Spine, Anterior Approaches

Cervical Spine and Cervicothoracic Junction	2	Thoracolumbar Junction	37
Transoropharyngeal Approach C1–C2 (C3)	2	Transpleural-Retroperitoneal Approach	
Anterior Approach to Cervical Spine C3–T2	4	to Thoracolumbar Spine, T9–L5,	
Anterior Approach to Lower Cervical		According to Hodgson	37
and Upper Thoracic Spine C4–T3		Approach to Thoracolumbar Spine with	
According to Cauchoix, Binet and Evrard	13	Twofold Thoracotomy, T4–L5,	
Thoracic Spine	17	According to Bauer	49
Transthoracic Approach to Thoracic Spine T4–T11 ...	17	Retroperitoneal-Extrapleural Approach	
Anterior Transpleural Approach to Spine, T3–T11,		to Thoracolumbar Spine, T11–L5,	
According to Louis	28	According to Mirbaha	53
High Thoracotomy T1–T4	32	Lumbar Spine and Lumbosacral Junction	59
		Retroperitoneal Approach to Lumbar Spine L2–L5 ..	59
		Transperitoneal Approach to	
		Lumbosacral Junction L4–S1	63

Spine, Posterior Approaches

Cervical Spine	68	Thoracic and Lumbar Spine	73
Posterior Approach to Cervical Spine and		Costotransversectomy T3–T10	73
Occipitocervical Junction	68	Posterior Approach to Thoracic and Lumbar Spine ...	77
		Paraspinal Approach to Lumbosacral Junction	
		According to Wiltse	84
		Short Dorsal Approach to Lumbar Spine for	
		Laminotomy and Removal of Intervertebral Disc ...	85

Pelvis and Lower Extremity

Pelvis	90	Knee	137
Transiliac Approach According to Judet	90	Medial Parapatellar Approach	137
Ilioinguinal Approach According to Letournel	94	Medial Approach to Knee Joint	143
Approach to Acetabulum According to Judet	99	Lateral Approach to Knee Joint	148
Approach to Ischium and Pubis	103	Short Anterolateral Approach	148
Posterior Approach to Hip Joint	106	Posterior Approach to Knee Joint	
Anterolateral Approach to Hip Joint According		According to Trickey	151
to Watson-Jones	110	Lower Leg	156
Transgluteal Approach According to Bauer	114	Lateral Approach to Head of Tibia	156
Anterior Approach to Hip Joint	117	Posterior Approach to Tibial Head	
Femur	119	According to Banks and Laufmann	158
Anterior Approach	119	Anterior Approach to Tibial Shaft	159
Lateral Approach to Femur	122	Posterolateral Approach to Tibia and Fibula	161
Medial Approach to Femur	128	Lateral Approach to Fibula	165
Posterior Approach to Femur	132	Posteromedial Approach to Tibial Shaft	169

Foot	171	Approach to Lateral Malleolus	188
Anterior Approach to Ankle Joint	171	Lateral Approach to Calcaneus	189
Anterolateral Approach to Ankle Joint and Talocalcaneonavicular Joint	174	Lateral Approach to Talocalcaneonavicular Joint	190
Posteromedial Approach to Ankle Joint and to Medial Side of Talocalcaneonavicular Joint	177	Anterior Approach to Metatarsal Joints	193
Dorsolateral Approach to Ankle Joint	182	Medial Approach to Tarsometatarsal Joints	195
Medial Exposure of Ankle Joint with Osteotomy of Medial Malleolus	185	Plantar Approach to Metatarsophalangeal Joints	198
Medial Approach to Medial Malleolus	187	Medial Approach to Metatarsophalangeal Joint of Great Toe	201
		Dorsal Approaches to Metatarsal Bones, Metatarsophalangeal Joint, and Interphalangeal Joint	203

Shoulder and Upper Extremity

Shoulder-Blade and Collar Bone	208	Forearm	275
Approach to Clavicle and to Acromioclavicular Joint ..	208	Anterior Approach to Radius According to Henry ...	275
Approach to Sternoclavicular Articulation	210	Dorsolateral Approach to Radius According to Thompson	278
Approach to Scapula	211	Approach to Proximal Parts of Radius and Ulna According to Boyd	281
Shoulder	215	Dorsal Approach to Distal Part of Radius	283
Anterior Approach to Shoulder Joint	215	Lateral Approach to Ulna	285
Axillary Approach to Shoulder Joint	218	Approach to Distal Portion of Ulna	287
Upper Approach to Shoulder Joint	222	Palmar Approach to Distal Part of Radius	288
Transacromial Approach According to Debeyre and Patte	225	Wrist	291
Posterior Approach to Shoulder Joint	229	Dorsal Approach to Wrist	291
Enlarged Anterior Approach to Shoulder Joint with Exposure of Proximal Humerus	233	Palmar Approach to Wrist	294
Humerus	237	Hand	299
Posterior Approach to Humerus	237	Approach to Palm According to Skoog	299
Anterior Approach to Humerus	242	Exposure of Ulnar Nerve in Canal of Guyon	302
Lateral Approach to Humerus	247	Palmar Approach to Scaphoid	304
Medial Approach to Humerus	250	Approach to Carpometacarpal Joint of Thumb	305
Elbow	253	Approach to First Extensor Tendon Compartment ...	307
Posterior Approach to Elbow Joint	253	Dorsal Incisions Over Dorsum of Hand and Fingers ..	308
Posterior Approach to Elbow Joint with Straight Division of Triceps Muscle	257	Dorsal Approach to Metacarpophalangeal Joint	308
Posterior Approach to Elbow Joint with Osteotomy of Olecranon	259	Dorsal Approach to Middle Interphalangeal Joint	310
Lateral Approach to Elbow Joint	261	Dorsal Approach to Middle Interphalangeal Joint Involving Transection of Collateral Ligament	311
Medial Approach to Elbow Joint	266	Dorsal Approach to Distal Interphalangeal Joint	313
Anterior Approach to Elbow Joint	269	Approach to Finger Flexor Tendons	314
		Palmar Exposure of Flexor Tendon and Middle Interphalangeal Joint	316
		Approach to Finger Flexor Tendon Via Midlateral Incision	318
		Approach to Annular Ligament on Thumb	321

Index	324
