

Table of Contents

Localization for Mobile Entities

MGALE: A Modified Geometry-Assisted Location Estimation Algorithm Reducing Location Estimation Error in 2D Case under NLOS Environments	1
<i>Pampa Sadhukhan and Pradip K. Das</i>	
Predicting User-Cell Association in Cellular Networks from Tracked Data	19
<i>Kateřina Dufková, Jean-Yves Le Boudec, Lukáš Kencl, and Milan Bjelica</i>	
Discovering Significant Places from Mobile Phones – A Mass Market Solution	34
<i>Guang Yang</i>	
Adaptive Motion Model for a Smart Phone Based Opportunistic Localization System	50
<i>Maarten Weyn, Martin Klepal, and Widyawan</i>	

Localization Using RSSI

Model-Free Probabilistic Localization of Wireless Sensor Network Nodes in Indoor Environments	66
<i>Ioannis C. Paschalidis, Keyong Li, and Dong Guo</i>	
A Calibration-Free Localization Solution for Handling Signal Strength Variance	79
<i>Fangfang Dong, Yiqiang Chen, Junfa Liu, Qiong Ning, and Songmei Piao</i>	
Indoor Location and Orientation Determination for Wireless Personal Area Networks	91
<i>Zekeng Liang, Ioannis Barakos, and Stefan Poslad</i>	

Localization with Novel Sensors

Localize Vehicles Using Wireless Traffic Sensors	106
<i>Peng Zhuang and Yi Shang</i>	
On the Feasibility of Determining Angular Separation in Mobile Wireless Sensor Networks	115
<i>Isaac Amundson, Manish Kushwaha, and Xenofon D. Koutsoukos</i>	

Controlling Error Propagation in Mobile-Infrastructure Based Localization	128
<i>Ying Zhang and Juan Liu</i>	
Estimation of Indoor Physical Activity Level Based on Footstep Vibration Signal Measured by MEMS Accelerometer in Smart Home Environments	148
<i>Heyoung Lee, Jung Wook Park, and Abdelsalam(Sumi) Helal</i>	
Localization by Experiments	
Inferring Motion and Location Using WLAN RSSI	163
<i>Kavitha Muthukrishnan, Berend Jan van der Zwaag, and Paul Havinga</i>	
WASP: An Enhanced Indoor Locationing Algorithm for a Congested Wi-Fi Environment	183
<i>Hsiuping Lin, Ying Zhang, Martin Griss, and Ilya Landa</i>	
A Long-Duration Study of User-Trained 802.11 Localization	197
<i>Andrew Barry, Benjamin Fisher, and Mark L. Chang</i>	
Invited Papers	
Tutorial on Location Determination by RF Means.....	213
<i>Richard Fuller</i>	
A Survey on Localization for Mobile Wireless Sensor Networks.....	235
<i>Isaac Amundson and Xenofon D. Koutsoukos</i>	
Performance of TOA- and RSS-Based Indoor Geolocation for Cooperative Robotic Applications	255
<i>Nader Bargshady, Nayef A. Alsindi, and Kaveh Pahlavan</i>	
Author Index	267
