

Contents in Brief

■ 1 Anatomy	1
■ 2 Physiology	31
■ 3 Pathology	47
■ 4 Complete Decongestive Therapy	111
■ 5 Treatment	143
■ 6 Administration	237
Sample Forms and Templates	244
■ Appendix	257
Glossary	258
Index	274

Contents

■ 1 Anatomy	1	The Two-Phase Approach in	
Circulatory System	2	Lymphedema Management	133
Lymphatic System	4	Documentation Techniques for	
Topography	4	Lymphedema	137
Components	4	■ 5 Treatment	143
Lymphatic Watersheds	14	General Considerations	144
Interterritorial Anastomoses	17	Application of Basic MLD Techniques	
Lymphatic Drainage and Regional		on Different Parts of the Body	144
Lymph Node Groups of Different Body		Treatment Sequences	157
Parts	18	Application of Compression Bandages ...	179
■ 2 Physiology	31	Measurements for Compression	
Heart and Circulation	32	Garments	202
Blood Pressure	35	Patient Education	209
Capillary Exchange	35	■ 6 Administration	237
Physiology of the Lymphatic System	42	Setting Up a Lymphedema Clinic	238
Insufficiencies of the Lymphatic System .	43	Suggested Materials to Start Up a	
■ 3 Pathology	47	Lymphedema Program	240
Lymphedema	48	Reimbursements and Billing	241
Chronic Venous and Lymphovenous		Sample Forms and Templates	244
Insufficiency	78	Patient Information	244
Wounds and Skin Lesions	84	Lymphedema Evaluation	245
Lipedema	95	Physical Examination	247
Traumatic Edema	98	Measurement of the Upper Extremity ...	248
Inflammatory Rheumatism	101	Measurement of the Lower Extremity ...	249
Reflex Sympathetic Dystrophy	103	Progress Notes	250
Cyclic Idiopathic Edema	105	Photography Release	251
■ 4 Complete Decongestive Therapy .	111	Privacy Rules Notification	252
History and Background	112	Health Information Consent	253
Goal of Complete Decongestive		Example of Letter of Medical	
Therapy	113	Necessity	254
Components of Complete Decongestive		Information on Lymphedema for	
Therapy	114	Patients	255
Compression Therapy	122	■ Appendix	257
Decongestive Exercises	130	Glossary	258
Skin and Nail Care	133	Index	274
