Introduction

Introduction to the Workshop on Software Engineering and Human-Computer Interaction: Joint Research Issues	1
<i>Joëlle Coutaz and Richard N. Taylor</i>	

Working Groups

Working Group on Design Methods and Processes	4
<i>Jonathan Grudin and Roy T. Fielding</i>	
Working Group on Evaluating User Interfaces and User Interface Tools	9
<i>Richard Chimera</i>	
Working Group on Formal Methods in HCI and Software Engineering	14
<i>Len Bass</i>	

Invited Papers

Issues in the Evaluation of User Interface Tools	17
<i>Len Bass, Gregory Abowd and Rick Kazman</i>	
Platform Independent GUI Builders Advance Software Engineering to Handle HCI Issues	28
<i>Richard Chimera</i>	
Evaluation Techniques: Exploring the Intersection of HCI and Software Engineering	35
<i>Joëlle Coutaz</i>	
A Review of Formalisms for Describing Interactive Behaviour	49
<i>M.D. Harrison and D.J. Duke</i>	
User Interface Prototyping: Tools and Techniques	76
<i>Pedro Szekely</i>	
Software Engineering and the CHI & CSCW Communities	93
<i>Jonathan Grudin and Steven Poltrock</i>	
User Interface Technology and Software Engineering Environments	113
<i>Richard N. Taylor</i>	

Submitted Papers

Integrating Object-Oriented Analysis and
Graphical User Interface Design 127
Astrid Beck, Christian Janssen, Anette Weisbecker and Jürgen Ziegler

An Experience Using JASMINUM – Formalization Assisting with
the Design of User Interfaces 141
L.M.F. Carneiro-Coffin, D.D. Cowan, C.J.P. Lucena and D. Smith

From Formal Models to Formal Methods 159
D.J. Duke and M.D. Harrison

Computing Environments for Flexible Teams 174
Danielle Fafchamps and Pankaj Garg

Applying Formal Methods for Human Error Tolerant Design 185
Bob Fields, Peter Wright and Michael Harrison

Support of User Interface Design Aspects in a Framework
for Distributed Cooperative Applications 196
Hans-W. Gellersen

Prototyping a Visual Formalism for System Modelling 211
Michael W. Godfrey, Richard C. Holt and Spiros Mancoridis

User Interface Tools: a Survey and Perspective 225
Rudolf K. Keller

Lessons Learned from a Successful Collaboration Between
Software Engineers and Human Interface Engineers 232
Ellen A. Isaacs, Trevor Morris and Thomas K. Rodriguez

Software Engineering and CSCW: A Common Research Ground 241
Jeanne M. Pickering and Rebecca E. Grinter

Practical Language-Based Editing for Software Engineers 251
Michael L. Van De Vanter

Research Issues in the Intersection of Hypertext and
Software Development Environments 268
Hadar Ziv and Leon J. Osterweil
