Part 1

1 Introduction	1
2 Systems and Models	11
2.1 Intuitive notions	11
2.2 A systems approach to models	15
2.3 The system formed by the referent and its model	18
2.4 The two-part system: referent and environment	20
2.5 Black-box model: the referent as a unity	23
2.6 Structural model: the referent as a composition	27
2.7 Summary	45
2.8 References	46
3 Measures	47
3.1 Introduction	47
3.2 Characterizing a referent by measurement	53
3.3 Characterizing measures	73
3.4 Measurability	78
3.5 Metrology	80
3.6 Examples	85
3.7 Summary	94
3.8 References	95
4 Models of Specification and Design	97
4.1 Introduction	97
4.2 Products, processes, and the life history process	98
4.3 Specification of artefacts	112
4.4 Design of artefacts	120
4.5 Specification and design of processes	126
4.6 Summary	139
4.7 References	140

5 Measures of Specification and Design	141
5.1 Introduction	141
5.2 Measures and measurement schemes for product specifications	141
5.3 Process specification measures	149
5.4 FSP models and measures in practice	153
5.5 Summary	169
5.6 References	171
6 Constructing a Measurement Scheme	173
6.1 Introduction	173
6.2 Devising the case study demonstration	173
6.3 Measurement strategy options	181
6.4 A unifying reference language	192
6.5 Implementing a multiple-language strategy	196
6.6 The model-based measurement experiment	198
6.7 Summary and conclusions	199
6.8 References	200
 Part 2	
7 A Formal Specification Medium	203
7.1 Introduction	203
7.2 Logic, Prolog and some specifications	204
7.3 Components of the Prolog logic text	207
7.4 The referent: the Prolog logic text	212
7.5 Language levels of formal specifications	221
7.6 Summary	223
7.7 References	224
8 Models and Measures of Structure	225
8.1 Introduction	225
8.2 Modelling the structure of Prolog logic text	225
8.3 Modelling programs	232
8.4 Measures of the structural model	240
8.5 The measurement tool SPA	246
8.6 Summary	247
8.7 References	248
9 Models and Measures of Data	249
9.1 Introduction	249
9.2 Models of the data of Prolog logic text	249
9.3 Measures of Prolog data	267
9.4 An example of measurement	278

9.5 The measurement scheme – a summary	279
9.6 References	286
10 An Experiment in Measuring Specifications	287
10.1 Introduction	287
10.2 Apparatus	288
10.3 Method	292
10.4 Results	294
10.5 Observations	302
10.6 Conclusions	309
10.7 References	311
Appendix: Prolog code and measures of the specifications	312
Index	329
