

Contents

Software Aberrations – Origins and Treatments <i>M.S. Feather</i>	1
Reasoning with Incomplete Information: Rough Set Based Information Logics <i>E. Orłowska</i>	16
Knowledge and Uncertainty a Rough Set Approach <i>Z. Pawlak</i>	34
A Formal Approach to Software Reusability <i>K. Periyasamy</i>	43
Modeling Uncertainty in Object-Oriented Databases <i>F. Sadri</i>	56
Management of Uncertainty in AI: A Rough Set Approach <i>A. Skowron</i>	69
Rough Sets and Data Dependencies <i>D. Keen and A. Rajasekar</i>	87
Situation Theory and Dempster-Shafer's Theory of Evidence for Information Retrieval <i>M. Lalmas and C.J. van Rijsbergen</i>	102
Completeness in Statechart Models for Reactive Systems <i>V.S. Alagar, F. Dong and R. Achuthan</i>	117
Knowledge Recovery and Development <i>W.M. Jaworski and R. Shinghal</i>	131
A Relational Data Model for Manipulating Probabilistic Knowledge <i>L.V.S. Lakshmanan and H.L. Johnstone</i>	138
Uncertainty as a Function of Expertise <i>N. Shiri and H.M. Jamil</i>	153
Unnesting Fuzzy SQL Queries in Fuzzy Databases <i>Q. Yang, W. Zhang, C. Luo, C. Yu and H. Nakajima</i>	167
A Logical Explication of the Concepts of Incomplete and Uncertain Information <i>U. Wybraniec-Skardowska</i>	180
Evolution of Intelligent Database Systems: A Personal Perspective <i>L.V.S. Lakshmanan</i>	189

Extracting Exact and Approximate Rules from Databases <i>R. Missaoui, R. Godin and A. Boujenoui</i>	209
Logic of Rough Sets <i>M. Banerjee and M.K. Chakraborty</i>	223
Author Index	235
