1 ■ INTRODUCTION	1
The Approach to Diagnosis	3
Primary Bone Tumors in Children	5
2 ■ BONE TUMORS	9
Tumors of Cartilaginous Origin	11
Osteochondroma	11
Enchondroma	16
Chondroblastoma	20
Chondromyxoid Fibroma	23
Chondrosarcoma	26
Tumors of Osteoblastic Origin	32
Osteoma	32
Osteoid Osteoma	34
Osteoblastoma	38
Osteosarcoma	43
Tumors of Fibrous Tissue Origin	53
Nonossifying Fibroma	53
Benign Fibrous Histiocytoma	56
Metaphyseal Fibrous Cortical Defect	57
Fibroblastic Periosteal Reaction	58
Ossifying Bone Fibroma	60
Fibrous Bone Dysplasia	61
Osteofibrous Bone Dysplasia	65
Desmoplastic Bone Fibroma	66
Osteoclastoma	68
Malignant Fibrous Histiocytoma	70
Fibrosarcoma of Bone	73
Tumors of Marrow Origin	77
Lipoma of Bone	77
Liposarcoma of Bone	78
Histiocytosis X	79
Ewing's Sarcoma	82
Malignant Lymphoma of Bone	85
Medullary Plasmacytoma	87
Tumors of Vascular Origin	90
Bone Hemangioma	90
Bone Lymphangioma	94
Massive Osteolysis	95
Hemangiosarcoma of Bone	96
Hemangiopericytoma of Bone	97

Tumors of Neurogenous Origin	100
Schwannoma	100
Neurofibroma and Neurofibromatosis	101
Metastatic Neuroblastoma	103
3 ■ TUMOR-LIKE BONE LESIONS	107
Juvenile Bone Cyst	109
Aneurysmal Bone Cyst	111
Localized Myositis Ossificans	114
Melorheostosis	116
Giant Cell Reaction of Short Tubular Bones	117
Reparative Giant Cell Granuloma of the Jaw Bones	119
4 ■ RADIOGRAPHIC APPROACH TO THE DIAGNOSIS OF PRIMARY BONE TUMORS	123
Introduction	125
Skull Tumors	129
Jaw Tumors	140
Vertebral Tumors	147
Clavicular Tumors	158
Scapular Tumors	162
Sternal Tumors	166
Rib Tumors	167
Pelvic Tumors	174
Sacral Tumors	185
Long-bone Tumors	191
Femoral Neck Tumors	205
Midfemoral Periosteal Thickening	209
Midshaft Tibial Tumors	212
Epiphyseal Tumors	217
Patellar Tumors	221
Hand Tumors	223
Foot Tumors	230
Primary Tumors in Infants	236
Fibrous Dysplasia	244
Neurofibromatosis	251
Metastatic Bone Disease	255
Secondary Malignant Neoplasms	260
Rickets Secondary to Neoplasia	261
Periostitis	262
SUBJECT INDEX	265
