

Contents

	Page
Present Status and Future Aspects of the PERMAS Development U. Schulz; INTES, Stuttgart.	7
Simulation of Discrete Void Formation in a WC-Co Microstructure R. Spiegler, S. Schmauder, H. F. Fischmeister; Max-Planck-Institut für Metallforschung, Stuttgart.	21
Dynamic Investigation of PORSCHE Carrera 4 using FEM G. Lentz, B. Fritz; PORSCHE Entwicklungszentrum, Weissach.	43
Linear Dynamics Analysis of a Coarse-Pointing-Mechanism A. Hoffacker, D. Schramm; Robert Bosch GmbH, Stuttgart; S. Wentzel; TELDIX GmbH, Heidelberg.	75
The Optimization of PERMAS on the IBM 3090-Vector Facility A. Erdmann; IBM, Stuttgart; U. Schulz; INTES, Stuttgart.	99
Two Examples of PERMAS Application in Defense Industry J. Kruse, J. Meyer; Rheinmetall GmbH, Düsseldorf.	109
The CONLIN Program: A new Capability for Structural Optimization within PERMAS C. Fleury; Mechanical, Aerospace and Nuclear Engineering Department, University of California, Los Angeles.	125
An Application of PERMAS to Some Flattening Problems F. Besnier, R. Savouillan; Cisigraph-France, Paris.	141
Reliability of Uncertain Structural Systems T. Abdo, R. Rackwitz; Technische Universität, München.	161
Fracture Mechanics Analyses with PERMAS for High Temperature Applications J. Altes, D. Koschmieder; Kernforschungsanlage Jülich GmbH, Jülich. H. Beckers; Gesellschaft für Strukturanalyse mbH, Aachen.	177
Elastic-Plastic Analysis of a Quick-Acting Gate Valve J. Meyer, A. Sippel, J. Kruse; Rheinmetall GmbH, Düsseldorf.	203
The Influence of Creep-Fatigue Interaction on Incipient Cracking of Thermally Loaded Turbine Shafts S. Kropf, R. Stegmeyer; Staatliche Materialprüfungsanstalt, Stuttgart	219
Integrated MCAE-Environment at Daimler-Benz M. Heib; Daimler-Benz, Stuttgart.	245
Sizing and Application of Composite Components F. J. Arendts; Institut für Flugzeugbau, Universität Stuttgart.	259
Solution of Coupled Piezoelectric-Solid-Fluid Problems with PERMAS R. J. du Preez; University of Pretoria.	283
Finite Element Models of the ARIANE Launchers Prediction of the Flight Dynamic Environment D. Barthe, B. George, R. Lagier; Aerospatiale, Les Mureaux, France.	301
