

1	Introduction	1
1.1	Motivation: Evolving the Industrial Landscape	1
1.2	Collaborations in the Industrial Internet of Things	5
1.2.1	The Status Quo in Securing Industrial Collaborations	6
1.2.2	Research Challenges: Prevalent Security and Privacy Needs	9
1.3	Dissertation Outline and Contributions	11
2	Background	15
2.1	The Industrial Internet of Things	15
2.1.1	Definitions and Taxonomy	16
2.1.2	An Overview of the Industrial Landscape	17
2.1.3	Facilitating Collaborations in the Industrial Landscape	21
2.2	Relevant Properties when Securing Collaborations	22
2.3	Building Blocks for Secure Collaborations	24
2.3.1	Privacy-Preserving Computation	25
2.3.2	Confidential Computing	27
2.3.3	Blockchain Technology	28
2.4	Building Block Survey: Securing Collaborations	29
3	Use Cases	35
3.1	Industrial Collaborations in Practice	35
3.2	Representative Use Cases for Collaborations	39
3.2.1	Product Composition and Production Properties	39
3.2.2	Operation and Procurement of Machine Tools	41
3.2.3	Internal and External Company Benchmarking	43
3.2.4	Sharing and Exchanging Production Parameters	45

4	Collaborations Along Supply Chains	47
4.1	A Processing Pipeline for Reliable Information	47
4.1.1	Concept of our Sensing and Information-Sharing Pipeline . . .	48
4.1.2	Secure and Reliable (End-to-End) Sensing	54
4.1.3	Long-Term Private (Multi-Hop) Information Sharing	66
4.1.4	Takeaways and Future Research	87
4.2	Finding New Suppliers with Privacy-Preserving Purchase Inquiries . .	90
4.2.1	Challenges in Bootstrapping Collaborations	91
4.2.2	Two-Way Privacy for Purchase Inquiries	95
4.2.3	Takeaways and Future Research	115
5	Collaborations Across Supply Chains	119
5.1	Privacy-Preserving Company Benchmarking	119
5.1.1	Privacy Issues in Company Benchmarking	120
5.1.2	Designs for Privacy-Preserving Company Benchmarks	126
5.1.3	Takeaways and Future Research	137
5.2	Privacy-Preserving Parameter Exchange	139
5.2.1	Challenges for Information Sharing in Industry	140
5.2.2	Privacy-Preserving Exchange Platforms for Industry	146
5.2.3	Takeaways and Future Research	164
6	Appraisal on Secure Industrial Collaborations	167
6.1	A Look at the Current State	167
6.1.1	Today's Situation in the Industrial Landscape	168
6.1.2	Research Impact of this Dissertation	171
6.1.3	Outlook: Advancing Secure Collaborations	175
6.2	Excursus: Conceptualized Research Methodology	179
6.2.1	Rationale Behind this Excursus	179
6.2.2	Methodology: A Process Cycle on Research Collaborations . .	181
7	Conclusion	189
	Abbreviations and Acronyms	193
	Bibliography	195
