

Contents

- 1 Introduction, *R. Dmowska and G. Ekström*
- 3 The 1957 great Aleutian earthquake, *J. M. Johnson, Y. Tanioka, L. J. Ruff, K. Satake, H. Kanamori and L. R. Sykes*
- 29 The rupture process and tectonic implications of the great 1964 Prince William Sound earthquake, *D. H. Christensen and S. L. Beck*
- 55 Coseismic slip in the 1964 Prince William Sound earthquake: A new geodetic inversion, *S. R. Holdahl and J. Sauber*
- 83 Seismicity trends and potential for large earthquakes in the Alaska-Aleutian region, *C. G. Bufe, S. P. Nishenko and D. J. Varnes*
- 101 Rupture process of large earthquakes in the northern Mexico subduction zone, *L. J. Ruff and A. D. Miller*
- 173 Global variability in subduction thrust zone-forearc systems, *R. McCaffrey*
- 225 Large thrust earthquakes and volcanic eruptions, *S. E. Barrientos*
