Section I Cryopreservation of Cells, Tissues, Organs, and Recalcitrant Seeds

I.1 Cryopreservation of Plant Cell, Tissue, and Organ Culture for the Conservation of Germplasm and Biodiversity

Y.P.S. BAJAJ (With 4 Figures)

1 Conservation of Germplasm	3
2 Prospects for Cryopreservation of In Vitro Cultures	10
3 Methods of Cryopreservation	12
4 General Guidelines and Factors Affecting Cryoability	14
5 Gene Banks and the International Exchange of Germplasm	16
6 Summary	17
7 Conclusion – Reproducibility of Results	17
References	18

I.2 Cryopreservation of Recalcitrant Seeds

V.C. PENCE (With 1 Figure)

1 Introduction	29
2 Recalcitrant Seeds	29
3 Factors Affecting Cryopreservation of Recalcitrant Seeds	33
4 Application of Cryopreservation of Recalcitrant Seeds	36
5 Conclusions and Prospects	44
6 Selected Protocols	46
References	47

Section II Cryopreservation of Germplasm of Trees

II.1 Cryopreservation of Germplasm of Woody Plants

A. SAKAI (With 7 Figures)

1 Introduction	53
2 Survival Mechanism of Very Hardy Tissues or Twigs After Cooling to the Temperature of Liquid Nitrogen (-196°C)	54
3 Cryopreservation of Winter Woody Plant Materials	56

4 Cryopreservation of Cultured Cells and In Vitro Grown Meristems	58
5 Summary and Conclusions	67
References	67

II.2 Cryoconservation of Germplasm of Citrus

N. DURAN-VILA (With 4 Figures)

1 Introduction	70
2 Cryoconservation of Citrus	74
3 Summary and Conclusions	83
References	84

II.3 Cryopreservation of Apple (*Malus* Species) Genetic Resources

C. STUSHNOFF and M. SEUFFERHELD (With 2 Figures)

1 Introduction	87
2 Rationale and Potential Application for Cryopreservation of Apple	90
3 Cryopreservation of In Vitro Systems with Apple	95
4 Summary and Conclusions	97
References	99

II.4 Cryopreservation of Germplasm of Mulberry

(*Morus* Species)

T. NIINO (With 6 Figures)

1 Introduction	102
2 Cryopreservation	103
3 Summary and Conclusions	111
References	112

II.5 Cryopreservation and Minimum Growth Storage of Pear (*Pyrus* Species)

T. MORIGUCHI (With 6 Figures)

1 Introduction	114
2 Cryopreservation	117
3 Minimum Growth Storage	123
4 Summary and Conclusions	127
References	127

II.6 Cryopreservation of Germplasm of Walnut (*Juglans* Species)

M.T. DE BOUCAUD and M. BRISON (With 4 Figures)

1 General Account	129
2 Cryopreservation of <i>Juglans</i> Germplasm	132
3 Summary and Conclusions	144
References	144

II.7 Cryopreservation of Date Palm, Oil Palm, and Coconut

F. ENGELMANN, B. ASSY-BAH, S. BAGNIOL, D. DUMET,
and N. MICHAUX-FERRIÈRE (With 18 Figures)

1 Introduction	148
2 Date Palm (<i>Phoenix dactylifera</i> L.)	148
3 Oil Palm (<i>Elaeis guineensis</i> Jacq.)	159
4 Coconut Palm (<i>Cocos nucifera</i> L.)	163
5 Summary and Conclusions	167
References	167

II.8 Cryopreservation of Germplasm of Ornamental Palms

(*Veitchia*, *Howea*, and *Calamus* Species)

B. KRISHNAPILLAY, H.F. CHIN, and M. MARZALINA
(With 4 Figures)

1 Introduction	170
2 Cryopreservation	171
3 Summary and Conclusions	177
References	178

II.9 Cryopreservation of Germplasm of Rubber

(*Hevea brasiliensis*)

M.N. NORMAH and H.F. CHIN (With 1 Figure)

1 Introduction	180
2 Storage of Germplasm	180
3 Cryopreservation of Embryonic Axes	182
4 Summary and Conclusions	188
References	189

II.10 Cryopreservation of Germplasm

of *Larix* and *Picea* Species

P.J. CHAREST and K. KLIMASZEWSKA (With 6 Figures)

1 Introduction	191
2 Cryopreservation of <i>Larix</i> and <i>Picea</i> Embryonal Masses	192
3 Summary and Conclusions	202
References	202

II.11 Cryopreservation of Scots Pine (*Pinus sylvestris* L.)

A. HOHTOLA (With 1 Figure)

1 General Account	204
2 Cryopreservation	205
3 Summary and Conclusions	212
References	212

Section III Cereals and Grasses

III.1 Cryopreservation of Germplasm of Cereals

(Wheat, Rice, and Maize)

Y.P.S. BAJAJ (With 4 Figures)

1 Introduction	217
2 Need for Cryopreservation	217
3 Cryopreservation Studies	222
4 Summary	232
References	232

III.2 Cryopreservation of Foxtail Millet (*Setaria italica* L.)

T.G. LU and C.S. SUN (With 2 Figures)

1 Introduction	236
2 Cryopreservation	237
3 Summary and Conclusions	243
References	244

III.3 Cryopreservation of Some Halophyte Grasses

(*Puccinellia* Species)

Zs. JEKKEL, G. GYULAI, and L.E. HESZKY (With 6 Figures)

1 Introduction	245
2 Cryopreservation	246
3 Summary and Conclusions	254
References	255

III.4 Cryopreservation of Germplasm of Sugarcane

(*Saccharum* Species)

Y.P.S. BAJAJ and L.C. JIAN (With 5 Figures)

1 Introduction	256
2 Cryopreservation	257
3 Summary	264
References	264

Section IV Legumes and Oilseed Crops

(for Coconut and Oil Palm see Section II)

IV.1 Cryopreservation of Peanut (*Arachis hypogaea* L.)

and Chickpea (*Cicer arietinum* L.)

Y.P.S. BAJAJ (With 4 Figures)

1 Introduction	269
2 Cryopreservation of Meristems	271
3 Cryopreservation of Pollen Embryos	275
4 Summary	277
References	278

IV.2 Cryopreservation of Alfalfa (*Medicago sativa* L.) and Clovers (*Trifolium* Species)

C.D. CACHIȚĂ and C. CRĂCIUN (With 4 Figures)

1 Introduction	280
2 Cryopreservation	281
3 Summary and Conclusions	287
References	291

IV.3 Cryostorage of Pea (*Pisum sativum* L.)

P. BERJAK, D.J. MYCOCK, P. WATT, J. WESLEY-SMITH,
and B. HOPE (With 9 Figures)

1 Introduction	292
2 In Vitro Culture and Cryopreservation of Pea	294
3 Summary and Conclusions	303
References	305

IV.4 Cryopreservation of *Brassica* Species

E.E. BENSON (With 2 Figures)

1 General Account	308
2 Cryopreservation	312
3 Summary and Conclusions	316
References	317

Section V Fruits, Vegetable Tuber and Root Crops (for Fruit Trees see Section II)

V.1 Conservation of Germplasm of Kiwifruit (*Actinidia* Species)

P.L. MONETTE (With 3 Figures)

1 Introduction	321
2 In Vitro Conservation of Kiwifruit	323
3 Summary and Conclusions	330
References	330

V.2 Cryopreservation of Asparagus

A. URAGAMI (With 4 Figures)

1 Introduction	332
2 Need for Conservation and Cryopreservation	333
3 Cryopreservation	333
4 Discussion	339
5 Summary and Conclusions	342
References	342

V.3 Cryopreservation of Germplasm of Sugarbeet*(Beta vulgaris L.)***A.M. BRAUN (With 2 Figures)**

1 Introduction	344
2 Cryopreservation of Sugarbeet	346
3 Summary and Conclusions	352
References	352

V.4 Conservation of Germplasm of Strawberry*(Fragaria Species)***B.M. REED and K.E. HUMMER (With 3 Figures)**

1 Introduction	354
2 Germplasm Storage Methods	357
3 Conservation/Cryopreservation	360
4 Summary and Conclusions	368
References	369

V.5 Cryopreservation of Germplasm of Tomato**B.W.W. GROUT and P.C. CRISP**

1 General Account	371
2 Cryopreservation	374
3 Summary and Conclusions	378
References	378

V.6 Cryopreservation of Germplasm of Banana and Plantain*(Musa Species)***B. PANIS and R. SWENNEN (With 9 Figures)**

1 Introduction	381
2 Cryopreservation Studies on <i>Musa</i>	386
3 Summary and Conclusions	393
References	395

V.7 Cryopreservation of Germplasm of Potato*(Solanum tuberosum L.) and Cassava (Manihot esculenta Crantz)***Y.P.S. BAJAJ (With 4 Figures)**

1 Introduction	398
2 Cryopreservation of Potato	401
3 Cryopreservation of Cassava	409
4 Gene Banks and the International Exchange of Germplasm	411
5 Summary and Conclusions	413
References	414

Section VI Medicinal, Aromatic, and Ornamental Plants**VI.1 Cryopreservation of Germplasm
of Medicinal and Aromatic Plants****Y.P.S. BAJAJ (With 2 Figures)**

1 Introduction	419
2 Significance of Cryopreservation for Medicinal Plants	423
3 Cryopreservation Studies	423
4 Conclusion	430
References	431

VI.2 Cryopreservation of *Anisodus* Species**G.Z. ZHENG and J.P. LUO**

1 Introduction	435
2 Preservation of Calli at Low Temperatures	437
3 Freeze Preservation of Callus	439
4 Summary and Conclusions	444
References	445

VI.3 Cryopreservation of Germplasm of Chrysanthemums**S. FUKAI (With 3 Figures)**

1 Introduction	447
2 Cryopreservation	448
3 Summary and Conclusions	456
References	456

VI.4 Cryopreservation of Germplasm of Carnation**(*Dianthus caryophyllus* L.)****J. DEREUDDRE and M. TANNOURY (With 9 Figures)**

1 Introduction	458
2 Cryopreservation	459
3 Discussion	472
References	475

VI.5 Cryopreservation Studies on *Digitalis lanata***(Foxglove)****U. SEITZ (With 1 Figure)**

1 Introduction	478
2 Cryopreservation	479
3 Summary and Conclusions	484
References	485

VI.6 Cryopreservation of Germplasm of *Dioscorea deltoidea*
(Medicinal Yam)

A.S. POPOV, L.A. VOLKOVA, and R.G. BUTENKO
(With 5 Figures)

1 Introduction	487
2 Cryopreservation	488
3 Discussion	495
4 Summary and Conclusions	497
References	498

VI.7 Preservation of Cell Cultures of *Lavandula vera*
(Lavender)

A. TANAKA and J. TAKAHASHI

1 Introduction	500
2 Preservation of Cell Cultures of <i>L.vera</i>	501
3 Summary and Conclusions	506
References	506

Subject Index	509
