

5th High-End Visualization Workshop
March 18-21, 2009
Louisiana State University
Baton Rouge, Louisiana, U.S.A.

Proceedings of the 5th High-End Visualization Workshop

Envisioning a Standard Image Storage Framework, <i>Matthew Dougherty</i>	2
Interactive Large-Scale Volume Rendering, <i>Roman Parys & Günter Knittel</i>	16
Beyond the Visualization Pipeline: The Visualization Cascade, <i>Werner Benger, Georg Ritter, Marcel Ritter & Wolfram Schoor</i>	35
Visualizing Quarks, <i>Massimo Di Pierro</i>	50
Post-Processing Pipeline Optimization for Interactive Exploration of Multi-Block Turbine Propulsion Simulation Dataset, <i>Andreas Gerndt, Rolf Hempel, Edmund Kügeler & Torsten Kuhlen</i>	62
Towards and Interactive and Distributed Visualization System for Exploring Large Data Sets, <i>Andrei Hutanu, Jinghua Ge, Cornelius Toole, Jr. & Gabrielle Allen</i>	79
Remote Rendering Strategies for Large Biological Datasets, <i>Wolfram Schoor, Marc Hofmann, Simon Adler, Werner Benger, Bernhard Preim & Rüdiger Mecke</i>	92
Strategies for Efficient Transparency Determination Based on Depth Peeling, <i>Lars Uebernickel, Wolfram Schoor & Bernhard Preim</i>	110
List of Viz Workshop Reviewers	126
