

Contents

Part I General Overview	1
1 Review	
M. BUCH	3
Including the following chapters written by	
1.2.1 The Influence of Shock Wave Therapy	
in Epicondylopathic Humeri Radialis et Ulnaris. –	
Results from the Orthopaedic Hospital in Kassel	
M. BUCH · B. A. SCHLANGMANN · D. TRÄGER, and	
W. E. SIEBERT	
1.2.2 Results of Shock Wave Therapy of Calcaneal Spur	
from the Orthopaedic Hospital in Kassel:	
Influence of Various Parameters on the Outcome	
M. BUCH · B. A. SCHLANGMANN, C. LÜBBERS ·	
D. TRÄGER, and W. E. SIEBERT	
1.2.3 Results of Shock Wave Therapy of Tendinosis	
Calcarea from the Orthopaedic Hospital in Kassel:	
Comparison of Low- and High Energy Shock Wave	
Therapy and Needling in Tendinosis Calcarea	
of the Shoulder	
M. BUCH · B. A. SCHLANGMANN · D. TRÄGER, and	
W. E. SIEBERT	
2 Shock Wave Technology	
F. UEBERLE	59
Part II Animal Experiments and Clinical Experiences	
in Shock Wave Treatment of the Bone	89
3 Effect of Extracorporeal Shock Waves on Bone:	
A Review of Shock Wave Experiments and the Mechanism	
of Shock Wave Action	
M. DELIUS, K. DRAENERT, Y. DRAENERT, and M. BÖRNER	91
4 The Influence of Shock Waves on Epiphysial Growth Plates:	
First Results of an In-vivo Study with Rabbits	
S. LÜSSENHOF, D. SEEMANN, M. HAHN, and, L. MEISS ...	109

5	Osteorestitution via Shock Wave Application. A new Possibility of Treating Disturbed Bone Union J. HAIST	119
6	Extracorporeal Shock Waves in the Treatment of Pseud- arthrosis, Tendinosis Calcarea of the Shoulder, and Calcaneal Spur R. DIESCH and G. HAUPT	131
7	Clinical Experience with Shock Wave Therapy of Pseud- arthrosis, Delayed Fracture Healing, and Cement-Free Endoprosthesis Loosening W. SCHADEN	137
8	Results with Extracorporeal Shock Wave Therapy in Bone and Soft Tissue Pathologies S. RUSSO, S. GIGLIOTTI, C. DE DURANTE, R. CANERO, D. ANDRETTA and B. CORRADO	149
 Part III The Application of Shock Wave Therapy		
	in Tendopathies and Tendinosis Calcarea	157
9	The Orthopaedic Shock Wave Therapy in the Treatment of Chronic Insertion Tendopathy and Tendinosis Calcarea J. HAIST, D. VON KEITZ-STEEGER, G. MOHR, G. SCHULZE, and F. WEBER	159
10	Ultrasound-guided Extracorporeal Shock Wave Therapy of Tendinosis Calcarea of the Shoulder, of Symptomatic Plantar Calcaneal Spur (Heel Spur) and of Epicondylitis Radialis et Ulnaris C. JAKOBEIT, L. WELP, B. WINIARSKI, R. SCHUHMACHER, T. OSENBERG, T. SPLITTGERBER, G. SPELSBERG, W. BUNTROCK, U. MISSULIS, U. KROLL, A. SCHMEISER, M. BEER, and B. WINARSKI	165
11	Course Observations after Extracorporeal Shock Wave Therapy (ESWT) in Cases of Pain in the Locomotor System with Circumscribed Localization TH. WOLF and J. BREITENFELDER	181
12	The German Extracorporeal Shock Wave Society (DGST) R. THIELE	189
13	Therapy-Resistant Insertion Tendinosis: Indication for Extracorporeal Shock Wave Therapy or Surgery? CHR. VON HASSELBACH	201

Part IV Further Fields of Application	213
14 The Use of Extracorporeal Shock Wave Fronts for Treatment of Muscle Dysfunction of Various Etiologies: An Overview of First Results H. LOHSE-BUSCH, M. KRAEMER, and U. REIME	215
15 Treatment of Neuromuscular Dysfunction in Children with Spastic Cerebral Palsy by Extracorporeal Unfocused Shock Waves J. BAUMANN and J. BAUMANN	231
Sachverzeichnis	241
