I. Stellar Populations in the IR

When Do Near-IR Colors Help in Studying Stellar Populations?	3
<i>D.R. Silva</i>	
Photometric and Spectrophotometric Models in the NIR	13
<i>B. Rocca-Volmerange</i>	
Stellar Libraries: Spectral Features in the Near-IR	22
<i>B. Barbuy</i>	
New Spectrophotometric Population Synthesis Models of Ellipticals and Early-Type Spirals	32
<i>A. Vazdekis, R.F. Peletier, E. Casuso, J.E. Beckman</i>	
Infrared Colour Gradients in Spiral Galaxies	35
<i>D.M. Terndrup</i>	
Colour Gradients in the Optical and Near-IR	43
<i>R.S. de Jong</i>	
Stellar Populations of Bulges and Disks: New Insights from Near-IR Colours	48
<i>R. Peletier, M. Balcells</i>	
Determining the Contribution of Young Stars to Near-IR Light	58
<i>J.E. Rhoads</i>	
How Much Do Young Stars Contribute to the K-band Light?	63
<i>C. Chiosi, A. Vallenari</i>	

II. IR Observations of Local Group Galaxies

The Brightest Stars in the Galactic Bulge	75
<i>P. Whitelock</i>	
Imaging of Local Group Bulge Populations in the Near-IR	85
<i>R.M. Rich</i>	
Origin of Bulges	95
<i>A. Renzini</i>	
The Milky Way in the Near-IR, First Results of DENIS	105
<i>S. Ruphy</i>	
HST Observations of the Ionizing Star Cluster NGC 595 in the Spiral Galaxy M 33	108
<i>E.M. Malumuth, W.H. Waller, J.W. Parker</i>	
Discovery of the Galactic Bar Population	110
<i>Y.K. Ng, G. Bertelli, C. Chiosi, A. Bressan</i>	

Integrated Infrared Colors of Star Clusters in the Galaxy and M 31	113
<i>A. Vallenari, C. Chiosi, R. Tantaló</i>	

III. Dynamical Structure of Spiral Galaxies

Observational Evidence for a Compact Dark Mass at the Galactic Center	117
<i>A. Eckart, R. Genzel, A. Krabbe, R. Hofmann, L.E. Tacconi-Garman, H. Kroker, N. Thatte, L. Weitzel</i>	
Applications of a Self-Consistent Model for the Galactic Bar	124
<i>H.-S. Zhao</i>	
Towards a Three-Dimensional Model of the Galaxy	128
<i>D.N. Spergel, S. Malhotra, L. Blitz</i>	
On the Deprojection of Axisymmetric and Triaxial Stellar Systems	138
<i>O. Gerhard</i>	
Near-IR Observations and Dynamics of Barred Galaxies	147
<i>E. Athanassoula</i>	
Studying Galaxy Dynamics with IR Images	157
<i>A.C. Quillen</i>	
Dynamical Evolution of Disk Galaxies	166
<i>J.A. Sellwood</i>	
Disk Dynamics Based on Near-IR Photometry	174
<i>P. Grosbøl, P. Patsis</i>	
Measuring Spiral Arm Torques: M 100 in K	184
<i>O.Y. Gnedin, J. Goodman, J.E. Rhoads</i>	
Galaxy as Dynamical System with Accreting Halo	186
<i>P. Berczik, S.G. Kravchuk</i>	
Near-IR Measurements of Kinematics in Luminous Galaxies	190
<i>N.I. Gaffney, D.F. Lester, G. Doppmann</i>	

IV. IR Observations of Disk Galaxies

Galaxies with the DENIS 2 Micron Survey: A Preliminary Report	195
<i>G.A. Mamon</i>	
How Good Is the Near-IR Tully-Fisher Relation?	200
<i>G.M. Bernstein, P. Guhartakurta, S. Raychaudhury</i>	
Near-IR Imaging of Late-Type Virgo Cluster Galaxies	210
<i>A. Boselli, G. Gavazzi, H. Hippelein, J. Lequeux, D. Pierini, R. Tuffs, H. Völk, C. Xu</i>	
Near-IR Surface Photometry of 400 Late-Type Galaxies	214
<i>D. Pierini, G. Gavazzi</i>	
Nonaxisymmetric Structures in Stellar Disks	216
<i>D. Zaritsky, H.-W. Rix</i>	
Azimuthal Color Gradients in M 99	226
<i>R.A. González, J.R. Graham</i>	
Spiral Disk Asymmetries and Other Evidence of Accretion in Nearby Galaxies	233
<i>D. Zaritsky</i>	

Mass Models from Near-IR Surface Photometry	235
<i>P. Héraudeau, F. Simien, G.A. Mamon</i>	
NIR Imaging and Modeling of the Core of M100	240
<i>J.H. Knapen, R.F. Peletier, I. Shlosman, J.E. Beckman, C.H. Heller, R.S. de Jong</i>	
Edge-On Spiral Galaxies: from Optical to Near-IR	242
<i>R. de Grijs, P.C. van der Kruit</i>	
Dynamical Evolution and Population Analysis of Galactic Disks from Optical and Infrared Colour Profiles in Edge-On Galaxies	244
<i>A. Just, C. Scorza, R. Wielen, B. Fuchs</i>	
Orbits in the Bar of NGC4314	246
<i>P.A. Patsis, E. Athanassoula, A.C. Quillen</i>	
Multiband Analysis of Central-Region Features	248
<i>Ph. Héraudeau, F. Simien, and G.A. Mamon</i>	

V. Modeling the Dust

The History and Future of Extinction Models	253
<i>J.E. Huizinga</i>	
3D Radiative Transfer Models of Galaxies	263
<i>B.F. Madore</i>	
Near-IR Colors: The Structure of Dust Lanes in Barred Galaxies	269
<i>M.W. Regan, S.N. Vogel</i>	
K' Band Observations of the Evil Eye Galaxy and the Implied K' Band Dust Albedo	277
<i>A.N. Witt, J.K. Petersohn, R.S. Lindell, D.L. Block, R. Evans</i>	
Probing the Optical Depth of Spirals Using Multi-waveband Observations	283
<i>R. Evans</i>	
Dust Extinction from Paschen-Balmer Lines	285
<i>L. Petersen, T. Christensen, P. Gammelgaard</i>	

VI. Nuclear Activity: Clues from the IR

Evidence for Biased IMFs	289
<i>G.H. Rieke</i>	
IR Spectra and the L/M Ratio in Seyfert and Starburst Galaxies	299
<i>A.F.M. Moorwood, L. Origlia, J.K. Kotilainen, E. Oliva</i>	
Near-IR Emission Lines in the Active Nuclei of Spiral Galaxies	308
<i>R.I. Thompson</i>	
Near-IR Properties of Quasar and Seyfert Host Galaxies	315
<i>K.K. McLeod, G.H. Rieke</i>	
Near-IR View of the Nuclear Region of NGC 1808	320
<i>J.K. Kotilainen, D.A. Forbes, A.F.M. Moorwood, P.P. van der Werf, M.J. Ward</i>	

Revealing the Origin of Nuclear Starbursts in Late-Type Spirals: IC 342	325
<i>T. Böker, N. Förster, R. Genzel, A. Krabbe, L.E. Tacconi-Garman, M. Tecza</i>	
The Nature of Nuclear Starbursts: M 82	328
<i>N.M. Förster, T. Böker, A. Krabbe, N. Thatte, H. Kroker, R. Genzel</i>	
Near-IR Imaging of the Central Regions in NGC 1068 and NGC 7552	331
<i>A. Quirrenbach, E. Schinnerer, F. Prada, A. Eckart, M. Risse</i>	
Near-IR and MM Imaging Spectroscopy of the Nuclear Region of NGC 1068	333
<i>N. Thatte, L. Tacconi, H. Kroker, A. Krabbe, L.E. Tacconi-Garman, R. Genzel</i>	
Near-IR Imaging Spectroscopy of F 10214: Evidence for a Starburst Around an AGN at $Z = 2.284$	336
<i>H. Kroker, R. Genzel, A. Krabbe, L.E. Tacconi-Garman, M. Tecza, N. Thatte</i>	
K-Band Imaging of Arp's Interacting Spirals	339
<i>C.F. McCain, K.C. Freeman, P.J. Quinn</i>	
Starburst Episodes Near the Galactic Center	341
<i>D.H. Hartmann</i>	
When Is a Merger not a Merger?	346
<i>D.L. Clements, A. Baker</i>	
Author Index	349
