

Contents

About the editors — V

Preface — VII

Acknowledgments — IX

Contributors — XIII

Santosh Kumar, Krishnendu Mondal, Nagendra Thakur, Sayak Das

1 Polyphenol oxidases: an enzyme of bacteria and fungi — 1

B. S. Shanthi Kumari, Narasimha Golla, Kanderi Dileep Kumar, K. Sai Geetha,
B. Rajasekhar Reddy

**2 Bacterial polyphenol oxidases and their applications
in bioremediation — 25**

B. S. Shanthi Kumari, Narasimha Golla, Kanderi Dileep Kumar, K. Sai Geetha,
B. Rajasekhar Reddy

3 Fungal polyphenol oxidases and their applications in bioremediation — 69

Amit Raj, Etalesh Goutam, Bharti, Prasann Kumar, Joginder Singh

4 Polyphenol oxidase: an enzyme of plants — 105

Saranya G., Siya Pradeep, R. Aswati Nair, Padmesh P. Pillai

5 Polyphenol oxidases in plants: diverse role and functions — 129

Deepshikha, Pradeep Verma, Komal Agrawal

**6 Polyphenol oxidase-based biosensors for the recognition of phenolic
pollutants — 147**

Prithiviraj Nagarajan, Leena Rajathy Port Louis, Sharangouda J. Patil,
Narasimha Golla, Suresh Babu Naidu Krishna

**7 Unlocking nature's remediation arsenal: the role of polyphenol oxidases
in efficient and eco-friendly industrial wastewater treatment — 171**

Prayatna Sharma, Sonia Tamang, Nagendra Thakur, Sayak Das

**8 Application, current and future trends of bacterial and fungal polyphenol
oxidases (laccases) — 189**

Amita Baranwal, Pradeep Verma, Komal Agrawal

9 Statistical strategies for analyzing the production of polyphenol oxidase — 223

Amita Baranwal, Pradeep Verma, Komal Agrawal

10 Strategic adaptation for the enzymatic data analysis using ANOVA/MANOVA in R — 257

Nirza Moktan, Anindita Banerjee

11 Polyphenol oxidases: challenges and future prospects — 293

Mohammad Harun-Ur-Rashid, Suresh Babu Naidu Krishna, Narasimha Golla, Abu Bin Imran

12 Polyphenol oxidases: the future toward global sustainability — 309

Index — 345
