Preface	vii
Acknowledgments	ix
Using This Book	xi
PART I: EXAMPLES OF VARIETIES AND MAPS	
Lecture 1	2
Affine and Projective Varieties	3
A Note About Our Field	3
Affine Space and Affine Varieties	3
Projective Space and Projective Varieties	
Linear Spaces	5
Finite Sets	6
Hypersurfaces	8
Analytic Subvarieties and Submanifolds	8
The Twisted Cubic	10
Rational Normal Curves	11
Determinantal Representation of the Rational Normal Curve	11
Another Parametrization of the Rational Normal Curve	12
The Family of Plane Conics	13
A Synthetic Construction of the Rational Normal Curve	14
Other Rational Curves	10
Varieties Defined over Subfields of K	10
A Note on Dimension, Smoothness, and Degree	
LECTURE 2	17
Regular Functions and Maps	
The Zariski Topology	17
Regular Functions on an Affine Variety	11

vii

Projective Varieties	20
Regular Maps	21
The Veronese Map	23
Determinantal Representation of Veronese Varieties	24

Contents

xiv

ojective Varieties	- 1
egular Maps	2
The Veronese Map	2
Determinantal Representation of Veronese Varieties	
Subvarieties of Veronese Varieties	2
The Segre Maps	2
Subvarieties of Segre Varieties	:
Products of Varieties	2
Granhs	,

The Veronese Map	
	23
Determinantal Representation of Veronese Varieties	24
Subvarieties of Veronese Varieties	24
The Segre Maps	25
Subvarieties of Segre Varieties	27
Products of Varieties	28
Graphs	29
Fiber Products	30
Combinations of Veronese and Segre Maps	30

Subvarieues of veronese varieues	24
The Segre Maps	25
Subvarieties of Segre Varieties	27
Products of Varieties	28
Graphs	29
Fiber Products	30
Combinations of Veronese and Segre Maps	30
Lecture 3	
Cones, Projections, and More About Products	32
Cones	32
Quadrics	33
Projections	34
More Cones	37
More Projections	38
Constructible Sets	39
Lecture 4	
Families and Parameter Spaces	41
Families of Varieties	41
The Universal Hyperplane	42
The Universal Hyperplane Section	43
Parameter Spaces of Hypersurfaces	44
Universal Families of Hypersurfaces	45
A Family of Lines	47

Combinations of Veronese and Segre Maps	3
Lecture 3	
Cones, Projections, and More About Products	3
Cones	7
Quadrics	3
Projections	3
More Cones	3
More Projections	3
Constructible Sets	3
Lecture 4	
Families and Parameter Spaces	4
Families of Varieties	4
The Universal Hyperplane	4
The Universal Hyperplane Section	4
Parameter Spaces of Hypersurfaces	4
Universal Families of Hypersurfaces	4
A Family of Lines	4
Lecture 5	
Ideals of Varieties, Irreducible Decomposition, and the Nullstellensatz	4
Generating Ideals	4
Ideals of Projective Varieties	5
Irreducible Varieties and Irreducible Decomposition	5
General Objects	5
General Projections	4
General Twisted Cubics	5
Double Point Loci	5
A Little Algebra	5
Restatements and Corollaries	6
Lecture 6	
Grassmannians and Related Varieties	6

LECTURE 4	
Families and Parameter Spaces	4
Families of Varieties	4
The Universal Hyperplane	4
The Universal Hyperplane Section	4
Parameter Spaces of Hypersurfaces	4
Universal Families of Hypersurfaces	4
A Family of Lines	4
Lecture 5	
Ideals of Varieties, Irreducible Decomposition, and the Nullstellensatz	4
Generating Ideals	4
Ideals of Projective Varieties	:
Irreducible Varieties and Irreducible Decomposition	
General Objects	:
General Projections	
General Twisted Cubics	:
Double Point Loci	:
A Little Algebra	
Restatements and Corollaries	(
Lecture 6	
Grassmannians and Related Varieties	ϵ
Grassmannians	(
Subvarieties of Grassmannians	(

The Universal Hyperplane	42
The Universal Hyperplane Section	43
Parameter Spaces of Hypersurfaces	44
Universal Families of Hypersurfaces	45
A Family of Lines	47
LECTURE 5	
deals of Varieties, Irreducible Decomposition, and the Nullstellensatz	48
Generating Ideals	48
deals of Projective Varieties	50
rreducible Varieties and Irreducible Decomposition	51
General Objects	53
General Projections	54
General Twisted Cubics	55
Double Point Loci	56
A Little Algebra	57
Restatements and Corollaries	60
LECTURE 6	
Grassmannians and Related Varieties	63
Grassmannians	63
Subvarieties of Grassmannians	66

Contents	xv
The Grassmannian G(1, 3)	67
An Analog of the Veronese Map	68
Incidence Correspondences	68
Varieties of Incident Planes	69
The Join of Two Varieties	70
Fano Varieties	70
Lecture 7	
Rational Functions and Rational Maps	72
Rational Functions	72
Rational Maps	73
Graphs of Rational Maps	75
Birational Isomorphism	77
The Quadric Surface	78
Hypersurfaces	79
Degree of a Rational Map	79
Blow-Ups	80
Blowing Up Points	81 82
Blowing Up Subvarieties	84 84
The Quadric Surface Again	85
The Cubic Scroll in	87
Unirationality	
Lecture 8	
	00
More Examples	88

Rational Normal Scions IV	10
More General Determinantal Varieties	11
Symmetric and Skew-Symmetric Determinantal Varieties	11
Fano Varieties of Determinantal Varieties	11
Lecture 10	
Algebraic Groups	11
The General Linear Group GL_nK	11
The Orthogonal Group SO, K	11
The Symplectic Group Sp _{2n} K	11
Group Actions	11
$\operatorname{PGL}_{n+1}K$ acts on \mathbb{P}^n	11
PGL_2K Acts on \mathbb{P}^2	11
PGL_2K Acts on \mathbb{P}^3	11
PGL_2K Acts on \mathbb{P}^n	11

The Orthogonal Group SO _n K	115
The Symplectic Group $Sp_{2n}K$	116
Group Actions	116
$PGL_{n+1}K$ acts on \mathbb{P}^n	116
$\operatorname{PGL}_2 K$ Acts on \mathbb{P}^2	117
$\operatorname{PGL}_2 K$ Acts on \mathbb{P}^3	118
$\operatorname{PGL}_2 K$ Acts on \mathbb{P}^n	119
$\operatorname{PGL}_{3}K$ Acts on \mathbb{P}^{5}	120
PGL_3K Acts on \mathbb{P}^9	121
PO_nK Acts on \mathbb{P}^{n-1} (automorphisms of the Grassmannian)	122
$\operatorname{PGL}_n K$ Acts on $\mathbb{P}(\bigwedge^k K^n)$	122
Quotients	123
Quotients of Affine Varieties by Finite Groups	124
Quotients of Affine Space	125
Symmetric Products	126
Quotients of Projective Varieties by Finite Groups	126
Weighted Projective Spaces	127
Part II: Attributes of Varieties	
Lecture 11	
Definitions of Dimension and Elementary Examples	133
Hypersurfaces	136
Complete Intersections	136
Immediate Examples	138
The Universal k-Plane	142
Varieties of Incident Planes	142
Secant Varieties	143
Secant Varieties in General	146
Joins of Varieties	148
Flag Manifolds	1.49

Group Actions	110
$PGL_{n+1}K$ acts on \mathbb{P}^n	116
PGL_2K Acts on \mathbb{P}^2	117
PGL_2K Acts on \mathbb{P}^3	118
$\operatorname{PGL}_2 K$ Acts on \mathbb{P}^n	119
PGL_3K Acts on \mathbb{P}^5	120
PGL_3K Acts on \mathbb{P}^9	121
PO_nK Acts on \mathbb{P}^{n-1} (automorphisms of the Grassmannian)	122
$\operatorname{PGL}_n K$ Acts on $\operatorname{\mathbb{P}}(\wedge^k K^n)$	122
Quotients	123
Quotients of Affine Varieties by Finite Groups	124
Quotients of Affine Space	125
Symmetric Products	126
Quotients of Projective Varieties by Finite Groups	126
Weighted Projective Spaces	127
PART II: ATTRIBUTES OF VARIETIES	
Lecture 11	
Definitions of Dimension and Elementary Examples	133
Hypersurfaces	136
Complete Intersections	136
Immediate Examples	138
The Universal k-Plane	142
Varieties of Incident Planes	142
Secant Varieties	143
Secant Varieties in General	146
Joins of Varieties	148
Flag Manifolds	148
(Some) Schubert Varieties	149
Lecture 12	
More Dimension Computations	151
Determinantal Varieties	151
Fano Varieties	152

Quotiente of finine furience by I mite Groups	127
Quotients of Affine Space	125
Symmetric Products	126
Quotients of Projective Varieties by Finite Groups	126
Weighted Projective Spaces	127
PART II: ATTRIBUTES OF VARIETIES	
LECTURE 11	
Definitions of Dimension and Elementary Examples	133
Hypersurfaces	136
Complete Intersections	136
Immediate Examples	138
The Universal k-Plane	142
Varieties of Incident Planes	142
Secant Varieties	143
Secant Varieties in General	146
Joins of Varieties	148
Flag Manifolds	148
(Some) Schubert Varieties	149
Lecture 12	
More Dimension Computations	151
Determinantal Varieties	151
Fano Varieties	152
Parameter Spaces of Twisted Cubics	155
Twisted Cubics	155

Hypersurfaces	136
Complete Intersections	136
mmediate Examples	138
The Universal k-Plane	142
Varieties of Incident Planes	142
Secant Varieties	143
Secant Varieties in General	146
Joins of Varieties	148
Flag Manifolds	148
(Some) Schubert Varieties	149
LECTURE 12	
More Dimension Computations	151
Determinantal Varieties	151
Fano Varieties	152

Contents	xvii
Twisted Cubics on a General Surface Complete Intersections Curves of Type (a, b) on a Quadric Determinantal Varieties Group Actions $GL(V)$ Acts on $Sym^d V$ and $\bigwedge^k V$ $PGL_{n+1}K$ Acts on $(\mathbb{P}^n)^l$ and $G(k, n)^l$	156 157 158 159 161 161
LECTURE 13 Hilbert Polynomials	163
Hilbert Functions and Polynomials Hilbert Function of the Rational Normal Curve Hilbert Function of the Veronese Variety Hilbert Polynomials of Curves Syzygies Three Points in P ² Four Points in P ² Complete Intersections: Koszul Complexes	163 166 166 166 168 170 171
LECTURE 14 Smoothness and Tangent Spaces	174
The Zariski Tangent Space to a Variety A Local Criterion for Isomorphism Projective Tangent Spaces Determinantal Varieties	174 177 181 184
LECTURE 15 Gauss Maps, Tangential and Dual Varieties	186
A Note About Characteristic Gauss Maps Tangential Varieties The Variety of Tangent Lines Joins of Intersecting Varieties The Locus of Bitangent Lines Dual Varieties	186 188 189 190 193 195
LECTURE 16 Tangent Spaces to Grassmannians	200
Tangent Spaces to Grassmannians Tangent Spaces to Incidence Correspondences Varieties of Incident Planes The Variety of Secant Lines Varieties Swept out by Linear Spaces The Resolution of the Generic Determinantal Variety Tangent Spaces to Dual Varieties Tangent Spaces to Fano Varieties	200 202 203 204 204 206 208 209

xviii	Contents
Lecture 17	
Further Topics Involving Smoothness and Tangent Spaces	211

Lecture 17	
Further Topics Involving Smoothness and Tangent Spaces	211
Gauss Maps on Curves	211
Osculating Planes and Associated Maps	213
The Second Fundamental Form	214
The Locus of Tangent Lines to a Variety	215
Bertini's Theorem	216
Blow-ups, Nash Blow-ups, and the Resolution of Singularities	219
Subadditivity of Codimensions of Intersections	222

Gauss Maps on Curves	4.
Osculating Planes and Associated Maps	2
The Second Fundamental Form	2
The Locus of Tangent Lines to a Variety	2
Bertini's Theorem	2
Blow-ups, Nash Blow-ups, and the Resolution of Singularities	2
Subadditivity of Codimensions of Intersections	2:
Lecture 18	
Degree	22
Bézout's Theorem	2:
The Rational Normal Curves	2
More Examples of Degrees	2
Veronese Varieties	2
Segre Varieties	2
Degrees of Cones and Projections	2

Blow-ups, Nash Blow-ups, and the Resolution of Singularities	219
Subadditivity of Codimensions of Intersections	222
Lecture 18	
Degree	224
Bézout's Theorem	227
The Rational Normal Curves	229
More Examples of Degrees	231
Veronese Varieties	231
Segre Varieties	233
Degrees of Cones and Projections	234
Joins of Varieties	235
Unirationality of Cubic Hypersurfaces	237
Lecture 19	
Further Examples and Applications of Degree	239
Multidegree of a Subvariety of a Product	239
Projective Degree of a Map	240
Joins of Corresponding Points	241
Varieties of Minimal Degree	242
Degrees of Determinantal Varieties	243

Lecture 18	
Degree	224
Bézout's Theorem	22
The Rational Normal Curves	229
More Examples of Degrees	23
Veronese Varieties	23
Segre Varieties	23
Degrees of Cones and Projections	23
Joins of Varieties	23
Unirationality of Cubic Hypersurfaces	23
Lecture 19	
Further Examples and Applications of Degree	239
Multidegree of a Subvariety of a Product	23
Projective Degree of a Map	24
Joins of Corresponding Points	24
Varieties of Minimal Degree	24
Degrees of Determinantal Varieties	24
Degrees of Varieties Swept out by Linear Spaces	24
Degrees of Some Grassmannians	24
Harnack's Theorem	24
Lecture 20	
Singular Points and Tangent Cones	25
Tangent Cones	25
Tangent Cones to Determinantal Varieties	25
Multiplicity	25
Examples of Singularities	26
Resolution of Singularities for Curves	26
Lecture 21	

Degrees of Cones and Projections	234
Joins of Varieties	235
Unirationality of Cubic Hypersurfaces	237
Lecture 19	
Further Examples and Applications of Degree	239
Multidegree of a Subvariety of a Product	239
Projective Degree of a Map	240
Joins of Corresponding Points	241
Varieties of Minimal Degree	242
Degrees of Determinantal Varieties	243
Degrees of Varieties Swept out by Linear Spaces	244
Degrees of Some Grassmannians	245
Harnack's Theorem	247
Lecture 20	
Singular Points and Tangent Cones	251
Tangent Cones	251
Tangent Cones to Determinantal Varieties	256
Multiplicity	258
Examples of Singularities	260
Resolution of Singularities for Curves	264
Lecture 21	
Parameter Spaces and Moduli Spaces	266
Parameter Spaces	266
Chow Varieties	268
Hilbert Varieties	273

Projective Degree of a Map	24
Joins of Corresponding Points	24
Varieties of Minimal Degree	24
Degrees of Determinantal Varieties	24
Degrees of Varieties Swept out by Linear Spaces	24
Degrees of Some Grassmannians	24
Harnack's Theorem	24
Lecture 20	
Singular Points and Tangent Cones	25
Tangent Cones	25
Tangent Cones to Determinantal Varieties	25
Multiplicity	25
Examples of Singularities	26
Resolution of Singularities for Curves	26
Lecture 21
