

Contents

Arachidonic Acid Metabolism and Tumour Promotion

Thromboxane A ₂ and Prostacyclin in Tumorigenesis <i>V. Ullrich, M. Hecker, R. Nüsing and T. Rosenbach</i>	3
--	---

Tumour Promoters and Prostaglandin Production <i>L. Levine</i>	11
---	----

Eicosanoid Regulation of Macrophage In Vitro Cytostatic Function Towards Tumour Cells <i>I. L. Bonta and G. R. Elliott</i>	23
--	----

Role of Tumour Cell Eicosanoids and Membrane Glycoproteins IRGPIb and IRGPIIb/IIIa in Metastasis <i>K. V. Honn, I. M. Grossi, H. Chopra, B. W. Steinert, J. M. Onoda, K. K. Nelson and J. D. Taylor</i>	29
---	----

Alteration of Arachidonic Acid Metabolism in Rats after Inoculation of Tumour Cells and Their Subcellular Fractions: Role of Mononuclear Phagocytes as a Major Source of Enhanced Prostanoid Synthesis <i>S. K. Nigam and R. Averdunk</i>	43
--	----

Platelet-Activating Factor; Cellular Response to Arachidonate Metabolism

The Role of Platelet-Activating Factor and Structurally Related Alkyl Phospholipids in Immune and Cytotoxic Processes <i>D. Hosford, J. M. Mencia-Huerta and P. Braquet</i>	53
---	----

Platelet-Activating Factor in Renal Pathophysiology: The Effects of PAF Antagonists <i>G. E. Plante and P. Sirois</i>	67
---	----

Interaction of Macrophages and Mast Cells in the Production of Prostaglandins and Leukotrienes <i>B.A. Jakschik, Y. Wei and L.F. Owens</i>	75
Prostaglandin E ₂ and Thromboxane A ₂ Production by Human Peritoneal Macrophages: Effect of Mitomycin C, Nitrogen Mustard and Cyclosporin A <i>M.L. Foegh and J. Winchester</i>	85
Uterine Lipoxygenase Pathways <i>A. Morgan, S. Flatman, R. Hammond, R.G. McDonald-Gibson, J. Osypiw, S. Tay and T.F. Slater</i>	91
Modulation of Ocular Eicosanoid Biosynthesis by Oxidants and Anti-oxidants <i>J.S. Hurst, C.A. Paterson, C.S. Short and M.D. Hughes</i>	101
Endogenous Formation of Leukotriene D ₄ During Systematic Anaphylaxis in the Guinea Pig <i>S. Hammarström, A. Keppler, L. Örning and K. Bernström</i>	115
Theoretical Calculations of the Structures of Some Prostaglandins and Inhibitors of Lipoxygenase <i>J. Barker and C. Thomson</i>	125
 <i>Lipid Peroxidation and Cancer I</i>	
Lipid Peroxidation and Cell Division in Normal and Tumour Tissues <i>T.F. Slater</i>	137
The Involvement of Free Radicals and Lipid Peroxidation in Carcinogenesis <i>T.A. Connors</i>	143
Diene Conjugation and Peroxidation in Precancer <i>T.L. Dormandy and D.G. Wickens</i>	153
Oxygen Radical Regulation of Vascular Reactivity, <i>G. Thomas and P.W. Ramwell</i>	161
Arachidonic Acid-Induced Activation of NADPH Oxidase in Membranes of Human Neutrophils and HL-60 Leukemic Cells is Regulated by Guanine Nucleotide-Binding Proteins and is Independent of Ca ²⁺ and Protein Kinase C <i>R. Seifert, W. Rosenthal, C. Schächtele and G. Schultz</i>	169

Lipid Peroxidation and Cancer II

Biochemistry of Oxidative Stress: Recent Experimental Work <i>H. Sies</i>	183
Lipid Peroxidation and Irreversible Hepatocyte Damage <i>G. Poli, E. Albano, E. Chiarpotto, F. Biasi, R. Carini and M. U. Dianzani</i> . .	189
Lipid Peroxidation, Antioxidants and Regenerating Rat Liver <i>K. H. Cheeseman, S. Emery, S. Maddix, K. Proudfoot, T. F. Slater, G. W. Burton, A. Webb and K. U. Ingold</i>	195
Effect of Peroxidative Conditions on Human Plasma Low-Density Lipoproteins <i>H. Esterbauer, O. Quehenberger and G. Jürgens</i>	203
Studies on the Oxygen Dependence of Lipid Peroxidation <i>H. de Groot and T. Noll</i>	215
Iron-Induced Lipid Peroxidation and Inhibition of Proliferation in Animal Tumour Cells <i>A. Hammer, H. M. Tillian, E. Kink, M. Sharaf El Din, R. J. Schaur and E. Schauenstein</i>	221
Ethane and <i>n</i> -Pentane Formation in a Reconstituted Microsomal Lipid Peroxidation System <i>H. Kappus and J. Kostrucha</i>	227
The CCl ₄ -Induced Increase of Free Arachidonate in Hepatocytes <i>E. Chiarpotto, F. Biasi, G. Marmo, G. Poli and M. U. Dianzani</i>	235
Lipid Peroxidation Products and Carcinogenesis: Preliminary Evidence of <i>n</i> -Alkanal Genotoxicity <i>G. Brambilla, A. Martelli, E. Cajelli, R. Canonero and U. M. Marinari</i>	243
Detection of 4-Hydroxynonenal and Other Lipid Peroxidation Products in the Liver of Allyl Alcohol-Intoxicated Mice <i>A. Pompella, A. Romani, R. Fulceri, E. Maellaro, A. Benedetti and M. Comporti</i>	253
Liver Cell Heterogeneity in Biotransformation of Carcinogenic Polycyclic Hydrocarbons <i>A. Schlenker, S. A. E. Finch, W. Kühnle, J. Sidhu and A. Stier</i>	265
Free Radical Intermediates of Carcinogenic Hydrazines <i>E. Albano, A. Tomasi, A. Iannone, L. Gorla-Gatti, V. Vannini and M. U. Dianzani</i>	273

Biochemical Aspects of Gynaecological and Liver Cancer

Studies on Cancer of the Human Cervix in Relation to Thiol-Groups <i>C. Benedetto, S. Cianfano, M. Zonca, G. Nöhammer, E. Schauenstein, W. Rojanapo and T.F. Slater</i>	283
Microphotometric Determination of Protein Thiols and Disulphides in Tissue Samples from the Human Uterine Cervix and the Skin Reveal a "Field Effect" in the Surroundings of Benign and Malignant Tumours <i>G. Nöhammer, F. Bajardi, C. Benedetto, H. Kresbach, W. Rojanapo, E. Schauenstein and T.F. Slater</i>	291
Protein-Thiol Levels in Relation to Deviation from Normality in Rat Liver Cell Lines <i>P. Principe, P.A. Riley and T.F. Slater</i>	301
Computerized Digital Video Microdensitometry Applied to the Quantitation of Intracellular Macromolecules or Their Functional Groups <i>D.J. Spargo and P.A. Riley</i>	315
Modulation of Hepatocarcinogenicity of Aflatoxin B ₁ by the Chlorinated Insecticide DDT <i>W. Rojanapo, A. Tepsuwan, P. Kupradinum and S. Chutimataewin</i>	327
Intratumoral Fibrin Stabilization <i>L. Muszbek and R. Ádány</i>	339
Subject Index	351
