

Table of Contents

Preface and Committees

Chapter 1: Materials for Energy Storage Devices

Effect of Electrode Thickness on Capacitive and Self-Discharge Performance of Carbon-Based Supercapacitor M. Deraman, H.S. Kumar, S.A. Shamsudin, M.I. Rosli, F.S. Omar, M.A.R. Othman, M.A. Mohamed, A. Awitdrus, R. Farma and E. Taer	3
Effect of Zinc Oxide Nanofiller on the Ionic Conductivity of Carboxymethyl Cellulose-Based Solid Polymer Electrolyte N.A. Azmi, S.M. Tahir and H.A. Rafaie	15

Chapter 2: Functional Ceramics and Oxides

First Principle Calculation of Lattice, Electronic Structures and Hole Concentration of Ca-Doped YBCO C.M. Cheong and S.K. Chen	25
Analysis on Structural and Electrical Properties of High and Low Density Eu-Doped Bi(Pb)-2223 Superconductor N.E. Suhaimi, A. Hashim, W.A. Wan Razali, S.F. Saipuddin and N. Ibrahim	33
PSO-SVR Algorithm for Accurate ZnO Energy Band Gap Prediction M.A. Abd Rahman, N.A. Mohd Shazali and C.E.A. Bundak	41
Accelerated Synthesis of GIS Zeolite via Ultrasonic-Aided Hydrothermal Growth N. Jusoh and M.I. Mohd Hasbullah	51

Chapter 3: Materials and Technologies in Mechatronics

Thermoelectric Properties of Antiperovskite X_3SiO (X = Sr and Ba) M.S.A. Rahim, A. Chik and Y.C. Keat	63
Recording Performance of Bit Patterned Media in Account of Magneto-Interaction Field and Bit Error Rate C.M. Cheong, H.W. Su, T.F. Lai, M.H. Abdul Halim and M.L.P. Tan	73
Integrated Weighing System Using Load Cell and Ultrasonic Sensor: A Case Study at Negeri Roadstone Malaysia Quarry N.A.B. Nik Rusli and A. Alias	79

Chapter 4: Functional Nanocomposites

Preparation of UPR/Cu-Zn-Al_2O_3 Nanocomposite Coating for Mild Steel Corrosion Protection Y. Mahani, I.M.A. Husni, T.P. Ter, W.N.W. Mohd Norsani and R. Mohd Hasmizam	89
A Facile <i>In-Situ</i> Synthesis and Characterizations of Silver-Graphene Oxide (AgGO) Nanocomposite Using Chives as a Reducing and Stabilizing Agent N.I. Ikhsan, N.A. Sutiman and N.F. Samsudin	95

Chapter 5: Green Building Materials

A Review: Characterization of Bio-Cement Composites Reinforced with Calcium Carbonate Obtained from Chicken Egg-Shells R. Rosmamuhamadani, N.A.S. Ab. Razak, M.M. Mahat, S. Osman, M.N. Zakaria and S.M. Yahaya	105
