

Contents

List of contributing authors — IX

Sonu Kumar Mahawer, Himani Karakoti, Pooja Bargali, Ravendra Kumar, Pushpendra Koli, Om Prakash, and Manoj Kumar Chitara

Chapter 1

An introduction to biorational pest control agents — 1

Bahaar Anjum, Shweta Chand Thakuri, Mohit Panwar, Tarannum Jahan, Vijay Kumar Juyal, Rashmi, and Viveka Nand

Chapter 2

Global current scenario and future prospectus of biorationals — 23

Ipsita Samal, Tanmaya Kumar Bhoi, Deepak Kumar Mahanta, J. Komal, and Satyapriya Singh

Chapter 3

Biorational pest management: potentials, unintended consequences, and future concerns — 47

Himani Karakoti, Sonu Kumar Mahawer, Tanuja Kabdal, Ravendra Kumar, Shilpi Rawat, Ayush Devrani, and Shivang Joshi

Chapter 4

Role of insect growth regulators in insect/pest control — 77

Oberdan Oliveira Ferreira, Murillo Silva Moreira, Celeste de Jesus Pereira Franco, Mozaniel Santana de Oliveira, and Eloisa Helena de Aguiar Andrade

Chapter 5

Chemistry of sex pheromones and their role in integrated pest management — 95

Pringal Upadhyay, Joydeep Karan, Satya Kumar, and Ravendra Kumar

Chapter 6

Semiochemicals and other insect communication signals for controlling insect pest — 107

Manisha Dev, Vidya Dev, K. P. Singh, Prachi Pant, and Shilpi Rawat

Chapter 7

Role of phytoalexins in plant disease resistance — 127

U. M. Aruna Kumara

Chapter 8

Microbial pesticides for plant protection — 141

Amanda Mara Teles, Aleff Castro, and Fernando Almeida-Souza

Chapter 9

Entomopathogenic fungi as biological control agents — 181

Komal Rawat, Devesh Bhatt, and Shishir Tandon

Chapter 10

Pesticides of plant origin: botanicals — 199

Arun Kumar Rai, Arun Chettri, Hemant Sharma, Binu Gogoi, Rabina Gurung, and Saurav Anand Gurung

Chapter 11

Plant essential oils: a source of eco-friendly pesticides — 221

Bhawna Verma, Jeetram Choudhary, and Ravendra Kumar

Chapter 12

Plant oleoresins as source of environment-friendly pesticides — 237

Tanuja Kabdal, Himani Karakoti, Kirti Nagarkoti, Om Prakash, and Satya Kumar

Chapter 13

The rise of plant-based nematicides: a sustainable solution for crop protection — 261

Rashmi Upadhyay and Sanjay Kumar Joshi

Chapter 14

Biorationals: global situation and future possibilities — 281

K. W. A. Madhushan, W. M. D. M. Wickramasinghe, H. M. A. M. Herath, M. A. Madushani, H. H. Nethma, K. R. E. Padmathilake, and M. C. M. Zakeel

Chapter 15

Microbial production of amino acids and peptides — 295

Manjul Gondwal, Bhanu Pratap Singh Gautam, and Girish Chandra Shah

Chapter 16

Essential oils as biorational insecticides — 335

Sushila Arya and Minakshi Pandey

Chapter 17

Bioherbicides for integrated weed management — 355

Niraj Guleria, Randeep Kumar, Suresh M. Nebapure, Nitika Saini,
Puneet Kaur, and Chandini

Chapter 18

**Dilemma hovers over the rationality of biorational insecticides: their
unintended effects and consequences — 373**

Index — 401
