

Table of Contents

Invited Talk I

Issues in Theorem Proving Based on the Connection Method	1
<i>W. Bibel, S. Brüning, U. Egly, D. Korn and T. Rath</i>	

Classical logic — Extensions

Rigid <i>E</i> -Unification Simplified	17
<i>Eric de Kogel</i>	
Generating Finite Counter Examples with Semantic Tableaux	31
<i>Stefan Klingenbeck</i>	
Semantic Tableaux for Inheritance Nets	47
<i>Ingrid Neumann</i>	

Modal logic

Using Connection Method in Modal Logics: Some Advantages	63
<i>Stéphane Demri</i>	
Labelled Tableaux for Multi-Modal Logics	79
<i>Guido Governatori</i>	
Refutation systems for propositional modal logics.	95
<i>P. Miglioli, U. Moscato and M. Ornaghi</i>	

Intuitionistic logic

On Transforming Intuitionistic Matrix Proofs into Standard-Sequent Proofs	106
<i>Stephan Schmitt and Christoph Kreitz</i>	
A Connection Based Proof Method for Intuitionistic Logic	122
<i>Jens Otten and Christoph Kreitz</i>	
Tableau for Intuitionistic Predicate Logic as Metatheory	138
<i>Judith Underwood</i>	

Invited Talk II

Model Building and Interactive Theory Discovery	154
<i>Ricardo Caferra and Nicolas Peltier</i>	

Classical logic — Connection Method and Model Elimination

Link Deletion in Model Elimination	169
<i>Klaus Mayr</i>	
Specifications of Inference Rules and Their Automatic Translation	185
<i>Gerd Neugebauer and Uwe Petermann</i>	
Constraint Model Elimination and a PTPP-Implementation	201
<i>Peter Baumgartner and Frieder Stolzenburg</i>	

Classical logic — Non-Clausal Proof Procedures

Non-elementary Speedups between Different Versions of Tableaux217
Matthias Baaz and Christian G. Fermüller

Syntactic Reduction of Predicate Tableaux to Propositional Tableaux. 231
Ján Komara and Paul J. Voda

Linear logic

Classical Lambek Logic247
Jörg Hudelmaier and Peter Schroeder-Heister

Linear Logic with Isabelle: Pruning the Proof Search Tree 263
Philippe de Groote

Linear Analytic Tableaux 278
Robert K. Meyer, Michael A. McRobbie and Nuel D. Belnap, Jr

Higher-order logic

Higher-Order Tableaux 294
Michael Kohlhase

Applications

Propositional Logics on the Computer310
Alain Heuerding, Gerhard Jäger, Stefan Schwendimann and Michael Seyfried

MacKE: Yet Another Proof Assistant & Automated Pedagogic Tool324
Jeremy Pitt

Using the Theorem Prover SETHEO for Verifying the Development of a
 Communication Protocol in FOCUS — A Case Study — 338
Johann Schumann
