Opening Remarks

Welcoming at the 3rd International Symposium on Observation of the Continental Crust through Drilling, Mora and Orsa, Sweden, September 7-10, 1987 K.G. Eriksson	3
Opening Speech of the 3rd International Symposium on Observation of the Continental Crust through Drilling, Mora and Orsa, Sweden, September 7-10, 1987 County governor Lilly Hansson	5
Drilling for Deep Gas in the Siljan Impact Structure I. Wivstad	6
Opening Ceremony Remarks M.T. Halbouty	7
Continental Scientific Drilling – A Scientific Frontier F.G. Stehli	9

International Review of Deep Drilling Projects

Experience from Crystalline Rock Drilling and Technology Directions for Effective Ultra-deep Coring and Drilling J.C. Rowley and F.J. Schuh (With 21 Figures)	13
Deep Structure of Early Precambrian Continental Crust (Kola Super-deep Well) E.B. Nalivkina (With 10 Figures)	54
The German Continental Deep Drilling Program, Targets and State of Work H.J. Behr, P. Kehrner and H. Rischmüller (With 11 Figures)	64
The Ocean Drilling Program P.D. Rabinowitz, L. Garrison, A. Meyer and J. Baldauf (With 4 Figures)	82
DOSECC's Deep Scientific Drilling Project at Cajon Pass, California T.L. Henyey, A.H. Lachenbruch, L.T. Silver and M.D. Zoback (With 5 Figures)	92
Problems of Ultra Deep Exploration in the Alpine Region of Central Europe H.F. Spoerker	102

The "Deep Geology of France" Programme. The First Three Boreholes in Crystalline Rocks C. Megnien (With 7 Figures)	107
The Appalachian Ultradeep Core Hole (ADCOH) Project R.D. Hatcher Jr, R.T. Williams, S.H. Edelman, J.K. Costain, C. Coruh, R.A. Phinney, K. Roy-Chowdury, E.R. Decker, M.D. Zoback, D. Moos and R.N. Anderson (With 17 Figures)	117
Deep Crustal Drilling, Texas Gulf Coast, United States of America W.R. Muehlberger, W.E. Galloway, L.S. Land, J.M. Sharp, D.S. Sawyer and M.P.R. Light (With 6 Figures)	155
Results from Shallow Research Drilling at Inyo Domes, Long Valley Caldera, California, and the Salton Sea Geothermal Field, Salton Trough, California L.W. Younker, J.C. Eichelberger, P.W. Kasameyer, R.L. Newmark and T.A. Vogel (With 10 Figures)	172
Scientific Drilling in Canada - Past and Future M.J. Drury and J.M. Hall (With 2 Figures)	189
The Contribution of Drilling to British Deep Geology A. Whittaker	195
 <u>Technical Papers</u>	
Cajon Pass Scientific Drilling Project: Phase I Overview R.S. Andrews, R.J. Johnson and J.C. Schillo (With 5 Figures)	205
The Drilling Concept of the Continental Deep Drilling Program of the Federal Republic of Germany (KTB) C. Chur and A. Sperber (With 6 Figures)	224
Bit Design for Crystalline Rock J.S. Dahlem (With 11 Figures)	235
Coring Tools for Application in Crystalline Rock J. Oppelt and V. Krüger (With 29 Figures)	262
Modern Exploration by Deep Slim Hole Drilling and Wire Line Coring G. Peterson (With 1 Figure)	286
Deep Hole Drilling with Wireline Equipment J.R. Savage	295
Future Development of Ultraslim Hole Drilling Technique and its Place in Deeper Exploration Drilling J. Mácsik	301
A New High Temperature Stable Drilling Mud Additive for Geological and Deep Drilling Operations C.-P. Herold, H. Müller and S. von Tapavicza (With 8 Figures) ...	306
Formation Microscanner Tool Imaging and Laterolog Resistivity Measurements in Interpretation of Crystalline Terrains R. Cull (With 8 Figures)	315

Comparison of Rotating Times for Deep Wells N.D. Mortimer and S.T. Minett (With 3 Figures)	328
Significance of Material Softening for the Analysis of Deep Borehole Stability C. Lempp (With 13 Figures)	333

Scientific Papers

Project Upper Crust: A Program to Sample the Precambrian Basement of the Midcontinent Region of North America Using Industrial Drill Holes W.R. van Schmus, M.E. Bickford and L.R. Latham (With 1 Figure) ..	351
Scientific Exploration of an Active Magma-Hydrothermal System in the Valles Caldera, New Mexico, through Drilling D.L. Nielson, J.B. Hulen, F. Goff and J.N. Gardner (With 6 Figures)	361
Initial Results of the Salton Sea Scientific Drilling Project (SSSDP): A Research Borehole in an Active Hydrothermal System in Southern California, U.S.A. W.A. Elders (With 3 Figures)	381
The Swedish Hot-Dry-Rock Project; Some Preliminary Achievements T. Eliasson, U. Lindblom, R. Slunga, U. Sundqvist and T. Wallroth (With 6 Figures)	391
Geophysical Aspects of Recent Deep Seismic Soundings of the German Crust P. Hubral (With 8 Figures)	401
A Pilot Vertical Seismic Profiling Experiment in the Cajon Pass Deep Scientific Drillhole P.C. Leary, T.L. Henyey and T.V. McEvilly (With 8 Figures)	417
The Logging Strategy for the Continental Deep Drilling Programme of the Federal Republic of Germany R. Haenel and J.K. Draxler (With 19 Figures)	428
Frictional Sliding and the Crustal Stresses R.S. Slunga (With 5 Figures)	444
General Considerations of the Flow of Gases through the Crust T. Gold	454
New Concepts of Earth Structure and Potential Hydrocarbon Reserves V.N. Nikolaevskij (With 5 Figures)	458
Permeability and Paleoporosity in Crystalline Bedrocks of the Central European Basement - Studies of Cathodoluminescence H.J. Behr and K. Frenzel-Beyme (With 33 Figures)	477

Prospects for the Future of Deep Drilling

Frontiers in Hydrocarbon Exploration	
M.T. Halbouty (With 12 Figures)	501
Why Drill Deep Holes in Precambrian Basement?	
P.C. Grew	512
The Future of Scientific Drilling	
F.G. Stehli	523
Quantifying the Mass-Energy Fluxes Across the Geospheres: The New Challenge for the Earth Sciences	
W.S. Fyfe	532
