

Contents

Chapter I

The Cell Kinetics of the Inflammatory Reaction. Introduction and Overview.

O.H. IVERSEN 1

Chapter II

The Neutrophilic Granulocyte. With 7 Figures and 5 Tables

H.B. BENESTAD and O.D. LAERUM 7

Chapter III

Regulation of B-Cell Populations. With 1 Figure and 3 Tables

I.C.M. MACLENNAN, S. OLDFIELD, Y.-J. LIU, and P.J.L. LANE . 37

Chapter IV

Kinetics of T Lymphocyte Development. With 14 Figures and 2 Tables

G. JANOSSY, D. CAMPANA, and A. AKBAR 59

Chapter V

The Life History of Dendritic Leukocytes (DL). With 3 Figures and 3 Tables

S. FOSSUM 101

Chapter VI

Origin and Turnover of Monocytes and Macrophages. With 4 Figures and 7 Tables

R. VAN FURTH 125

Chapter VII

The Activated Macrophage and Granulomatous Inflammation. With 3 Figures and 1 Table

D.O. ADAMS and T.A. HAMILTON 151

Chapter VIII

The Mast Cells. With 2 Figures

L. ENERBÄCK and K. NORRBY 169

Chapter IX
Molecular Events in Liver Regeneration and Repair.
 J.L. VAN LANCKER. 205
Subject Index 255
Indexed in ISR
