 Comparative Table of the Algebraic CLS and AIC Method 48
3.6 Historical Notes and Concluding Remarks 49

4 Algebraically Approximate and Noisy Realization of So-called Linear Systems 53
4.1 Basic Facts about So-called Linear Systems 54
4.2 Finite Dimensional So-called Linear Systems 55

Bibliografische Informationen
http://d-nb.info/995509573

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

4.3 Partial Realization of So-called Linear Systems 58
4.4 Real-Time Partial Realization of Almost Linear Systems ... 60
4.5 Algebraically Approximate Realization of So-called Linear Systems 61
4.6 Algebraically Noisy Realization of So-called Linear Systems 72
4.7 Historical Notes and Concluding Remarks 83

5 Algebraically Approximate and Noisy Realization of Almost Linear Systems 87
5.1 Basic Facts of Almost Linear Systems 88
5.2 Finite Dimensional Almost Linear Systems 89
5.3 Algebraically Approximate Realization of Almost Linear Systems 90
5.4 Algebraically Noisy Realization of Almost Linear Systems 99
5.5 Historical Notes and Concluding Remarks 108

6 Algebraically Approximate and Noisy Realization of Pseudo Linear Systems 111
6.1 Basic Facts about Pseudo Linear Systems 111
6.2 Finite Dimensional Pseudo Linear Systems 113
6.3 Partial Realization of Pseudo Linear Systems 116
6.4 Real-Time Partial Realization of Pseudo Linear Systems ... 118
6.5 Algebraically Approximate Realization of Pseudo Linear Systems 120
6.6 Algebraically Noisy Realization of Pseudo Linear Systems 131
6.7 Historical Notes and Concluding Remarks 144

7 Algebraically Approximate and Noisy Realization of Affine Dynamical Systems 147
7.1 Basic Facts about Affine Dynamical Systems 148
7.2 Finite Dimensional Affine Dynamical Systems 150
7.3 Partial Realization Theory of Affine Dynamical Systems 153
7.4 Algebraically Approximate Realization of Affine Dynamical Systems 155
7.5 Algebraically Noisy Realization of Affine Dynamical Systems 170
7.6 Historical Notes and Concluding Remarks 182

8 Algebraically Approximate and Noisy Realization of Linear Representation Systems 185
8.1 Basic Facts about Linear Representation Systems 186
8.2 Finite Dimensional Linear Representation Systems 187

8.3 Partial Realization Theory of Linear Representation Systems 190
8.4 Algebraically Approximate Realization of Linear Representation Systems 191
8.5 Algebraically Noisy Realization of Linear Representation Systems 201
8.6 Historical Notes and Concluding Remarks 211

Part II: Algebraically Approximate and Noisy Realization of Digital Images

9 Algebraically Approximate and Noisy Realization of Two-Dimensional Images 215
9.1 Commutative Linear Representation Systems 216
9.2 Finite-Dimensional Commutative Linear Representation Systems 218
9.3 Partial Realization Theory of Two-Dimensional Images 223
9.4 Measurement Data with Approximate and Noisy Error 226
9.5 Analyses for Approximate and Noisy Data 227
9.6 Non-linear Integer Programming for Digital Images 228
9.7 Algebraically Approximate Realization of Two-Dimensional Images 229
9.8 Algebraically Noisy Realization of Two-Dimensional Images 237
9.9 Historical Notes and Concluding Remarks 246
