

Contents

Introduction	15
Chapter 1	
Breeds, Sizes, Calculating Weight and Estimating Age	17
1.1 Breeds and Sizes	17
1.2 Calculating Weight	18
1.3 Estimating Age	22
Chapter 2	
Skin	23
2.1 Signalment	23
2.2 Coat Coloring	23
2.3 Hair Whorls	23
2.4 Blaze	24
2.5 Mealy Mouth	25
2.6 Mane and Forelock	27
2.7 Dorsal Stripe and Donkey's Cross	27
2.8 Leg Barring	28
2.9 Hair Parting	28
2.10 Switch	29
Chapter 3	
Head	30
3.1 Nasal Meatuses	30
3.2 Paranasal Sinuses	31
3.3 Adnexa of the Eye	31
3.3.1 Lacrimal Puncta	31
3.3.2 Nasolacrimal Duct	31
3.3.2.1 Opening of the Nasolacrimal Duct	33
3.4 Eyeball and Optic Nerve	36
3.5 Clinically Relevant Vessels of the Head	37
3.5.1 Arteries	37
3.5.1.1 Caudal Auricular Artery	37

3.5.1.2	Pulse Palpation	39
3.5.2	Veins	40
3.5.3	Further Findings on the Vasculature of the Head	40
3.6	Guttural Pouch	40
3.7	Parotid Salivary Gland and its Lymph Nodes	41
3.8	Mandible and Mandibular Lymph Nodes	42
3.9	Teeth	42
3.9.1	Curve of Spee	47
3.10	Tongue	49
3.11	Pharynx	51
3.12	Larynx	57
 Chapter 4		
	Neck	59
4.1	Skin and Subcutaneous Tissue	59
4.2	Cervical Vertebrae	60
4.3	Trachea	60
4.4	Thyroid	60
4.5	Esophagus	66
4.6	Cervical Cutaneous Muscle and External Jugular Vein	61
4.7	Cervical Lymph Nodes	63
4.7.1	Superficial Cervical Lymph Nodes	63
 Chapter 5		
	Trunk	64
5.1	Skin and Subcutaneous Tissue	64
5.2	Vertebrae	64
5.3	Breastbone, Sternum	66
5.4	Abdominal Muscles and Arterial Supply of the Abdominal Wall	66
 Chapter 6		
	Extremities	68
6.1	Positioning of the Fore- and Hindlimbs	68
6.2	Forelimbs	69
6.2.1	Skin and Subcutaneous Tissue	69

6.2.2	Modifications of the Skin	69
6.2.2.1	Chestnut, Torus carpeus	69
6.2.2.2	Ergot, Calcar	70
6.2.2.3	Hoof	70
6.2.3	Bones of the Thoracic Limb	72
6.2.3.1	Bones of the Forearm	72
6.2.3.2	Carpal Bones	73
6.2.3.3	Metacarpal Bones, Mc II and Mc IV, Splint Bones	73
6.2.3.4	Proximal Phalanx	74
6.2.3.5	Coffin Bone, Distal Phalanx	74
6.2.3.6	Podotrochlear Apparatus	75
6.2.4	Sesamoidean Ligaments	75
6.2.5	Synovial Bursae and Tendon Sheaths	75
6.2.6	Shoulder Joint	75
6.2.7	Musculature	76
6.2.7.1	Middle Interosseous Muscle	76
6.2.8	Arteries of the Thoracic Limb	76
6.2.9	Nerves of the Thoracic Limb	76
6.3	Hindlimbs	76
6.3.1	Skin and Subcutaneous Tissue	76
6.3.2.	Modifications of the Skin	77
6.3.2.1	Chestnut, Torus tarsus	77
6.3.2.2	Ergot, Calcar	77
6.3.2.3	Hoof	77
6.3.3	Bones of the Pelvic Limb	78
6.3.3.1	Femoral Bone	78
6.3.3.2	Metatarsal Bones, Mt II and Mt IV, Splint Bones	78
6.3.4	Sesamoidean Ligaments	79
6.3.5	Synovial Bursae and Tendon Sheaths	80
6.3.6	Tarsal Joint	80
6.3.7	Musculature	80
6.3.7.1	Middle Interosseous Muscle	80

Chapter 7	
Gaits	81
7.1 Donkeys	81
7.2 Mules and Hinnies	81
Chapter 8	
Organs of the Thoracic Cavity	82
8.1 Trachea	82
8.2 Lungs	82
8.3 Heart	82
8.4 Lymph Nodes	82
Chapter 9	
Organs of the Abdominal and Pelvic Cavities, Excluding Reproductive Organs (these see Chapter 10 and 11)	84
9.1 Stomach	84
9.2 Duodenum	87
9.3 Jejunum	87
9.4 Ileum	87
9.5 Cecum	87
9.6 Ascending Colon	87
9.7 Transverse Colon to Rectum	88
9.8 Liver	88
9.9 Openings of the Pancreatic Ducts, Duodenal Papillae	88
9.10 Spleen	90
9.11 Kidneys	90
9.11.1 Renal Pelvis	90
9.11.2 Renal Vasculature	92
Chapter 10	
Male Reproductive System	93
10.1 Foreskin, Prepuce	97
10.2 Scrotum, Testes, Epididymides, and Spermatic Cord	93
10.3 Penis, Accessory Genital Glands, and Ejaculation	96
10.4 Seasonal Fluctuations in the Male Libido	96

Chapter 11	
Female Reproductive System	97
11.1 Ovaries and Mesosalpinx	97
11.2 Uterus, Vagina, and Vulva	97
11.3 Estrous Cycle and Pregnancy	97
Chapter 12	
Brain and Spinal Cord	99
Chapter 13	
Blood	100
Chapter 14	
The Skin as an Organ, and Skin Disorders of the Donkey	102
Chapter 15	
Physiological Parameters	106
Chapter 16	
Transrectal Palpation of the Donkey	107
Bibliography	108
Index	134
