

# Contents

---

<b>Part I</b>	<b>Introduction</b>	
---------------	---------------------	--

---

Contributions of Hermann Haken to Our Understanding of Coherence and Selforganization in Nature. By R. Graham . . . . .	2
---	---

---

<b>Part II</b>	<b>Instabilities in Lasers</b>	
----------------	--------------------------------	--

---

Laser Physics: Yesterday and Today By F.T. Arecchi (With 4 Figures) . . . . .	14
Recent Advances in Laser Instabilities. By L.A. Lugiato, L.M. Narducci, D.K. Bandy, J.R. Tredicce, and P. Ru (With 14 Figures) . . . . .	24
Instabilities, Spatial and Temporal Patterns in Passive Optical Systems By L.A. Lugiato, L.M. Narducci, and R. Lefever (With 11 Figures) .	53
Optical Instabilities in Semiconductors By H. Haug (With 13 Figures) . . . . .	72

---

<b>Part III</b>	<b>Fluctuations in Quantum Optics</b>	
-----------------	---------------------------------------	--

---

The Polarization Symmetric Laser By S. Großmann and W. Krauth (With 6 Figures) . . . . .	90
Decay of Unstable Equilibria. By F. Haake (With 3 Figures) . . . . .	99

---

<b>Part IV</b>	<b>After-Dinner Speech</b>	
----------------	----------------------------	--

---

Synergetics and Weltanschauung. By G. Caglioti (With 8 Figures) .	112
---	-----

---

<b>Part V</b>	<b>Methods of Synergetics</b>	
---------------	-------------------------------	--

---

Boltzmann-Gibbs Entropy as a Measure of Order in Self-Organizing (Synergetic) Systems. By Yu.L. Klimontovich . . . . .	126
---	-----

---

On the Slaving Principle. By A. Wunderlin . . . . .	140
Solutions of Fokker-Planck Equations in Terms of Matrix Continued Fractions. By H. Risken (With 8 Figures) . . . . .	148

---

<b>Part VI</b>	<b>Coherence and Structure in Physical Systems</b>
----------------	--

---

Ultrafast Coherent Raman Spectroscopy By W. Zinth and W. Kaiser (With 6 Figures) . . . . .	166
Coherence in the Transport of a Quantum Particle By P. Reineker and K. Kassner (With 4 Figures) . . . . .	175
Structure Formation in Polymer Systems By G. Strobl (With 13 Figures) . . . . .	191

---

<b>Part VII</b>	<b>Selforganization in Biological Systems</b>
-----------------	---

---

A General Approach to Complex Systems in Bioholonics By H. Shimizu (With 8 Figures) . . . . .	204
Toward a Physical (Synergetic) Theory of Biological Coordination By J.A.S. Kelso and G. Schöner (With 4 Figures) . . . . .	224
Synergetics and Social Science. By W. Weidlich (With 12 Figures) . . . . .	238
<b>Hermann Haken's Publications</b> . . . . .	257
<b>Index of Contributors</b> . . . . .	271
