

Table of Contents

Pipelining-Dovetailing: A Transformation to Enhance Software Pipelining
for Nested Loops
Jian Wang, Guang R. Gao 1

A Comparison of Modulo Scheduling Techniques for Software Pipelining
Peter Pfahler, Georg Piepenbrock 18

Removing Anti Dependences by Repairing
M. Anton Ertl, Andreas Krall 33

Controlled Node Splitting
Johan Janssen, Henk Corporaal 44

Aggressive Loop Unrolling in a Retargetable, Optimizing Compiler
Jack W. Davidson, Sanjay Jinturkar 59

Generalized Constant Propagation: A Study in C
Clark Verbrugge, Phong Co, Laurie Hendren 74

Structuring Decompiled Graphs
Cristina Cifuentes 91

Non-monotone Fixpoint Iterations to Resolve Second Order Effects
Alfons Geser, Jens Knoop, Gerald Lüttgen, Oliver Rüthing, Bernhard Steffen 106

How to Uniformly Specify Program Analysis and Transformation with
Graph Rewrite Systems
Uwe Aßmann 121

Points-to Analysis by Type Inference of Programs with Structures and Unions
Bjarne Steensgaard 136

Compiler Construction: Craftsmanship or Engineering?
William M. Waite 151

Code Generation = $A^* + BURS$
Albert Nymeyer, Joost-Pieter Katoen, Ymte Westra, Henk Alblas 160

A Compiler for Natural Semantics
Mikael Pettersson 177

Abstract Compilation: A New Implementation Paradigm for Static Analysis
Dominique Boucher, Marc Feeley 192

Using Partial Evaluation in Support of Portability, Reusability, and Maintainability
Daniel J. Salomon 208

Incremental Computation of Static Single Assignment Form <i>Jong-Deok Choi, Vivek Sarkar, Edith Schonberg</i>	223
Efficient Storage Reuse of Aggregates in Single Assignment Languages <i>Zhonghua Li, Chris C. Kirkham</i>	238
Effective Representation of Aliases and Indirect Memory Operations in SSA Form <i>Fred Chow, Sun Chan, Shin-Ming Liu, Raymond Lo, Mark Streich</i>	253
Maptool — Supporting Modular Syntax Development <i>Basim M. Kadhim, William M. Waite</i>	268
A Faster Earley Parser <i>Philippe McLean, R. Nigel Horspool</i>	281
One-Pass, Optimal Tree Parsing — With Or Without Trees <i>Todd A. Proebsting, Benjamin R. Whaley</i>	294
Compact Dispatch Tables for Dynamically Typed Object Oriented Languages <i>Jan Vitek, R. Nigel Horspool</i>	309
Delegating Compiler Objects — An Object-Oriented Approach to Crafting Compilers <i>Jan Bosch</i>	326
A Parallel Debugger with Support for Distributed Arrays, Multiple Executables and Dynamic Processes <i>Peter Fritzson, Roland Wismüller, Olav Hansen, Jonas Sala, Peter Skov</i>	341
