Introduction

- The Paths towards Knowledge
- Irruption of Mathematical Spaces on Management Studies
- Brief Summary of This Work
- A Return to the Origin?

Precedents: Intuitive and Axiomatic Aspects of Topology

- Brief Historical Overview of Topology
- Some Classical Approaches of Topology
- Considerations on the Subject of the Idea of Topology
- Elemental Notions in Topological Spaces
- Brief Reference to Metric Spaces

Part I: From Pretopology to Uncertain Pretopological Axiomatics

Chapter 1: Pretopology

- 1 The Notion of Combinatorial Pretopology 3
- 2 Isotone Pretopological Space 7
- 3 Distributive Pretopology 10
- 4 Correspondence between Distributive Pretopology and Reflexive Graph 12
- 5 Comparison of Pretopologies 16
- 6 Lattices of Pretopologies 19
- 7 Moore Closing 23

Chapter 2: Pretopologies in Uncertainty

- 1 Axiomatic of an Uncertain Pretopology 29
- 2 Isotonia in Uncertain Pretopologies 39
- 3 Moore's Closing in Uncertainty 46
- 4 Distributive Uncertain Pretopology 56
- 5 Uncertain Moore Pretopology 63
- 6 Brief Final Discussion on Pretopological Spaces 67

Part II: Towards an Idea of Uncertain Topological Space

Chapter 3: Topology

1	Genesis of a Topology	71
2	Topological Space	76
3	A Comparative Look at Some Spaces	83
4	The Notion of Neighbourhood	89
5	Topology, Open, Closed and Neighbourhoods	95
6	Topological Continuity, Open Functions and Closed Functions	100
7	Topological Homeomorphism	104

Chapter 4: Uncertain Topological Spaces

1	Some Notions of Uncertain Topology	107
2	The Notion of Neighbourhood in an Uncertain Topological Space	121
3	Properties of Uncertain Topologies	128
4	Induction of Deterministic Topologies from Uncertain Topologies	133
5	Process of Obtaining of Boolean Topologies from a Referential of Fuzzy Subsets	142
6	Relationship between Uncertain Topological Spaces	152
7	Continuous Functional Application in Uncertainty	164
8	Homeomorphic Applications in Uncertainty	177

Part III: Operative Techniques for Economy and Management

Chapter 5: Technical Elements with Topological Support

1	A Topology Named Clan	187
2	The Use of These Topologies in the Area of Management	192
3	Clans in Uncertainty	197
4	Neighbourhood of a Clan	209

Chapter 6: Pretopology, Topology and Affinities

1	A Return to Moore's Fuzzy Pretopology	217
2	Obtaining of Moore Closing from a Family	224
3	Obtaining of Moore Closing through a Relationship	227
4	Establishment of Connections from α -Cuts	238
5	Generalisation by Means of a Rectangular Fuzzy Relationship	247
6	The Concept of Affinity	252
7	An Application of the Theory of Affinities	259

Some Final Considerations	267
