IX Preface

1 T Cell Receptor and Function Cosegregate in Gamma-Delta T Cell Subsets

O'Brien, R.L.; Lahn, M.; Born, W.K., Denver, Colo.; Huber, S.A., Colchester, Vt.

5 Findings That Support a Linkage between $\gamma\delta$ T Cell Receptor Type and Cellular Function

5 Subset-Specific Expansion

6 Correlation of $\gamma\delta$ T Cell Receptor Type with a Characteristic Function

9 Differences in Cytokine Production among $\gamma\delta$ T Cell Subsets

11 Evidence Contrary to the Idea the $\gamma\delta$ T Cell Subsets Have Specific and Predetermined Functions

13 Candidate Natural Ligands for $\gamma\delta$ T Cell Subsets

14 Class-Ib-Reactive Cells

16 Class-II-Reactive Cells

17 Subset-Specific Responses to Unidentified Stress-Inducible Host Molecules

18 Subset-Specific Responses to Microbial Antigens

21 Conclusion

22 References

29 Role of the IL-7 Receptor in Gamma-Delta T Cell Development

Ikuta, K.; Lee, H.-C.; Ye, S.-K., Kyoto

29 IL-7 and IL-7R

31 The IL-7R in Proliferation and Survival of $\gamma\delta$ T Cells

35 The IL-7R in Recombination of TCR γ Genes

35 Accessibility Control of the TCR γ Locus by the IL-7R

39 Concluding Remarks

39 Acknowledgment

40 References

43 Epidermal and Dermal Gamma-Delta T Cells

Tamaki, K.; Sugaya, M.; Tada, Y.; Yasaka, N., Tokyo; Uehira, M.; Nishimoto, H., Osaka; Nakamura, K., Tokyo

43 Dendritic Epidermal T Cells

45 Dermal T Cells

46 Lessons from IL-7 Transgenic Mice

50 Acknowledgment

50 References

52 Cytokine Profiles and Responsiveness of Dendritic Epidermal T Cells: Cytokine-Mediated Communication with Other Cells

Matsue, H., Dallas, Tex.

53 Activation of Dendritic Epidermal T Cells

53 Cytokine Profiles of Dendritic Epidermal T Cells

55 Cytokine Responsiveness of Dendritic Epidermal T Cells

58 Cytokine-Mediated Intercellular Communication

59 Communication between Dendritic Epidermal T Cells and Langerhans Cells

59 Roles of Dendritic Epidermal T Cell Cytokines in Diseases

60 Concluding Remarks

61 Acknowledgment

61 References

66 Gamma-Delta T Cells with Emphasis on Their Functional Role in the Epidermis

Shiohara, T.; Mizukawa, Y.; Teraki, Y.; Fukuda, T., Tokyo

67 Murine $\gamma\delta$ T Cells as a Means of Downregulation of Inflammatory Responses

70 Human Epidermal T Cells as Equivalent of Murine DETC

73 Human $\gamma\delta$ T Cells Expressing CD8 $\alpha\alpha$

74 Human $\gamma\delta$ T Cells in the Periphery

75 $\gamma\delta$ T Cells Providing Primary Protection against Infection

77 Outcome of $\gamma\delta$ T Cell Dysfunction

78 Migration of $\gamma\delta$ T Cells to Sites of Infection

81 Conclusions and Perspectives

82 References

87 Role of Gamma-Delta T Cells in Cutaneous Hypersensitivity Reactions

Salerno, A.; Sireci, G.; Milano, S.; Di Sano, C.; Bonanno, C.T.; Dieli, F., Palermo

88 Involvement of $\gamma\delta$ T Cells in the CS Reaction

89 $\gamma\delta$ Cells Accumulate in the Draining Lymph Nodes and at the Antigen Challenge Site

91 Role of Lymphokines in the Accumulation of V γ 3+ Cells in the Draining Lymph Nodes and at the Site of Inflammation

- 93 Molecular Basis of the Accumulation of V γ 3+ Cells at the Site of Inflammation
- 95 Conclusions
- 96 Acknowledgments
- 96 References

99 **Gamma-Delta T Cells: Immunoregulatory Functions and Immunoprotection**

Cai, J.-L., New Haven, Conn.; *Tucker, P.W.*, Austin, Tex.

- 100 The $\gamma\delta$ T Cell Receptor and Its Genes
- 100 Limited Variable Gene Segments of the $\gamma\delta$ T Cell Receptor
- 102 $\gamma\delta$ T Cell Receptor Has a Unique Structure
- 104 Preferred Tissue and Organ Distribution of $\gamma\delta$ T Cells
- 105 Antigen Recognition by $\gamma\delta$ T Cells
- 105 Human V γ 9V δ 2 Cells Recognize Phosphoantigens and Alkylamines in a Major Histocompatibility Complex-Independent Pattern
- 106 Human V δ 1 Intraepithelial Lymphocytes Recognize Stress-Inducible Major Histocompatibility Complex-Class-I-Chain-Related Antigens
- 107 Murine $\gamma\delta$ T Cells Recognize Different Antigens
- 108 Ontogeny of $\gamma\delta$ T Cells
- 108 Sequential Waves of Emerging $\gamma\delta$ T Cells
- 108 $\gamma\delta$ T Cells Are First Generated in the Liver and Primitive Gut
- 109 Change of the Generation and Complexity during $\gamma\delta$ T Cell Development
- 110 $\gamma\delta$ T Cells Follow a Different Developmental Pathway
- 110 Mechanisms of $\gamma\delta$ T Cell Repertoire Bias
- 111 Cell Surface Molecules of $\gamma\delta$ T Cells
- 111 Natural Killer Cell Receptors Expressed by $\gamma\delta$ T Cells
- 112 Other Surface Molecules
- 112 Effector Functions of $\gamma\delta$ T Cells
- 112 Cytokine Production and Responsiveness of $\gamma\delta$ T Cells
- 114 Effector Functions of $\gamma\delta$ T Cells
- 115 Interaction of $\gamma\delta$ T Cells with $\alpha\beta$ T Cells
- 115 Interaction of $\gamma\delta$ T Cells with Other Cells
- 116 $\gamma\delta$ T Cells in Tumor Immunity
- 117 $\gamma\delta$ T Cells: Roles in Autoimmunity and Inflammatory Diseases
- 117 $\gamma\delta$ Intraepithelial Lymphocytes and Mucosal Tolerance and Hypersensitivity
- 118 Intraepithelial Lymphocytes and Inflammatory Diseases
- 118 Regulation of Self-Reactive $\gamma\delta$ T Cells
- 119 $\gamma\delta$ T Cells and Autoimmune Diseases
- 120 $\gamma\delta$ T Cells and Multiple Sclerosis and Experimental Allergic Encephalomyelitis
- 121 $\gamma\delta$ T Cells and Scleroderma and Systemic Sclerosis
- 121 $\gamma\delta$ T Cells and Pregnancy
- 121 $\gamma\delta$ T Cells and Transplants

121	$\gamma\delta$ T Cells and Infection
121	$\gamma\delta$ T Cells and <i>M. tuberculosis</i> Infections
123	$\gamma\delta$ T Cells and Virus Infections
124	$\gamma\delta$ T Cells and Malaria Infection
124	$\gamma\delta$ T Cells and Bacterial Infection
125	Conclusions
125	References
139	Author Index
140	Subject Index
