

Contents

Section I. General

(Chairman: J.P. Changeux)

Letter from J. Wyman to the Members of the Symposium	1
Concerted Changes in an Allosteric Macromolecule by A. Colosimo, M. Brunori and J. Wyman	3
Ligand Interactions in Globular Proteins by G. Weber	15
Discussion	25
Ligand Binding to Enzyme Complexes by K. Kirschner, W. Weischet and R.L. Wiskocil	27
Discussion	41
Properties of Polymeric Proteins Bound to Solid Matrices: Subunit Exchange Chromatography by E. Antonini, M.R. Rossi Fanelli and E. Chiancone	45
Discussion	57
Contributions of Aromatic Amino Acid Residues to the Optical Activity of Protein-Ligand Complexes by R.W. Woody	60
Discussion	74

Section II. Enzymes

(Chairmen S. Bourgeois and G. Weber)

The Architecture of the Coenzyme Binding Domain in Dehydrogenases as Revealed by X-Ray Structure Analysis by M. Buehner	78
Discussion	93
The Interaction of Glutamate Dehydrogenase with a Coenzyme Analog by R. Koberstein, H. Dieter and H. Sund	97
Discussion	107
The Interaction of Adenosine Triphosphate and its Analogs with Myosin and the Modifica- tion by Actin by R.S. Goody and H.G. Mannherz	109
Discussion	126
Isolation of a Guanylnucleotide Binding Protein from Pigeon Erythrocyte Membranes by Th. Pfeuffer and E.J.M. Helmreich	128
Discussion	140
On the Binding of Isoleucine and Related Amino Acids to Isoleucyl-tRNA Synthetase from Escherichia coli MRE 600 by J. Flossdorf, H.-J. Prätorius and M.-R. Kula	143
Discussion	149
The Effect of Small Molecules on the Affinity of Individual Chains in Hemoglobin and on its Cooperativity by K.H. Winterhalter, A. Mansouri and E.E. Di Iorio	151
Discussion	163
Cooperative Interactions without Symmetry or Subunits by J. Steinhardt	165
Discussion	172
A Nuclear Magnetic Resonance Study of Activator Binding by Carboxypeptidase A by T. Kushnir and G. Navon	174
Discussion	191

Section III. Repressors

(Chairmen: G. Blauer and E. Helmreich)

Lactose Operator Sequences and the Action of Lac Repressor by W. Gilbert, J. Gralla, J. Majors and A. Maxam	193
Discussion	207
The Active Sites of Lac Repressor by B. Müller-Hill, T. Fanning, N. Geisler, D. Gho, J. Kania, P. Kathmann, H. Meissner, M. Schlotmann, A. Schmitz, I. Triesch and K. Beyreuther	211
Discussion	225

Lac Repressor by K. Weber, J. G. Files, T. Platt, D. Ganem and J.H. Miller	228
Discussion	235
The Use of Suppressed Nonsense Mutations to Generate Altered Lac Repressor Molecules by J.H. Miller, C. Coulondre, U. Schmeissner, A. Schmitz and P. Lu	238
Discussion	252
Effect of Alterations in Lac Operator DNA on Repressor Binding by S. Bourgeois, M.D. Barkley, A. Jobe, J.R. Sadler and J.C. Wang	253
Discussion	267
Interaction of Lac Repressor with Non-Specific DNA Binding Sites by P.H. von Hippel, A. Revzin, C.A. Gross and A.C. Wang	270
Discussion	285

Section IV. Receptors

(Chairman: W. Gilbert)

Binding and Functional States of the Cholinergic Receptor Protein from Torpedo Marmorata by H. Sugiyama, J.L. Popot, J.B. Cohen, M. Weber and J.P. Changeux	289
Discussion	302
Subunit Structure and Binding Sites of the Acetylcholine Receptor by F. Hucho, A. Gordon and H. Sund	306
Discussion	314
Further Characterization of Purified Acetylcholine Receptor and its Incorporation into Phospholipid Vesicles by M.G. McNamee, C.L. Weill and A. Karlin	316
Discussion	327
Structural and Functional Studies of an Acetylcholine Receptor by M.A. Raftery, J. Bode, R. Vandlen, D. Michaelson, J. Deutsch, T. Moody, M.J. Ross and R.M. Stroud	328
Discussion	352

Section V. Antibodies, Drugs and Metabolites

(Chairmen: E. Antonini and M. Raftery)

Antibody Combining Sites as a Model for Molecular Recognition by I. Pecht	356
Discussion	369
Antibiotic Action on Enzymes Involved in Peptidoglycan Synthesis by H.R. Perkins, J.-M. Ghuysen, J.-M. Frère and M. Nieto	372
Discussion	383
Problems in Studying Protein Binding with Regard to the Interaction of Steroids with a Specific Binding Globulin by R.A. Lutz, U.-W. Wiegand and H.G. Weder	385
Discussion	396
The Interaction of Low-Molecular Compounds with Serum Albumin as Measured by Optical Methods. Circular Dichroism of Bilirubin-Human Serum Albumin Complexes in the Presence of Alcohols in Aqueous Solution by G. Blauer and E. Lavie	399
Discussion	409

Section VI. Detergents and Electrolytes

(Chairman: R. Jaenicke)

The Nature of Specific and Non-Specific Interactions of Detergents with Proteins: Complexing and Unfolding by J. Steinhardt	412
Discussion	424
Interaction of Detergents with Proteins: Effect of Counter Ions on the System Ferrimyoglobin-Laurylpyridinium Halides in Aqueous Medium by J. Yonath and G. Blauer	427
Discussion	439
Influence of Ions on the Kinetics of Cooperative Conformational Changes in Globular Proteins by F.M. Pohl	441
Discussion	450
Neutral Salt Effects on the Conformational Stability of Biological Macromolecules by P.H. von Hippel	452
Discussion	469
Concluding Remarks by P.H. von Hippel	472
Index of Contributors	475
Subject Index	478
