

CONTENTS

1	INTRODUCTION	1
	What is AutoCAD?	1
	The aims of the AutoCAD Express	1
	The Express route through AutoCAD	2
	Conventions used in the AutoCAD Express	3
	RETURN or ENTER?	3
	Presentation of user-AutoCAD dialogue	3
	Control keys	4
	Menus	4
	Other conventions	4
	The Windows environment	5
	Program Manager	5
	Window control	6
	Window cleaning	7
	Windows hot-keys	7
2	STARTING AUTOCAD	9
	Preparation	9
	Starting AutoCAD for DOS	9
	The AutoCAD for Windows icon	9
	Creating a drawing	10
	The drawing window	10
	The File pull-down menu	12
	Drawing identification	12
	AutoCAD's menus	13
	Menu preferences	14
	How about a bit of doodling?	15
	The tool box	17
	Setting up the drawing environment	17
	Drawing size	19
	Drawing lines	21
	AutoCAD's command memory	23
	Linetypes and scales and colors	26
	Saving the drawing	30
	Adding some text	31
	HELP!	32

Help – DOS Extender version	34
Context sensitive help	34
Finishing up	35
A note on file security	36
Summary	36
3 CURSOR AND DISPLAY CONTROL	39
General	39
Layers	40
Cursor location	47
Rulers, grids and snapping	47
Two dimensional coordinate notation	49
Digital setsquares	52
Snapping to objects	55
ZOOM and PAN	60
Keyboard toggles and transparent commands	67
Finish for the time being	69
Summary	69
4 DRAWING AND EDITING	71
General	71
Rubbing out and OOPS	73
Entity selection modes	73
Erasing some lines	74
Window selection	75
OOPS! I didn't mean to rub that out	75
Crossing windows and polygons	77
The balloon drawing environment	82
Creating circles, arcs and ellipses	83
Circles	83
Many ways to draw an ARC	84
Rectangles and Ellipses	86
Adding text	90
Text styles	92
Centered text	93
Wide lines	95
Aerial view	101
Solid objects	102
Shading with patterns	104
Summary	108

5	CONSTRUCTIVE EDITING	111
	General	111
	Drawing the arch	113
	Editing a polyline with PEDIT	116
	Moving objects	118
	Rotating objects	121
	Copying	123
	Altering objects' characteristics	124
	Enlarging objects	130
	Stretching objects into shape	132
	Mirror image	134
	Multiple copies using ARRAY	135
	Rectangular arrays	136
	Circular arrays	137
	Non orthogonal rectangular arrays	138
	Finishing up	140
	Summary	143
6	SUPER-ENTITIES	145
	General	145
	Making a block	146
	Inserting blocks	149
	Global blocks	152
	Making a library of useful symbols	153
	The kitchen sink	154
	Coloured blocks	156
	Editing a block	158
	Assigning text information to blocks	161
	Defining an attribute	161
	Drawing the kitchen	168
	Assembling the fitted kitchen	172
	Editing attributes	174
	A simple bill of materials	177
	Hints on using blocks	179
	AutoCAD's inquiry commands	179
	Summary	180
7	ADVANCED DRAWING AND DIMENSIONING	181
	General	181
	Drawing a gland	181
	Point and Divide	182
	Trimming entities	187
	Dimensioning	190

Dimension style	192
Editing dimensions	202
Standard dimension variable settings	204
Drawing a pentagon	205
Wrapping up dimensions	208
Summary	211
8 ADDING DEPTH TO YOUR DRAWINGS WITH 3D CAD	213
General	213
Isometric projection	214
The Express State Building in 2.5 dimensions	219
Views and more views	222
Multiple views	225
Model space and paper space	225
The Pyramids of Giza in glorious 3D	230
Making the faces solid	232
Define your own coordinate system	235
The all seeing eye	240
A dynamic viewpoint on visualisation	248
Getting things in perspective	253
AutoCAD's 3D box of tricks	255
Meshes	256
Generated surfaces	259
3D objects	262
AME	262
Summary	262
9 THE HARDCOPY - PRINTING AND PLOTTING	265
General	265
Printing and plotting	266
Printers	266
Plotters	266
Plotting the GLAND drawing	266
Altering the plot parameters	267
Scales and preview	269
Saving a VIEW	271
Multicolored plotting	274
Plotting a view	275
Postscript output	275
Plotting to a file	276
Plotting multiple viewports in paper space	278
A simple title block for EXP-GIZA	278
Paper space	282

Manipulating metaviews	283
Cross referencing drawing files	290
Dependent blocks	291
A note on XREF files	292
Printing from Windows	292
Windows system printer	294
The softcopy	296
Safety first	296
Copying to other Windows applications	297
Object linking and embedding	298
Summary	299
APPENDIX A: CONFIGURATION	301
General	301
The DOS environment	301
Configuring AutoCAD	302
Altering devices	304
Summary	308
APPENDIX B: LINETYPES AND HATCH PATTERNS	309
General	309
Linetype definition	309
Hatch pattern defintiion	309
Summary	310
SUBJECT INDEX	311
