

Contents

1 WHY USE VISUAL BASIC 5?.....	1
Introduction	1
Why change to version 5?	2
Is this book for you?	2
How this book is organised	3
New features in version 5	4
What computer do you need to run Visual Basic 5?	5
Versions of Visual Basic 5	5
Conventions	6
 2 THE VISUAL BASIC ENVIRONMENT	 7
Introduction	7
Starting Visual Basic 5	7
The Visual Basic design screen	10
The form	11
The Form Layout Window	12
The Project Explorer window	13
The Properties window	13
The Visual Basic standard menu bar and toolbar	14
The toolbox	15
 3 SHRINKING AND GROWING	 17
Introduction	17
Outline of the Shrinking and Growing program	17
Creating a new project	18
Defining the user interface	19
Moving and scaling	20
The Properties window	20
Changing captions	21
Displaying a picture	22
Supported file types	24
Common problems	24
Running the program	25
Event driven software	26
Making the buttons work	26
Saving the project	29

4 MANAGING PROJECTS AND FILES	30
Introduction.....	30
Opening and closing projects	30
Application files	32
FRM files	33
BAS files	33
OCX files	34
FRX files	34
CTL files	35
CLS files.....	35
Adding elements to a project.....	35
A common problem.....	36
 5 STANDARD CONTROLS	 37
Introduction.....	37
The toolbox appearance	37
Adding controls to forms	38
Selecting controls	38
Cutting and Pasting	39
Common toolbox controls.....	39
The pointer icon	41
Common properties.....	41
The PictureBox control	42
The Label control	43
The TextBox Control	43
Passwords.....	44
Captions and hot keys	45
The Frame control.....	45
The CommandButton control.....	45
The CheckBox control	46
The OptionButtons control.....	47
The ComboBox control.....	47
The ListBox control	48
The AddItem method	49
The Sorted property.....	49
The HScrollBar and VScrollBar controls.....	49
The Timer control	50
The Shape, Line and Image Controls	50
 6 BUYING A NEW PC.....	 52
Introduction.....	52
Design of the form	52
Adding the TextBox controls.....	53

Adding the CheckBox controls.....	53
Adding the OptionButton Controls.....	54
Adding the ListBox and ComboBox controls	54
Running the program.....	54
Initialising the ListBox and ComboBox	55
TabIndex and TabStop	56
Forms	56
Controlling form properties	56
Using properties.....	57
Hiding and showing forms	58
Loading and unloading forms.....	58
The Show method.....	59
The Hide method	59
MDI forms.....	59
Arranging forms	60
 7 DISPLAYING TEXT.....	 62
Introduction	62
The MsgBox function.....	62
Message box text.....	63
MsgBox buttons parameter.....	64
Getting button input.....	66
Getting text input from a dialog box	67
Missing optional parameters.....	67
Controlling fonts and font characteristics.....	68
Using the Print method.....	70
Formatting numbers dates and times	70
Number format	70
Custom formats	72
Date and time format	72
Writing to a printer	74
The Printer object	74
The PrintForm method	74
 8 DECLARING AND USING VARIABLES.....	 76
Introduction	76
Declaring variables.....	76
Naming conventions.....	77
Static variables.....	77
Variables scope.....	78
Variable types.....	78
The Boolean data type	79
The Byte data type.....	79

The Currency data type	79
The Date data type	79
The Decimal data type.....	79
The Integer data type.....	80
The Long data type.....	80
The Object data type	80
The Single data type.....	80
The Double data type	80
The String data type	80
The Variant data type	81
Range of data types	81
Converting between data types	81
Int and Fix	82
Arithmetic operations	82
The comparison operators	83
Arrays.....	83
Declaring arrays	83
Changing array dimensions.....	84
User-defined data types	84
The Erase statement	85
 9 CONTROLLING PROGRAM FLOW.....	 86
Introduction	86
Types of program control.....	86
The If...Then...Else statement.....	87
Nested Ifs	87
The Else If clause	88
The Select Case structure	88
The GoTo statement	89
Looping	89
The Do...While clause	90
The Do...Until clause.....	90
Exit Do statement.....	91
The While... Wend clause	91
The For...Next construct.....	92
Terminating For loops.....	92
Exit For	93
 10 PROCEDURES AND FUNCTIONS.....	 94
Introduction	94
Event procedures.....	94
General procedures.....	95
The scope of event and general procedures	95

Passing arguments	96
Function procedures	96
11 DEBUGGING.....	98
Introduction	98
What is debugging?	98
Syntax errors and Quick Info	99
Logic errors	100
Using breakpoints.....	100
Displaying the value of variables	101
Changing code in break mode	102
Continuing and stopping.....	102
Stepping.....	102
Watchpoints.....	103
Conditional Compilation	104
The Call Stack window.....	105
The Debug menu	105
12 OBJECT ORIENTED PROGRAMMING.....	107
Introduction	107
Why use object oriented programming?.....	107
What are objects?	108
Using properties.....	109
Using methods	109
Creating objects at run-time	110
Arrays of forms	111
Arrays of control variables	112
User-defined classes	114
Creating and using Collections.....	116
13 ACTIVEX CONTROLS	118
Introduction	118
What are custom controls?	118
Creating an ActiveX control.....	119
The ActiveX clock.....	120
Writing the code	121
Testing the control.....	124
Resizing Controls	126
Incorporating events in a Control	127
Making an OCX file	130
Control Groups	131
The ActiveX Control Interface Wizard	131

Running the Control Interface Wizard	134
Testing the ActiveX Control	138
14 CREATING AND USING MENUS	141
Introduction.....	141
Creating a menu bar	141
Amending the menu	143
Shortcut keys.....	143
The Checked property	144
Enabling and disabling controls	144
Pop-up Menus	145
15 USING CUSTOM CONTROLS	148
Introduction.....	148
The CommonDialog control.....	148
Common Controls	151
The Calendar control.....	152
The Grid Control	152
Uses of the Grid control	153
Changing the number of rows and columns.....	153
Changing grid text.....	154
Changing size	155
Selecting cells.....	156
Adding and removing rows	156
Aligning text.....	157
Scroll bars.....	158
Editing grid cells	158
16 CREATING AND USING GRAPHICS.....	159
Introduction.....	159
The graphics controls	159
The Line control.....	160
The Shape Control.....	161
Properties of the Shape control	161
The co-ordinate system	162
Twips and other units	163
Using graphics methods	163
Controlling individual pixels.....	164
The Line method	164
Drawing boxes	165
The Circle method.....	166
Drawing circles and ellipses.....	166

Drawing arcs and pies	168
The Image and PictureBox controls	169
Supported image formats.....	169
The Stretch property	170
The AutoSize property	170
Adding a picture at run-time.....	171
17 MOUSE AND KEYBOARD EVENTS	172
Introduction	172
Keyboard events	172
Mouse events	173
The MouseMove event	174
Mouse event arguments	174
The click events	175
The MouseDown, MouseUp events	175
The Button argument	176
The Shift, Ctrl and Alt arguments	176
Dragging and dropping.....	176
The Drag method.....	176
The DragIcon property	177
The DragOver event	178
18 DATABASES	179
Introduction	179
What are databases?.....	180
Relational databases	180
Key Fields.....	180
Normalisation	181
Many-to-many relationships.....	181
What databases does Visual Basic support?	182
Creating a database.....	183
Adding tables to the database	184
Adding an Index	186
Adding data to the table.....	187
The Data Form Wizard	188
Running the application.....	192
Implementing a many-to-many relationship.....	193
Creating the database.....	193
The Data control	195
Properties of the Data control.....	195
The data-aware controls	196
Properties for data-aware controls	196
The Animals database.....	196

Database methods.....	197
The BOF and EOF properties.....	198
Deleting and adding records.....	199
19 MENU AND TOOLBAR REFERENCE	200
Introduction	200
The Print dialog box.....	200
The Edit menu.....	201
The View menu.....	204
The Project menu	208
The Format menu	211
The Debug menu	212
The Run menu.....	212
The Tools menu.....	213
The Editor Page.....	214
The Editor Format Page	215
The General Page	216
The Docking Page	217
The Environment Page.....	218
The Advanced Page.....	219
The Add-Ins menu.....	220
The Window menu.....	221
The Help menu.....	222
The toolbars.....	223
The standard toolbar.....	223
Project and file management	224
Opening and saving projects	225
Editing.....	225
Undoing actions	226
Running applications.....	226
Focusing on windows.....	226
The Debug toolbar.....	227
The Edit toolbar.....	227
The Form Editor toolbar.....	229
INDEX	231
