

CONTENTS

Foreword	<i>Theresa C. McCloud, M.D.</i>	xv
Preface		xvii
Acknowledgments		xix
Contributors		xxi

SECTION I

Normal Thoracic Anatomy

Airways	3
Trachea and Main Bronchi	3
Lobar and Segmental Bronchi	3
Pulmonary Vessels	7
Main Pulmonary Artery and Segmental Branches	7
Pulmonary Veins	8
Hila	8
Parenchyma	17
Acinus	17
Secondary Pulmonary Lobule	17
Pleura	18
Standard Fissures	18
Accessory Fissures	21
Pulmonary Ligament	25
Mediastinum	25
Mediastinal Landmarks	25
Lymph Nodes	28
Diaphragm	30
Chest Wall	31

SECTION II

Developmental Anomalies

TRACHEOBRONCHIAL ANOMALIES

CASE 1	Tracheal Bronchus	35
CASE 2	Bronchial Atresia	39
CASE 3	Intralobar Sequestration	43

ANOMALIES OF THE AORTA AND GREAT VESSELS

CASE 4	Right Aortic Arch	48
CASE 5	Coarctation of the Aorta	53

CASE 6	Marfan Syndrome	58
CASE 7	Aberrant Right Subclavian Artery	62
CASE 8	Persistent Left Superior Vena Cava	66

ANOMALIES OF THE PULMONARY ARTERIES AND VEINS

CASE 9	Arteriovenous Malformation	71
CASE 10	Partial Anomalous Pulmonary Venous Return	76
CASE 11	Scimitar Syndrome	79
CASE 12	Pulmonary Varix	84

CARDIAC ANOMALIES

CASE 13	Heterotaxy Syndrome	87
CASE 14	Atrial Septal Defect	91
CASE 15	Pulmonic Stenosis	96

SECTION III

Airways Disease

CASE 16	Tracheal Stricture	103
CASE 17	Saber Sheath Trachea	107
CASE 18	Tracheobronchomegaly; Mounier-Kuhn Syndrome	110
CASE 19	Tracheoesophageal Fistula	114
CASE 20	Amyloidosis	117
CASE 21	Tracheobronchial Papillomatosis	120
CASE 22	Adenoid Cystic Carcinoma	124
CASE 23	Bronchiectasis	128
CASE 24	Cystic Fibrosis	134
CASE 25	Allergic Bronchopulmonary Aspergillosis	138
CASE 26	Proximal Acinar Emphysema	142
CASE 27	Panacinar Emphysema	147
CASE 28	Bullous Lung Disease and Distal Acinar Emphysema	150
CASE 29	Bronchiolitis Obliterans	154

SECTION IV

Atelectasis

MECHANISMS

CASE 30	Resorption Atelectasis	159
CASE 31	Relaxation Atelectasis	161
CASE 32	Cicatrization Atelectasis	164
CASE 33	Adhesive Atelectasis	166

DIRECT SIGNS OF ATELECTASIS

CASE 34	Right Lower Lobe: Obstructing Small Cell Lung Cancer	168
---------	--	-----

INDIRECT SIGNS OF ATELECTASIS

CASE 35	Right Upper Lobe Atelectasis: Obstructing Mucus Plug	170
CASE 36	Left Lower Lobe Atelectasis: Obstructing Neoplasm	172
CASE 37	Chronic Left Lower Lobe Atelectasis with Recurrent Pneumonia	174
CASE 38	Left Lower Lobe Collapse: Bronchorrhea	177
CASE 39	Left Upper Lobe Atelectasis: Central Hilar Neoplasm	179
CASE 40	Right Middle Lobe Atelectasis: Central Neoplasm	181

PATTERNS OF LOBAR COLLAPSE

CASE 41	Right Upper Lobe Atelectasis: Aspirated Tooth Fragment	183
---------	--	-----

CASE 42	Right Upper Lobe Collapse with Reverse-S Sign of Golden	185
CASE 43	Right Middle Lobe Atelectasis: Central Neoplasm	188
CASE 44	Multilobar Collapse: Allergic Bronchopulmonary Aspergillosis	191
CASE 45	Left Upper Lobe Atelectasis: Obstructing Central Small Cell Lung Carcinoma	193
CASE 46	Right Lower Lobe Atelectasis: Small Cell Lung Cancer	196
CASE 47	Combined Right Middle and Lower Lobe Atelectasis	199
CASE 48	Total Atelectasis of the Left Lung: Malpositioned Endotracheal Tube	201

MISCELLANEOUS FORMS OF ATELECTASIS

CASE 49	Rounded Atelectasis	203
CASE 50	Right Middle Lobe Syndrome	206

SECTION V

Pulmonary Infections and Aspiration Pneumonia

COMMON BACTERIAL PNEUMONIAS

CASE 51	<i>Streptococcus Pneumoniae</i> Pneumonia	213
CASE 52	<i>Staphylococcal</i> Pneumonia	216
CASE 53	<i>Haemophilus</i> Pneumonia	220
CASE 54	<i>Klebsiella</i> Pneumonia	223
CASE 55	<i>Pseudomonas</i> Pneumonia	227
CASE 56	<i>Legionella</i> Pneumonia	231
CASE 57	Pulmonary Nocardiosis	234
CASE 58	Pulmonary Actinomycosis	237

LESS COMMON BACTERIAL PNEUMONIAS

CASE 59	<i>Rhodococcus</i> Pneumonia	240
CASE 60	<i>Mycobacterium tuberculosis</i> Pulmonary Infection	243
CASE 61	Nontuberculous <i>Mycobacteria</i> Pulmonary Infection	249

FUNGAL PNEUMONIA

CASE 62	Histoplasmosis	253
CASE 63	Pulmonary Coccidioidomycosis	257
CASE 64	Pulmonary <i>Blastomycosis</i>	261
CASE 65	Pulmonary Aspergillosis	265
CASE 66	<i>Pneumocystis</i> Pneumonia	270

VIRAL PNEUMONIAS

CASE 67	Cytomegalovirus Pneumonia	274
CASE 68	Varicella (Chickenpox) Pneumonia	277
CASE 69	Influenza Pneumonia	280

ATYPICAL PNEUMONIAS

CASE 70	<i>Mycoplasma</i> Pneumonia	283
---------	-----------------------------------	-----

ASPIRATION PNEUMONIA

CASE 71	Aspiration Pneumonia: Mendelson Syndrome	286
---------	--	-----

SECTION VI

Neoplastic Diseases

CASE 72	Lung Cancer: Adenocarcinoma	291
CASE 73	Lung Cancer: Bronchioloalveolar Carcinoma	296

CASE 74	Lung Cancer: Squamous Cell Carcinoma	300
CASE 75	Lung Cancer: Small Cell Carcinoma	305
CASE 76	Lung Cancer: Large Cell Carcinoma	309
CASE 77	Lung Cancer: Stage I	311
CASE 78	Lung Cancer: Stage II	315
CASE 79	Lung Cancer: Stage IIIA	320
CASE 80	Lung Cancer: Stage IIIB	324
CASE 81	Lung Cancer: Stage IV	329
CASE 82	Pulmonary Metastases	333
CASE 83	Bronchial Carcinoid	337
CASE 84	Pulmonary Lymphoma	341
CASE 85	Hamartoma	346

SECTION VII

Trauma

THORACIC AORTA AND GREAT VESSEL INJURIES

CASE 86	Hemomediastinum: Acute Traumatic Injury -Radiography	353
CASE 87	Acute Traumatic Aortic Injury: CT	357
CASE 88	Acute Traumatic Brachiocephalic Artery Transection	361
CASE 89	Vena Cava Injury	364

LUNG INJURY

CASE 90	Lung Contusion	367
CASE 91	Pulmonary Contusion and Laceration	370

PLEURAL MANIFESTATIONS OF TRAUMA

CASE 92	Post-Traumatic Pneumothorax: Deep Sulcus Sign	373
CASE 93	Hemothorax	376

AIRWAY INJURIES

CASE 94	Tracheobronchial Injuries	379
---------	---------------------------------	-----

DIAPHRAGMATIC INJURIES

CASE 95	Traumatic Rupture Left Hemidiaphragm	383
---------	--	-----

THORACIC SKELETAL INJURIES

CASE 96	Isolated Sternal Fracture	388
CASE 97	Posterior Clavicular Head Dislocation	391
CASE 98	Bilateral Flail Chest	394
CASE 99	Acute Vertebral Compression Fracture	397

BAROTRAUMA

CASE 100	ARDS: Ventilator-induced Barotrauma	400
----------	---	-----

SECTION VIII

Life Support Tubes, Lines, and Monitoring Devices

ENDOTRACHEAL TUBES: TRACHEOSTOMY DEVICES

CASE 101	Endotracheal Intubation	405
CASE 102	Right Main Stem Bronchus Intubation	407
CASE 103	Malpositioned Endotracheal Tube and Cuff Overinflation	409
CASE 104	Complications of Tracheostomy Tube Placement	411

CENTRAL VENOUS CATHETERS

CASE 105	Left Subclavian Line: Persistent Left SVC	413
----------	---	-----

CASE 106	Venous Catheter Cannulation of the Azygos Arch	415
CASE 107	Malpositioned Central Venous Catheter	417
CASE 108	Central Venous Catheter Malpositioned in the Left Subclavian Artery	419
CASE 109	Venous Access Line Fracture and Embolization	421
CASE 110	Malpositioned Pulmonary Artery Catheter	424
CASE 111	Malpositioned Central Venous Catheter with Acute “Infusothorax”	429

THORACOSTOMY TUBES

CASE 112	Malpositional Intraparenchymal Chest Tube	432
CASE 113	Malpositioned Intrafissural Chest Tube	435

CARDIAC DEVICES

CASE 114	Twiddler Syndrome	438
CASE 115	Malpositioned Intraaortic Balloon Pump	441
CASE 116	Left Ventricular Assist Device	444

SECTION IX

Diffuse Parenchymal Lung Disease

CASE 117	Acute Interstitial Pneumonia (AIP)	449
CASE 118	Nonspecific Interstitial Pneumonia (NSIP)	452
CASE 119	Pulmonary Alveolar Proteinosis	455
CASE 120	Eosinophilic Pneumonia	459
CASE 121	Desquamative Interstitial Pneumonia (DIP)	463
CASE 122	Lymphocytic Interstitial Pneumonitis (LIP)	466
CASE 123	Cryptogenic Organizing Pneumonia (COP)	470
CASE 124	Diffuse Alveolar Hemorrhage	474
CASE 125	Alveolar Microlithiasis	478
CASE 126	Exogenous Lipoid Pneumonia	481
CASE 127	Sarcoidosis	485
CASE 128	Hypersensitivity Pneumonitis	490
CASE 129	Usual Interstitial Pneumonia (UIP)	493
CASE 130	Respiratory Bronchiolitis–Interstitial Lung Disease (RB–ILD)	497
CASE 131	Kaposi’s Sarcoma	500
CASE 132	Lymphangitic Carcinomatosis	504
CASE 133	Pulmonary Langerhans’ Cell Histiocytosis	507
CASE 134	Lymphangioleiomyomatosis	510

SECTION X

Occupational Lung Disease

CASE 135	Silicosis	517
CASE 136	Asbestosis	523
CASE 137	Farmer’s Lung	527
CASE 138	Hard Metal Pneumoconiosis	530

SECTION XI

Adult Cardiovascular Disease

PULMONARY VASCULAR DISEASE

CASE 139	Pulmonary Thromboembolism with Infarction	535
CASE 140	Pulmonary Thromboembolic Disease: CT	539
CASE 141	Chronic Pulmonary Thromboembolic Disease	543
CASE 142	Pulmonary Arterial Hypertension	547

PULMONARY EDEMA

CASE 143	Cardiogenic Pulmonary Edema: Left Ventricular Failure	551
CASE 144	Noncardiogenic Pulmonary Edema	557
CASE 145	Increased Permeability Edema	560
CASE 146	Reexpansion Pulmonary Edema	564
CASE 147	Negative Pressure Pulmonary Edema	567

THORACIC AORTA DISEASE

CASE 148	Aortic Nipple	570
CASE 149	Aneurysm of the Thoracic Aorta	573
CASE 150	Mycotic Aneurysm of the Thoracic Aorta	577
CASE 151	Acute Aortic Dissection	580
CASE 152	Type B Intramural Hematoma	586

VALVULAR DISEASE

CASE 153	Mitral Stenosis	589
CASE 154	Aortic Stenosis	593

MYOCARDIAL CALCIFICATIONS

CASE 155	Calcified Left Ventricular Wall Aneurysm	597
----------	--	-----

PERICARDIAL DISEASE

CASE 156	Pericardial Calcifications: Remote Tuberculosis	600
CASE 157	Pericardial Effusion	603
CASE 158	Postpericardiotomy Syndrome	606

POST-OPERATIVE COMPLICATIONS

CASE 159	Sternal Dehiscence	608
----------	--------------------------	-----

VASCULITIS

CASE 160	Wegener Granulomatosis	611
CASE 161	Acute Chest Syndrome of Sickle Cell Anemia	615

MISCELLANEOUS

CASE 162	Hepatopulmonary Syndrome	618
----------	--------------------------------	-----

SECTION XII**Abnormalities and Diseases of the Mediastinum**

CASE 163	The Mediastinal Compartments	621
CASE 164	Thymoma	628
CASE 165	Thymic Malignancy; Carcinoid	633
CASE 166	Thymolipoma	637
CASE 167	Thymic Hyperplasia	641
CASE 168	Benign Germ Cell Neoplasms: Mature Teratoma	645
CASE 169	Malignant Germ Cell Neoplasms	649
CASE 170	Neoplastic Lymphadenopathy: Lymphoma	653
CASE 171	Nonneoplastic Lymphadenopathy: Mediastinal Fibrosis	659
CASE 172	Congenital Cysts: Bronchogenic Cyst	663
CASE 173	Neurogenic Neoplasms	669
CASE 174	Mediastinal Goiter	676
CASE 175	Lymphangioma	680

CASE 176	Paraesophageal Varices	684
CASE 177	Hiatus Hernia	688
CASE 178	Achalasia	691
CASE 179	Extramedullary Hematopoiesis	695
CASE 180	Acute Mediastinitis	699

SECTION XIII

Pleura, Chest Wall, and Diaphragm

CASE 181	Pleural Effusion: Heart Failure	705
CASE 182	Empyema: Bronchopleural Fistula	711
CASE 183	Asbestos-Related Pleural Disease	716
CASE 184	Pneumothorax	721
CASE 185	Malignant Pleural Mesothelioma	726
CASE 186	Pleural Metastases	732
CASE 187	Localized Fibrous Tumor	736
CASE 188	Chest Wall Infection	740
CASE 189	Chest Wall Lipoma	744
CASE 190	Chondrosarcoma	748
CASE 191	Pectus Excavatum	752
CASE 192	Bochdalek Hernia	756

Index	761
