

Contents

1 Basic Aspects

A Rational Approach to Immune Intervention	
T.M. Kündig	1
Skin as an Immunocompetent Organ in Health and Disease	
T. Bieber and A. Wollenberg	21

2 Immunosuppressive and Antiinflammatory Compounds

Cyclosporin A	
T. Wrone-Smith and B.J. Nickoloff	29
Rapamycin	
F. O. Nestle	43
FK-506/Tacrolimus	
A. Wollenberg and T. Bieber	53
Low-Dose Methotrexate: An Immunomodifying Therapeutic Strategy for Dermatologic Diseases	
I. Boehm and R. Bauer	59
Leflunomide	
R. Dummer, G. Hofbauer, G. Burg, and R. R. Bartlett	71
Fusion Toxins	
F. M. Foss	79
Dermatological Phototherapy: A Prime Example of Ultraviolet Radiation-Induced Immunointervention	
J. Krutmann	89
Cytokines with Immunosuppressive Capacities	
T.A. Luger and M. Böhm	101
Extracorporeal Photochemotherapy	
M. Girardi and P. Heald	119
Glucocorticosteroids	
C. A. Akdis	131
High-Dose Intravenous Immunoglobulins	
G. Messer and M. Meurer	147

3 Immunostimulatory Substances and Vaccination Therapies

Interferon- α Therapy in Dermatology	
M. Micksche	161
Tumor Necrosis Factors	
R.M. Trüeb	169
Cytokines and Cytokine Gene Transfer in Cancer Treatment	
D. Schadendorf	181
Development of a DNA Vaccine Against Malignant Melanoma	
K. Moelling, B. Strack, M. Nawrath, J. Heinrich, C. Döhning, S. N. Wagner, and J. Pavlovic	195
Low Molecular Weight Cytokine Inducers	
P. Stütz and E. Lielh	207

4 Clinical Aspects of Immunosuppression and Immunostimulation

4.1 Dermatoses Treated with Immunosuppressives	217
Autoimmune Bullous Diseases	
D. Zillikens and L.A. Diaz	217
Rheumatic Disease Group	
R.M. Trüeb	227
Atopic Dermatitis	
U. Reinhold	243
Psoriasis – Mediation of Skin Phenotype by Circulatory Pathogenic T Lymphocytes	
B.J. Nickoloff	253
Vasculitis Allergica	
B. Zelger	263
Contact Dermatitis	
A.H. Enk and J. Knop	273
Pyoderma Gangrenosum	
P. Schmid-Grendelmeier	283
4.2 Dermatoses Treated with Immunostimulatory Drugs and Vaccination Therapies	293
4.2.1 Infections	293
Viral Infections: Human Papillomavirus Infections Treated with Immunostimulatory Drugs and Vaccination Therapies	
G. Gross	293
Immunostimulation and Vaccination Therapy of Human Immunodeficiency Virus Infection	
N.S. Penneys	307

Cytokine Therapy and Vaccination in Tropical Diseases:
Leishmaniasis and Leprosy
G. Kolde and C. Sunderkötter 311

4.2.2 Neoplasms 321

Cutaneous Lymphomas
G. Burg, R. Dummer, and F. O. Nestle 321

Non-melanoma Skin Cancer
S.A. Buechner 337

Therapy of Kaposi’s Sarcoma
W. Kempf 347

4.2.3 Strategies for Immunointervention in Malignant Melanoma 357

Adjuvant Melanoma Therapy
A. Hauschild and E. Stockfleth 357

Cytokine-Based Treatments for Advanced Melanoma
U. Keilholz and C. Scheibenbogen 365

Gene Therapy: A New Perspective for the Treatment of Malignant Melanoma
D. Schadendorf and R. Dummer 375

Topical Immunotherapy of Malignant Melanoma
K. Zepter and A. Häffner 387

Vaccination with Dendritic Cells — A Specific Immunomodulatory Approach
for the Treatment of Malignant Melanoma
D. Schadendorf, S. Grabbe, and F.O. Nestle 399

Subject Index 410
