Chapter 1

Tympanoplasty 1

General Considerations	2	4.1 Myringoplasty, Tympanoplasty ...	4
1. Definitions	2	4.2 Open Cavity (Radical Mastoido- Epitympanectomy with Tympano- plasty)	4
2. Aims of Tympanoplasty	2	5. Anesthesia	4
3. Preoperative Care	2	5.1 Local Anesthesia	4
3.1 Preoperative Investigations	2	5.2 General Anesthesia	5
3.2 Rules for Preoperative Treat- ment	3	6. Facial Nerve Monitoring	6
3.3 Antibiotic Treatment	3	7. Instrumentation	6
3.4 Preoperative Preparation	3	8. Rules and Hints	7
4. Postoperative Care	4		

Chapter 2

Myringoplasty 9

General Considerations	10	Specific Surgical Techniques	15
1. Definitions	10	1. Transcanal Approach	15
2. Surgical Approaches	10	1.1 Surgical Technique	15
2.1 Transcanal Approach	10	1.2 Surgical Highlights	15
2.2 Endaural Approach	10	1.3 Surgical Steps	16
2.3 Retroauricular Approach	12	2. Endaural Approach	17
3. Selection of Surgical Approach ...	13	2.1 Surgical Technique	17
4. Grafting Technique	13	2.2 Surgical Highlights	17
4.1 Anterior Underlay	14	2.3 Surgical Steps	18
4.2 Overlay	14	3. Retroauricular Approach	19
		3.1 Surgical Technique	19
		3.2 Surgical Highlights	19
		3.3 Surgical Steps	19

4. Antrotomy	35	5. Complications of Myringoplasty ..	37
4.1 Surgical Technique	35	5.1 Underlay Grafting	37
4.2 Surgical Highlights	35	6. Results	39
4.3 Surgical Steps	35	7. Rules and Hints	40

Chapter 3

Ossiculoplasty

43

General Considerations	44	5.1 Basic Situation III ₄ : Stapes Only, Open Cavity	83
1. Basic Situations in Ossiculoplasty	44	5.2 Basic Situation III ₅ : Mobile Footplate, Open Cavity	86
Specific Surgical Techniques	45	5.3 Basic Situation III ₆ : Fixed Stapes, Open Cavity	94
1. Basic Situation I: Malleus and Stapes, Incus Missing	45	6. Factors that Improve the Results of Ossicular Reconstruction	96
2. Basic Situation II: Footplate and Malleus	51	6.1 Epitympanectomy	96
2.1 Basic Situation II ₁ : Mobile Footplate and Malleus, Closed Cavity	51	6.2 Middle Ear and Eustachian Tube Sheeting	99
2.2 Basic Situation II ₂ : Fixed Footplate and Malleus, Closed Cavity	64	6.3 Reconstruction of the Posterosuperior Canal Wall and Reinforcement of the Drum	101
3. Basic Situation III: Stapes Only ...	68	6.4 Transmastoid Drainage	106
4. Basic Situation III ₁ , III ₂ , III ₃ : Stapes Only in Closed Cavity	69	6.5 Staging	106
4.1 Basic Situation III ₁ : Mobile Stapes, Closed Cavity	70	7. Results of Ossiculoplasty	108
4.2 Basic Situation III ₂ : Mobile Footplate, Closed Cavity	73	7.1 Incus Interposition	110
4.3 Basic Situation III ₃ : Fixed Footplate, Closed Cavity	80	7.2 Incus Replacement with Stapedotomy (IRS)	111
5. Basic Situation III ₄ , III ₅ , and III ₆ : Stapes Only in Open Cavity	82	7.3 Spandrel II	111
		7.4 Neomalleus with Incus Replacement and Stapedotomy (NMIRS)	113
		7.5 Type III Tympanoplasty	114
		7.6 Results of Epitympanectomy	115
		8. Rules and Hints	116

Chapter 4

Special Applications with Tympanoplasty

119

1. Transcanal Myringotomy with Ventilating Tube	120	1.1 Temporary Ventilating Tube (Grommet)	120
---	-----	--	-----

1.2 Permanent Ventilating Tube (Grommet)	122	5. Congenital Aural Atresia	133
2. Temporary Round Window Electrode	123	5.1 Surgery for Aural Atresia	134
3. Canalplasty for Exostosis	126	5.2 Surgery for Aural Atresia in Combination with Plastic Reconstruction of the External Canal	140
4. Canalplasty for Otitis Externa Obliterans	130	5.3 Results of Congenital Atretic Ear Correction	142
		6. Rules and Hints	143

Chapter 5

Mastoidectomy 145

General Considerations	146	3.1 Anterior Underlay Grafting	180
1. Definitions	146	3.2 Overlay Grafting	182
2. Cholesteatoma	146	4. Exteriorization of Open Cavity ...	184
3. Classification of Cholesteatoma ..	146	4.1 Poorly Pneumatized Mastoid	184
4. Surgical Treatment of Acquired Cholesteatoma	151	4.2 Highly Pneumatized Mastoid	186
		4.3 Exteriorization of the Epitympanum	188
Specific Surgical Techniques for Cholesteatoma Removal	154	5. Meatoplasty	190
1. Closed Mastoido-Epitympanectomy with Tympanoplasty (closed MET)	154	6. Wound Closure and Packing	193
2. Open Mastoido-Epitympanectomy with Tympanoplasty (open MET)	164	7. Results of Surgery for Cholesteatoma	194
3. Tympanoplasty in Open Mastoido-Epitympanectomy	180	7.1 Recurrent and Residual Cholesteatoma	194
		7.2 Postoperative Cavity Problems ...	195
		7.3 Revision Surgery in Open Cavity .	195
		8. Rules and Hints	197

Chapter 6

Special Applications of Mastoidectomy 199

1. Reconstruction of Open Cavity ...	200	3. Results	208
1.1 General Concepts	200	3.1 Reconstruction of Open Cavity ...	208
1.2 Surgical Technique	200	3.2 Cochlear Implant	208
2. Cochlear Implant	201	4. Rules and Hints	208

Chapter 7**Stapes Surgery****211**

General Considerations	212	2.2 Alternative Use of a 0.4-mm Teflon Platinum Piston (TPP)	232
1. Stapedotomy versus Stapedectomy	212	2.3 Connective-Tissue Graft for Repair of the Tympanomeatal Flap	233
Specific Surgical Techniques	214	3. Results	234
1. Stapedotomy	214	4. Rules and Hints	234
2. Stapedectomy	228		
2.1 Construction of Wire Connective-Tissue Prosthesis	230		

Chapter 8**Special Applications of Stapes Surgery****235**

1. Incus Replacement with Stapedotomy (IRS) for Malleus and/or Incus Fixation in Otosclerosis	236	8.4 Overly Long Prosthesis	255
2. Obliterative Otosclerosis	240	8.5 Previously Undetected Malleus and/or Incus Fixation	256
3. Floating Footplate	242	8.6 Perilymph Fistula	257
4. Narrow Oval Window Niche	243	9. Stapedotomy in Fenestrated Ears	258
5. Short Incus	245	10. Stapes Surgery in Tympanosclerosis	260
6. Anomalous Facial Nerve	246	11. Results of Stapes Surgery	263
6.1 Vestibulotomy	246	11.1 Stapedectomy versus 0.6-mm Stapedotomy	263
6.2 Promontorial Cochleostomy	248	11.2 Stapedotomy (0.4 mm)	265
7. The Missing Stapes	248	11.3 Sensorineural Deafness Following Stapes Surgery	267
7.1 Identifiable Oval Window Niche	248	11.4 Revision Surgery	267
7.2 Unidentifiable Oval Window Niche	250	11.5 Results of Stapedectomy in the Presence of Unmeasurable Pre-operative Hearing	269
8. Revision Stapedectomy or Stapedotomy	253	11.6 Results of Stapes Fixation without Otosclerosis	269
8.1 Reobliteration of Oval Window	253	12. Rules and Hints	270
8.2 Migration of Prosthesis Shaft	253		
8.3 Detachment of Prosthesis Loop	255		

Appendix: Instrumentation, Manufacturers, and Suppliers of Microsurgical Equipment
