General Preface (G. K. Mikhailov)	3
General Introduction (G. K. Mikhailov)	9

A. GENERAL FLUID DYNAMICS

Introduction to Daniel Bernoulli's <i>Hydrodynamica</i> (G. K. Mikhailov)	17
I. Historical Remarks	19
II. General Characteristics of the <i>Hydrodynamica</i>	35
III. Contents of the Individual Sections of the <i>Hydrodynamica</i>	45
IV. Analytical Table of Contents of the <i>Hydrodynamica</i>	79
Introduction to Daniel Bernoulli's Paper on <i>Some Laws of Mechanics and Their Application to the Force of a Jet</i> (G. K. Mikhailov)	85
U <i>Lettre de Mr. Daniel Bernoulli à Mr. Schoepflin sur un Livre que le premier va publier</i> (Mercure Suisse 1734)	87
St. 31 <i>Hydrodynamica, sive De Viribus et Motibus Fluidorum Commentarii</i> (Argentorati 1738)	93
St. 26 <i>De Legibus quibusdam mechanicis, quas Natura constanter affectat, nondum descriptis, earumque Usu hydrodynamico, pro determinanda vi venae aquae contra planum incurrentis</i> (CP VIII, 1736 (1741))	425
Introduction to the additional texts on General Fluid Dynamics (G. K. Mikhailov)	
I. Allen's Proposal for the Propagation of Ships by Jets	445
II. Krafft's Experiments on the Force of a Jet	446
A1 {J. Allen} <i>New Inventions for the Application of Powers ... to give Motion to Engines, whereby a Ship may be navigated in a Calm</i> (<i>Specimina Ichnographica</i> , London 1730)	449
A2 {G. W. Krafft} <i>De Vi venae aquae contra planum incurrentis Experimenta</i> (CP VIII, 1736 (1741))	464

B. GEOPHYSICAL FLUID DYNAMICS AND BAROMETRICAL STUDIES

Introduction to Daniel Bernoulli's Papers on Geophysical Fluid Dynamics and Barometrical Studies (G. K. Mikhailov)

I.	The Study of the Theory of Regular Winds.....	473
II.	The Memoir on the Nature and Cause of Currents.....	489
III.	The Papers on Barometrical Studies	499
X	<i>Remarques sur les Observations Météorologiques inserées dans le Mercure Suisse de Janvier</i> (Mercure Suisse 1734)	503
St. 74	<i>Recherches physiques et mathématiques sur la Theorie des vents réglés (Prix Berlin 1746 (1747))</i>	509
St. 44	<i>Mémoire sur la nature et la cause des courans, et la meilleure maniere de les observer et de les déterminer</i> (Prix Paris 1749–51 (1769))	536
St. 44 ^{ms}	[<i>Premier Mémoire pour le prix sur les courans, en 1749</i>] (Extracts from the draft version UB Basel L I a 752, D.8)	612
T	<i>Diverses Reflexions concernant la Physique generale</i> (Acta Helvetica I, 1751; Acta Helvetica II, 1755)	622
Y	<i>Abhandlung von der Höhe der in vorstehendem Stücke beschriebenen Orte</i> (D. Bruckner, <i>Versuch einer Beschreibung historischer und natürlicher Merkwürdigkeiten der Landschaft Basel</i> , XIII. Stück, Basel 1755)	641

Introduction to the additional texts on Geophysical Fluid Dynamics (G. K. Mikhailov)

I.	Hadley's Memoir on Trade Winds.....	647
II.	Mylius' Essay on the General Laws Governing Winds.....	647
B1	{G. Hadley} <i>Concerning the Cause of the General Trade-Winds</i> (Phil. Trans. XXXIX, 1735)	651
B2	{Ch. Mylius} <i>Versuch einer Bestimmung der Gesetze der Winde wenn die Erde überall mit einem tiefen Meere bedeckt wäre</i> (Prix Berlin 1746 (1747)).....	654
