Foreword: Medical and Critical Care Considerations <i>by Sheryl Martin-Schild</i>	xiii
Foreword: Imaging Considerations <i>by Max Wintermark</i>	xiv
Foreword: Open Surgical Approaches <i>by Roberto C. Heros</i>	xv
Foreword: Neurointerventional Approaches <i>by Jacques Dion</i>	xvi
Preface	xvii
Acknowledgments	xvii
Contributors	xix
I Medical and Critical Care Considerations	1
Chapter 1 Epidemiology	3
<i>Rodney D. Bell and Valerie Dechant</i>	
Chapter 2 Clinical Evaluation	10
<i>Richard A. Bernstein</i>	
Chapter 3 Fibrinolysis for Cerebral Ischemia	17
<i>Alejandro A. Rabinstein</i>	
Chapter 4 Critical Care Management	26
<i>Matthew Vibbert and Andrew M. Naidech</i>	
Chapter 5 Defining Success: Basics of Measurement Scales and Clinical Research in Neurovascular Disease	36
<i>Andrew M. Naidech</i>	
Chapter 6 Promising Developments in Critical Care	45
<i>Laurie McWilliams and J. Javier Provencio</i>	
II Imaging Considerations	53
Chapter 7 Computed Tomography in Hemorrhagic and Ischemic Stroke	55
<i>Julie H. Harreld, Peter G. Kranz, and James D. Eastwood</i>	
Chapter 8 Magnetic Resonance Imaging in Hemorrhagic and Ischemic Stroke	70
<i>Anne Catherine Kim, Jimmy Jaeyoung Kang, Reza Hakimelahi, and Pamela W. Schaefer</i>	

Chapter 9	Positron Emission Tomography in Ischemic and Hemorrhagic Stroke	103
	<i>Colin P. Derdeyn and Rajat Dhar</i>	
Chapter 10	Ultrasound Assessment in Ischemic and Hemorrhagic Stroke	115
	<i>Javier M. Romero and Anna G. Meader</i>	
Chapter 11	Neuroangiography in Hemorrhagic and Ischemic Stroke	129
	<i>Guilherme Dabus, Michael C. Hurley, and Eric J. Russell</i>	
Chapter 12	Promising Developments in Stroke Imaging	152
	<i>Howard A. Rowley, Patrick A. Turski, and Charles M. Strother</i>	
III Open Surgical Approaches		169
Chapter 13	Anesthesia Considerations for Neurovascular Surgery	171
	<i>Carine Zeeni, John F. Bebawy, Dhanesh K. Gupta, and Antoun Koht</i>	
Chapter 14	Bypass for Acute and Chronic Ischemic States	182
	<i>Joshua R. Dusick, Nestor R. Gonzalez, and Neil A. Martin</i>	
Chapter 15	Moyamoya: Surgical Indications and Strategies	198
	<i>Bradley A. Gross, Mark Dannenbaum, Edward R. Smith, Arthur L. Day, and R. Michael Scott</i>	
Chapter 16	Craniectomy Rationale: Outcomes Data and Surgical Techniques	210
	<i>Sameer A. Sheth, Sunil A. Sheth, and Christopher S. Ogilvy</i>	
Chapter 17	Carotid Endarterectomy: Decision Analysis and Surgical Technique	221
	<i>Jay U. Howington</i>	
Chapter 18	Microsurgical Revascularization of Extracranial Vertebral Artery	234
	<i>Ricardo A. Hanel, Leonardo B.C. Brasiliense, Felipe C. Albuquerque, and Robert F. Spetzler</i>	
Chapter 19	Aortic Arch Surgery: Indications, Decision Analysis, and Surgical Technique	251
	<i>Mark D. Morasch and Joseph G. Adel</i>	
Chapter 20	Microsurgery for Unruptured Intracranial Aneurysms	262
	<i>Andrew F. Ducruet, Philip M. Meyers, and Robert A. Solomon</i>	
Chapter 21	Microsurgery for Ruptured Aneurysms	274
	<i>Rossana Romani, Martin Lehecka, Mika Niemelä, Jaakko Rinne, Tomi Niemi, Reza Dashti, and Juha Hernesniemi</i>	
Chapter 22	Clipping of Complex and Giant Aneurysms	290
	<i>Christopher S. Eddleman, Rudy J. Rahme, Salah G. Aoun, Andrew J. Fishman, H. Hunt Batjer, and Bernard R. Bendok</i>	
Chapter 23	Surgical Management of Intracranial Arteriovenous Malformations	303
	<i>Christopher S. Eddleman, Rudy J. Rahme, Bernard R. Bendok, and H. Hunt Batjer</i>	
Chapter 24	Cavernoma	317
	<i>Murat Gunel</i>	
Chapter 25	Intracranial Dural Arteriovenous Fistulas	325
	<i>Brian J. Jian, Vineeta Singh, and Michael T. Lawton</i>	
Chapter 26	Spinal Dural Fistula	344
	<i>Albert J. Schuette, Charles M. Cawley, and Daniel L. Barrow</i>	

Chapter 27	Surgical Approaches to Intracerebral Hemorrhage	356
	<i>Christopher S. Eddleman, Jennifer Jaffe, Rudy J. Rahme, H. Hunt Batjer, Bernard R. Bendok, and Issam A. Awad</i>	
Chapter 28	radiosurgical Management of Arteriovenous Malformations	366
	<i>Douglas Kondziolka, Hideyuki Kano, Huai-che Yang, John C. Flickinger, and L. Dade Lunsford</i>	
Chapter 29	Revascularization of the Brain Using the ELANA Technique: History, Techniques, Indications, and Future Directions	374
	<i>T.P.C. van Doormaal, A. van der Zwan, and Cornelis A.F. Tulleken</i>	
IV Neurointerventional Approaches		383
Chapter 30	Endovascular Thrombolysis and Thrombectomy: Pharmacologic and Mechanical	385
	<i>Sabareesh K. Natarajan, Adnan H. Siddiqui, L. Nelson Hopkins, and Elad I. Levy</i>	
Chapter 31	Angioplasty and Stenting for Management of Intracranial Arterial Stenosis	402
	<i>Andrew J. Ringer, Christopher Nichols, Shah-Naz Khan, Andrew Grande, Usman Khan, Gail Pyne-Geithman, and Todd A. Abruzzo</i>	
Chapter 32	Carotid Angioplasty and Stenting	413
	<i>Sabareesh K. Natarajan, Adnan H. Siddiqui, Elad I. Levy, and L. Nelson Hopkins</i>	
Chapter 33	Management of Vertebral Artery Origin Stenosis	429
	<i>John C. Dalfino and Alan S. Boulos</i>	
Chapter 34	Vasodilators and Angioplasty for Cerebral Vasospasm	443
	<i>Aditya S. Pandey, Neeraj Chaudhary, W. Christopher Fox, Byron Gregory Thompson, and Joseph J. Gemmete</i>	
Chapter 35	Aneurysm Coiling	451
	<i>Erol Veznedaroglu and Rashid M. Janjua</i>	
Chapter 36	Approaches to Extracranial and Intracranial Dissection	461
	<i>Peter S. Amenta, Pascal M. Jabbour, and Robert H. Rosenwasser</i>	
Chapter 37	Cranial Arteriovenous Malformation Embolization	473
	<i>Yin C. Hu, C. Benjamin Newman, Cameron G. McDougall, and Felipe C. Albuquerque</i>	
Chapter 38	Endovascular Management of Intracranial Dural Arteriovenous Fistulas	487
	<i>Michael C. Hurley, Guilherme Dabus, Ali Shaibani, Eric J. Russell, and Bernard R. Bendok</i>	
Chapter 39	Spinal Arteriovenous Malformation and Dural Fistula Embolization	516
	<i>Timothy Uschold, Richard Lochhead, Felipe C. Albuquerque, and Cameron G. McDougall</i>	
Chapter 40	Promising Advances and Innovations in Neurointerventional Surgery	534
	<i>Omar M. Arnaout, Rudy J. Rahme, Salah G. Aoun, Christopher S. Eddleman, Anitha Nimmagadda, Michael C. Hurley, Guilherme Dabus, Jeffery Miller, Sameer A. Ansari, Ali Shaibani, and Bernard R. Bendok</i>
