

Table of Contents

On B	1
<i>Jean-Raymond Abrial</i>	

Invited Lectures

The Generalised Substitution Language Extended to Probabilistic Programs	9
<i>Carroll Morgan</i>	

MÉTÉOR: An Industrial Success in Formal Development	26
<i>Patrick Behm, Pierre Desforges, Jean-Marc Meynadier</i>	

Cost Effectiveness of Formal Methods in the Development of Avionics Systems at AÉROSPATIALE	27
<i>François Pilarski</i>	

Theoretical Issues on B

Well Defined B	29
<i>Patrick Behm, Lilian Burdy, Jean-Marc Meynadier</i>	

Composition and Refinement in the B-Method	46
<i>Marie-Laure Potet, Yann Rouzaud</i>	

Formalisation of B in Isabelle/HOL	66
<i>Pierre Chartier</i>	

B Extension Proposals

Introducing Dynamic Constraints in B	83
<i>Jean-Raymond Abrial, Louis Mussat</i>	

Retrenchment: An Engineering Variation on Refinement	129
<i>Richard H. Banach, Michael R. Poppleton</i>	

Methodological Issues

Synthesising Structure from Flat Specifications	148
<i>Brian Matthews, Brian Ritchie, Juan Bicarregui</i>	

An Object-Based Approach to the B Formal Method	162
<i>Alexander Malioukov</i>	

Graphical Design of Reactive Systems	182
<i>Emil Sekerinski</i>	

Process Control Engineering: Contribution to a Formal Structuring Framework with the B Method	198
<i>Jean-François Pétin, Gérard Morel, Dominique Méry, Patrick Lamboley</i>	
Designing a <i>B Model</i> for Safety-Critical Software Systems	210
<i>Souâd Taouil-Traverson, Sylvie Vignes</i>	
Design of Distributed Systems	
Abstract State Machines: Designing Distributed Systems with State Machines and B	226
<i>Bill Stoddart, Steve Dunne, Andy Galloway, Richard Shore</i>	
Layering Distributed Algorithms within the B-Method	243
<i>Marina Waldén</i>	
Case Studies and Industrial Applications	
Two Strategies to Data-Refine an Equivalence to a Forest	261
<i>Philipp Heuberger</i>	
Specification of an Integrated Circuit Card Protocol Application Using the B Method and Linear Temporal Logic	273
<i>Jacques Julliand, Bruno Legeard, Thierry Machicoane, Benoit Parreaux, Bruno Tatibouët</i>	
Test Case Preparation Using a Prototype	293
<i>H. Treharne, J. Draper, S. Schneider</i>	
Author Index	313
