Preface	
Achieving CIM, User Perspectives	1
CIM Systems Communications at FIAT Automobile Division	
R. Vio, Fiat.; R. Baldini, Fiat; F. Rusina, Sesam, Italy	3
Building CIM, not another Babel Tower	
G. Segarra, Renault, France	11
Aerospatiale Development of CIM Tools	
H. Portier, Aerospatiale, France	23
Production Automation and Integration: Perspectives in Small and Medium Enterprises	
J.J. Michel, CETIM, France	30
International Initiatives	43
Current Status and Outlook for FAIS	
Masahiro Honda, NEC, Japan	45
CNMA – A European Initiative in Manufacturing Communications	
S.C.N. Withnell, British Aerospace, United Kingdom	63
Implementation Strategies, Vendor Perspectives	77
CIM Applications: A System Integrator's View	
A. De Luca, L. Giovani, F. Marra, Olivetti, Italy	79
Open Systems and SMEs, Are they compatible?	
S. Burgmeier, Kewill Systems, United Kingdom	90
Implementing CIM: A Vendor Perspective	
N. E. Brownlow, Bull, France	98
Introduction to CNMA and MAP	107
A Review of the CNMA Project	
T. Simmons, British Aerospace, United Kingdom	109
User Requirements for Communications	
J.B. Cox, British Aerospace, United Kingdom	117
Open Systems Protocols and Specifications	131
CNMA Technical Overview	
A. Lederhofer, K. Schwarz, Siemens AG, Germany	133
ISW Pilot	
G. Krebsler, H. Lauerer, University of Stuttgart, Germany	153
Introduction to CNMA Network Management	
P. Martin, E. Arnould, Bull, France	162
Implementing Open Systems	181
Use of Computing Standards in Manufacturing	
G. Blunck – Deere & Co., USA	183
Magneti Marelli Pilot Application	
G. Medici – Magneti Marelli, Italy	190
Robotiker's Migration Gateway Concept	
J.M. Soto, J. Sanz, Robotiker, Spain	202
Overview of CNMA Products	
T. Simmons, British Aerospace, United Kingdom	214
Conformance Testing	
K. Watson – Fraunhofer Institute (IITB), Germany	217
MAP 3.0 Product Overview	
K. Grund, EDS, D	224
Manufacturing Automation Protocol	
K. Grund, EDS, D	252
Renault User Requirements (For MAP and CNMA)	
F. Langlois, Renault, F	277
