

Contents

- 1 Foreword: Seismic Exploration of the Deep Continental Crust
D. Gajewski and W. Rabbel
- 7 Nature of Crustal Reflectivity along the DEKORP Profiles in Germany in Comparison with Reflection Patterns from Different Tectonic Units World-wide: A Review
R. Meissner and W. Rabbel
- 29 Scales of Heterogeneities in the Continental Crust and Upper Mantle
M. Tittgemeyer, F. Wenzel, T. Ryberg and K. Fuchs
- 53 Seismic, Structural and Petrological Models of the Subcrustal Lithosphere in Southern Germany: A Quantitative Revaluation
T. Weiss, S. Siegesmund and T. Bohlen
- 83 Seismic Shear Waves in Deep Seismic Reflection Surveys: Some Notes on Problems and Profits
E. Lüschen
- 97 Seismic Velocities and Anisotropy of the Lower Continental Crust: A Review
T. Weiss, S. Siegesmund, W. Rabbel, T. Bohlen and M. Pohl
- 123 Recovering Shear-wave Anisotropy of the Lower Crust: The Influence of Systematic Errors on Travel-time Inversion
T. Bohlen, W. Rabbel, T. Weiss, S. Siegesmund and M. Pohl
- 139 Realistic Models of Anisotropic Laminated Lower Crust
M. Pohl, F. Wenzel, T. Weiss, S. Siegesmund, T. Bohlen and W. Rabbel
- 157 3-D Prestack Kirchhoff Migration of the ISO89-3D Data Set
S. Buske
- 173 3-D Prestack-migration of Wide-angle Data from a Variscan Transition Zone
F. Bleibinhaus, M. Bopp, M. Simon and H. Gebrande

- 187 Focusing in Prestack Isochrone Migration Using Instantaneous Slowness Information
 M. Tillmanns and H. Gebrande
- 207 An Attempt to Integrate Reflection Seismics and Balanced Profiles
 D. Gajewski, A. Lambrecht and O. Oncken
- 233 Incorporation of the Effects of Absorption into Kirchhoff Migration
 C. Toutou
- 253 Enhancement of Deep Seismic Reflections in Pre-stack Data by Adaptive Filtering
 B. Buttkus and C. Bönnemann
- 279 Estimation of Seismic Velocities from Deep Reflections in the τ - p Domain
 C. Bönnemann and B. Buttkus
- 303 The Use of Wave-field Directivity for Velocity Estimation: Moving Source Profiling (MSP) Experiments at KTB
 J. Müller, M. Janik and H.-P. Harjes
- 319 Elimination of Noise Caused by Spikes and Bursts in Vibroseis Data
 U. Polom
- 345 How to Remedy Non-optimal Seismic Data by Seismic Processing
 J. Fertig, M. Thomas and R. Thomas
