

Contents and Program

Preface	v
---------------	---

Geodetic and Gravimetric Control in Latin America

Inter-American geodetic integration <i>H. Caddes, H. Henneberg, E. Pallejá, and M. Pinch</i>	3
---	---

A first realization of a GPS reference frame in Brazil <i>M.A. Campos, J.B. Andrade, F. Rosier, H. Araki, A.L. Souza Jr., L.A. Cassoli, A.A. Santos Jr., J.J. Seixas, R.G.A. Mello, A.A. Santos, D. Blitzkow, R.A. Smijtink, L.P.S. Fortes, and G.R.A. Zepeda</i>	16
--	----

A first attempt for a GPS network in Brazil, <i>not included</i> <i>R.A. Smijtink, D. Blitzkow, J.P. Cintra, N.P. Netto, M.A. Campos, and L.P.S. Fortes</i>	
--	--

GPS South American net project for southern cone <i>R. Rodriguez, C. Brunini, and J.C. Usandivaras</i>	21
---	----

Use of GPS in the south of Brazil under severe ionospheric conditions <i>L. Wanninger, G. Seeber, and M.A. Campos</i>	30
--	----

Datum transformations for GPS applications in South America <i>Y. Georgiadou, A. Kleusberg, and C. Escudero</i>	40
--	----

Satellite imagery and positioning systems for accurate mapping in unmapped areas of the Amazon <i>R.D. Sanchez</i>	46
--	----

Regional Gravity and Geoid Determination

New first order gravity stations in Chile: implications <i>M.S. Avendaño and M. Araneda</i>	57
--	----

Gravity chart of Mexico, <i>not included</i> <i>M. Mena, M. de la Fuente-Duch, and C. Aiken</i>	
--	--

A contribution to the geoid determination <i>D. Blitzkow, J.P. Cintra, and L.P.S. Fortes</i>	65
---	----

The possibilities for a detailed gravimetric geoid in Uruguay, *not included*
D. Blitzkow, J.P. Cintra, and Servicio Geografico Militar

The South American Gravity Project
C.M. Green and J.D. Fairhead 82

Geodynamic Research Projects

Tidal gravity measurements in Latin-America
P. Melchior, M. van Ruymbeke, C. Poitevin, J. Rasson, and B. Ducarme 99

Plate motions and active crustal deformation in the North Andean region
 measured with the Global Positioning System
J.T. Freymueller and J.N. Kellogg 131

The Project CORBAS - determination of recent crustal movements in Costa Rica
*W. Niemeier, J. Roldan, L. Aguilar, H. Pelzer, A. Bagge, W. Augath,
 and W. Seifert* 146

Recent dynamic activity of the Bransfield rift: potential zone of high natural
 hazard in Antarctica
O. González-Ferrán 157

Gravity variations in Central Chile
M. Araneda and M.S. Avendaño 176

Monitoring of gravity variations in the southern Central Andes
*M. Becker, E. Groten, M. Araneda, A.A. Cerrato, M. Starowinsky, G. Csapo,
 O. Hirsch, and F. Volponi* 184

Crustal dynamic investigations in the Central Andes using GPS
J. Klotz, D. Lelgemann, U. Gehlich, E. Kausel, and J. Viramonte 192

Geodynamic research by absolute and relative gravimetry in Venezuela
H. Drewes, W. Torge, R. Röder, C. Badell, D. Bravo, and O. Chourio 202

Author Index 215
