

Table of Contents

Neck

1 Overview and Muscles		
1.1 The Neck: General Aspects	2	
1.2 Overview and Superficial Neck Muscles	4	
1.3 Suprahyoid and Infrahyoid Muscles	6	
1.4 Prevertebral and Lateral (Deep) Neck Muscles	8	
2 Arteries		
2.1 Arteries	10	
2.2 Veins	12	
2.3 Lymphatic System	14	
2.4 Overview of the Nervous System in the Neck and the Distribution of Spinal Nerve Branches	16	
2.5 Cranial Nerves and Autonomic Nervous System in the Neck	18	
3 Cervical Viscera		
3.1 Embryology	20	
3.2 Thyroid Gland and Parathyroid Glands	22	
3.3 Larynx: Location, Shape, and Laryngeal Cartilages	24	
3.4 Internal Features and Neurovascular Structures	26	
3.5 Muscles	28	
3.6 Topographical and Clinical Anatomy	30	
3.3 Pharynx: Muscles	32	
3.8 Surface Anatomy of the Mucosa and its Connections with the Skull	34	
3.9 Topographical Anatomy and Innervation	36	
3.10 Neurovascular Structures in the Parapharyngeal Space ..	38	
3.11 The Parapharyngeal Space and Its Clinical Significance ..	40	
4 Topographical Anatomy		
4.1 Surface Anatomy and Triangles of the Neck	42	
4.2 Posterior Cervical Triangle	44	
4.3 Anterior Cervical Triangle	46	
4.4 Deep Lateral Cervical Region, Caracotid Triangle, and Thoracic Inlet	48	
4.5 Posterior Cervical and Occipital Regions	50	
4.6 Cross-sectional Anatomy of the Neck from the T1 / T2 to C6 / C7 Levels	52	
4.7 Cross-sectional Anatomy at the Level of the C5 / C6 Vertebral Bodies	54	

Thorax

1 Spaces

1.1	Overview of the Thoracic Skeleton and its Landmarks	58
1.2	Divisions of the Thoracic Cavity and Mediastinum	60
1.3	Overview of the Mediastinum	62
1.4	Contents of the Mediastinum	64
1.5	Pericardium	66
1.6	Pleural Cavity	68

2 Organs

2.1	Esophagus:	
	Location, Divisions, and Special Features	70
2.2	Location and Wall Structure	72
2.3	Inlet and Outlet, Opening and Closure	74
2.4	Trachea: Thoracic Location and Relations	76
2.5	Lung:	
	Thoracic Location and Relations	78
2.6	Shape and Structure	80
2.7	Trachea and Bronchial Tree:	
	Shape and Structure	82
2.8	Lung:	
	Segmentation	84
2.9	Functional Structure of the Bronchial Tree	86
2.10	Functional Structure of the Vascular Tree	88
2.11	Diaphragm	90
2.12	Respiratory Mechanics	92
2.13	Prenatal and Postnatal Circulation	94
2.14	Heart:	
	Anterior View	96
2.15	Lateral and Superior Views	98
2.16	Shape and Structure	100
2.17	Muscular Structure (Myocardium)	102
2.18	Atria and Ventricles	104
2.19	Overview of the Cardiac Valves;	
	the Atrioventricular Valves	106
2.20	Semilunar Valves and Sites	
	for Auscultating the Cardiac Valves	108
2.21	Impulse Formation and Conduction System	110
2.22	Mechanical Action of the Heart	112

3 Blood Vessel

3.1	Thoracic Aorta	114
3.2	Vena Cava and Azygos System	116
3.3	Arteries and Veins of the Esophagus	118
3.4	Pulmonary Arteries and Veins	120
3.5	Bronchial and Diaphragmatic Arteries and Veins	122
3.6	Coronary Vessels (Coronary Arteries and Cardiac Veins):	
	Topography	124
3.7	Coronary Vessels: Distribution of the Coronary Arteries	126

4 Lymphatics System

4.1	Overview of Thoracic Lymphatic Trunks and Pathways	128
4.2	Overview of the Lymph Nodes	130
4.3	The Thymus	132
4.4	Lymphatic Drainage of the Esophagus	134
4.5	Lymphatic Drainage of the Trachea, Bronchial Tree,	
	and Lungs	136
4.6	Lymphatic Drainage of the Diaphragm, Heart,	
	and Pericardium	138

5 Nervous System

5.1	Overview of Thoracic Innervation	140
5.2	Innervation of the Esophagus, Trachea,	
	and Bronchial Tree	142
5.3	Innervation of the Heart	144
5.4	Innervation of the Pericardium and Diaphragm	146

Abdomen and Pelvis

1 Spaces

1.1	Location of the Abdominal and Pelvic Organs and their Projection onto the Trunk Wall	150
1.2	Divisions of the Abdominal and Pelvic Cavities	152
1.3	Peritoneal Relationships in the Abdomen and Pelvis: Overview and Anterior Abdominal Wall	154
1.4	Peritoneal Cavity: Dissections to Display the Abdominal Viscera	156
1.5	Mesenteries and Drainage Spaces	158
1.6	Peritoneal Relationships and Recesses on the Posterior Abdominal Wall	160
1.7	The Retroperitoneum and its Contents	162
1.8	Omental Bursa	164
1.9	Transverse Sections through the Abdomen	166
1.10	Peritoneal Relationships and Pelvic Spaces: Comparison of Coronal and Parasagittal Sections in the Male and Female	168
1.11	Peritoneal Relationships and Pelvic Spaces: Comparison of Midsagittal Sections in the Male and Female	170
1.12	Peritoneal Relationships and Spaces in the Male Pelvis	172
1.13	Peritoneal Relationships and Spaces in the Female Pelvis	174
1.14	Location and Attachments of the Pelvic Organs: Comparison of Transverse Sections in the Male and Female	176

2 Organs

2.1	Embryonic Development of the Gastrointestinal Tract: Formation and Migration of Organs	178
2.2	Rotation of the Primary Intestinal Loop	180
2.3	Stomach: Location, Peritoneal Relationships, and Relationship to Adjacent Organs	182
2.4	Shape and Interior	184
2.5	Wall Structure and Histology	186
2.6	Small Intestine: Duodenum	188
2.7	Jejunum and Ileum	190
2.8	Large Intestine: Colon Segments	192
2.9	Wall Structure, Cecum and Vermiform Appendix	194
2.10	Location and Shape of the Rectum	196
2.11	Wall Structure of the Rectum and Mechanism of Defecation	198
2.12	Innervation of the Rectum and Continence Mechanisms	200
2.13	Radiography of the Small and Large Intestine	202
2.14	Liver: Position and Relationship to Adjacent Organs	204
2.15	Peritoneal Relationships and Shape	206
2.16	Segmentation and Histology	208

2.17	Gallbladder and Bile Ducts: Location and Relationship to Adjacent Organs	210
2.18	Gallbladder and Extrahepatic Bile Ducts: Structure and Sphincter System	212
2.19	Pancreas: Location and Relationship to Adjacent Organs	214
2.20	Ductal Anatomy and Histology	216
2.21	Spleen	218
2.22	Suprarenal Glands	220
2.23	Overview of the Urinary Organs	222
2.24	Kidneys: Topographical Anatomy	224
2.25	Fasciae and Capsules; Shape and Structure	226
2.26	Architecture and Microstructure	228
2.27	Renal Pelvis and Urinary Transport	230
2.28	Ureters and Bladder in the Male: Topographical Anatomy	232
2.29	Ureters and Bladder in the Female: Topographical Anatomy	234
2.30	Bladder and Urethra: Wall Structure and Function	236
2.31	Urethra: Location and Structure	238
2.32	Overview of the Genital Tract	240
2.33	Embryology of the Genital Organs	242
2.34	Female Internal Genitalia: Overview	244
2.35	Topographical Anatomy and Peritoneal Relationships; Shape and Structure	246
2.36	Wall Structure and Function	248
2.37	Vagina, Uterine Positions	250
2.38	Ovary and Follicular Maturation	252
2.39	Pregnancy and Childbirth	254
2.40	Male Genitalia: Accessory Sex Glands	256
2.41	Scrotum, Testis, and Epididymis	258
2.42	Seminiferous Structures and Ejaculate	260

3 Blood Vessels

3.1	Arteries of the Abdomen and Pelvis	262
3.2	Branches of the Celiac Trunk: Arteries Supplying the Stomach, Liver and Gallbladder	264
3.3	Arteries Supplying the Pancreas, Duodenum, and Spleen	266
3.4	Branches of the Superior Mesenteric Artery: Arteries Supplying the Pancreas, Small Intestine, and Large Intestine	268
3.5	Branches of the Inferior Mesenteric Artery: Arteries Supplying the Large Intestine	270
3.6	Tributaries of the Inferior Vena Cava	272
3.7	Tributaries of the Portal Vein	274
3.8	Portal Vein: Venous Drainage of the Stomach, Duodenum, Pancreas, and Spleen	276
3.9	Superior and Inferior Mesenteric Vein: Venous Drainage of the Small and Large Intestine	278

Neurovascular Supply to the Organs

3.10	Arteries and Veins of the Kidneys and Suprarenal Glands: Overview	280
3.11	Topographical Anatomy and Variants	282
3.12	Divisions and Topographical Anatomy of the Internal Iliac Artery	284
3.13	Arteries and Veins of the Pelvic Organs	286
3.14	Arteries and Veins of the Rectum	288
3.15	Arteries and Veins of the Female Genitalia and Urinary Organs	290
3.16	Venous Anastomoses in the Abdomen and Pelvis	292

4 Lymphatic System

4.1	Overview of Lymphatic Trunks and Lymph Node Groups in the Abdomen and Pelvis	294
4.2	Overview of the Lymphatic Drainage of Abdominal and Pelvic Organs	296
4.3	Lymphatic Drainage of the Stomach, Spleen, Pancreas, Duodenum, and Liver	298
4.4	Lymphatic Drainage of the Small and Large Intestine	300
4.5	Lymphatic Drainage of the Kidneys, Suprarenal Glands, Ureter, and Bladder	302
4.6	Lymphatic Drainage of the Male and Female Genitalia	304

5 Autonomic Nervous System

5.1	Organization of the Sympathetic and Parasympathetic Nervous Systems	306
5.2	Autonomic Ganglia and Plexuses	308
5.3	Autonomic Innervation of the Liver, Gallbladder, Stomach, Duodenum, Pancreas, and Spleen	310
5.4	Autonomic Innervation of the Intestine: Distribution of the Superior Mesenteric Plexus	312
5.5	Distribution of the Inferior Mesenteric Plexus and Inferior Hypogastric Plexus	314
5.6	Autonomic Innervation of the Urinary Organs and Suprarenal Glands	316
5.7	Autonomic Innervation of the Male Genitalia	318
5.8	Autonomic Innervation of the Female Genitalia	320

1.1	Thymus	325
1.2	Larynx	326
1.3	Thyroid Gland	327
1.4	Pharynx	328
1.5	Esophagus	329
1.6	Heart	330
1.7	Pericardium	331
1.8	Lung and Trachea	332
1.9	Diaphragm	333
1.10	Liver, Gallbladder, and Spleen	334
1.11	Stomach	335
1.12	Duodenum und Pancreas	336
1.13	Jejunum und Ileum	337
1.14	Cecum, Vermiform Appendix, Ascending and Transverse Colon	338
1.15	Descending Colon and Sigmoid Colon	339
1.16	Rectum	340
1.17	Kidney, Ureter, and Suprarenal Gland	341
1.18	Bladder, Prostate, and Seminal Vesicle	342
1.19	Testis, Epididymis, and Vas Deferens	343
1.20	Uterus, Fallopian Tube, and Vagina	344
1.21	Fallopian Tube and Ovary	345

Appendix
