Foreword.....	V
Acknowledgements	VII
Table of Contents	XI
List of Figures.....	XV
List of Tables	XVII
List of Abbreviations	XIX
1 Introduction.....	1
1.1 Motivation	1
1.2 Structure of the Dissertation	7
2 The European Trademark System.....	11
2.1 The Role of Trademarks for Companies	11
2.1.1 The Function of Information Transmission	12
2.1.2 The Function of Product Identification.....	13
2.2 The Structure of the European Trademark System	15
2.3 The Process of Trademark Registration	16
2.4 Requirements for Registrability.....	18
2.5 Ways to Challenge Trademarks Before and After Registration.....	21
2.6 Insights into the Trademark Register	24
2.6.1 Applications and Registered Trademarks	26
2.6.2 Trademark Applicants	31
3 The Market Value of R&D, Patents, and Trademarks.....	35
3.1 Introduction	35
3.2 Trademarks and the Market Value Approach	39
3.2.1 The Market Value Approach	39

3.2.2	Including Trademarks in the Market Value Equation	41
3.2.3	Indicators of Trademark Value	43
3.2.4	Accounting for Trademark Value in the Market Value Equation	46
3.2.5	Estimation Method	47
3.3	Data Sources, Operationalization and Descriptive Statistics	48
3.3.1	Data Source and Sample	48
3.3.2	Variables	50
3.3.2.1	Tobin's q	50
3.3.2.2	Knowledge Assets	51
3.3.2.3	Trademark Stocks	53
3.3.2.4	Control Variables	54
3.3.3	Descriptive Statistics	54
3.4	Estimation and Discussion of Results	61
3.5	Conclusions	70
4	Trademark Filing Strategies and Their Valuation: Creating, Hedging, Modernizing, and Extending Brands	73
4.1	Introduction	73
4.2	The Connection Between Market Value, Brand Management, and Trademarks	78
4.2.1	Brand Assets	79
4.2.2	Brand Management	82
4.2.3	Creating Versus Developing Brands	84
4.2.4	Informational Leverage, Transferable Reputation, and Spillover Effects	87
4.2.5	Trademark Filing Strategies Reflecting Brand Management	90
4.3	Revealing the Structure of Trademark Portfolios	93
4.3.1	Data Source and Sample	94
4.3.2	Building Trademark Portfolios	95
4.3.3	Identifying Trademark Families	96
4.3.4	Trademark Filing Strategies	110
4.4	The Market Value Approach	118
4.5	Dataset, Variables, and Descriptive Statistics	122

4.5.1 Dataset	123
4.5.2 Variables	124
4.5.3 Descriptive Statistics	127
4.6 Empirical Model and Results	133
4.6.1 Multivariate Specification	133
4.6.2 Estimation and Discussion of Results.....	134
4.7 Conclusions	139
5 The Importance of Technology- and Market-Based Assets in Stock Movement.....	143
5.1 Introduction	143
5.2 Sources of Comovement and Development of a Theoretical Model	147
5.2.1 Fundamentals-Based Comovement	147
5.2.2 Industry-Specific Comovement	149
5.2.3 Other Sources of Comovement.....	150
5.2.4 Theoretical Model.....	151
5.3 Construction of Dataset	154
5.3.1 Data Source and Sample.....	154
5.3.2 Operationalization of Variables.....	155
5.3.2.1 Comovement of Stock Returns	156
5.3.2.2 Financial Market-Related Comovement.....	157
5.3.2.3 Technology Proximity	158
5.3.2.4 Product Market Proximity.....	160
5.3.2.5 Industry-Specific Comovement	162
5.3.3 Timing Issues Associated with Comovement and Proximity Measures	162
5.4 Descriptive Statistics	165
5.4.1 Companies	165
5.4.2 Company Pairs.....	167
5.4.3 Proximity Measures and Comovement.....	168
5.4.4 Proximity Measures and Industries	172
5.5 Estimation of the Theoretical Model and Results	176
5.5.1 Dealing with Non-Independent Observations in Dyadic Datasets	176

5.5.2 Estimation and Discussion of the Results.....	179
5.5.3 Robustness Checks: Pairwise Data, Frequency of Comovement, and Proximity Measures	184
5.6 Conclusions	188
6 Summary of the Results and Outlook.....	193
Appendix: Connecting Companies with Patent and Trademark Applicants	199
List of References.....	203
