

Table of Contents

1 Introduction	1
1.1 Historical Aspects	1
1.2 Geochemistry	1
1.3 Analysis	3
1.4 Production.....	5
1.5 Economics.....	5
2 Petrological and Mineralogical Framework.....	9
2.1 Magmatic Fractionation	9
2.2 Indium Mineralogy	13
2.2.1 Indium Substitution Processes.....	23
2.2.2 Experimental Data.....	28
2.2.3 Natural Systems.....	30
3 Indium Metallogeny	33
3.1 Vein-Stockwork Tin and Tungsten Deposits, Porphyry Tin Deposits	33
3.1.1 Mount Pleasant, New Brunswick, Canada	33
3.1.2 Mangabeira, Goias, Brazil.....	39
3.1.3 Baal Gammon, Northern Queensland, Australia	40
3.1.4 Vaulry, Haute Vienne, France	41
3.1.5 Charrier, Allier, France	42
3.1.6 Pirquitas, Jujuy Province, Argentina	42
3.1.7 Cínovec, Krušné Hory Mountains, Czech Republic.....	43
3.1.8 Synthesis.....	44
3.2 Volcanic-Hosted Massive Sulfide (VMS) Deposits.....	45
3.2.1 Kidd Creek, Ontario, Canada	45
3.2.2 Neves-Corvo, Castro Verde, Southern Portugal	49
3.2.3 Brunswick No. 12, Bathurst Mining Camp, New Brunswick, Canada.....	55
3.2.4 Heath Steele, Brunswick Mining Camp, New Brunswick, Canada....	56
3.2.5 Kuroko, Hokuroku basin, Northeastern Honshu, Japan	58
3.2.6 Laochang, Changning-Menglian belt, Sanjiang, SW-Yunnan, China.....	58
3.2.7 Maranda J, Murchison belt, Northern Province, South Africa	59

3.2.8 Volcanic-Hosted Massive Sulfide Deposits of the Southern Urals, Russia	62
3.2.8.1 Letneye, Dombrovsk District	62
3.2.8.2 Komsomolskoye, Mednogorsk District	64
3.2.8.3 Podolskoye	64
3.2.8.4 Sibaiskoye	65
3.2.8.5 Gaiskoye	65
3.2.8.6 Bakr-Tau, Baimak District, Bashkirian Republic	66
3.2.9 Volcanic-Hosted Massive Sulfide Deposits in Queensland and Tasmania, Eastern Australia	67
3.2.9.1 Mount Chalmers, Central Queensland	68
3.2.9.2 Waterloo and Agincourt, Northern Queensland	68
3.2.9.3 Dry River South and Balcooma, North Queensland	69
3.2.9.4 Rosebery, Western Tasmania	69
3.2.10 Active Seafloor Hydrothermal Vent Fields	69
3.2.10.1 Southern Lau Back-Arc Basin, Southwest-Pacific	70
3.2.11 Synthesis	73
3.3 Sediment-Hosted Exhalative Massive Sulfide (SHMS) Deposits	74
3.3.1 Rammelsberg, Germany	75
3.3.2 Långban, Bergslagen District, Sweden	76
3.4 Polymetallic Vein-Tpe Deposits	77
3.4.1 Toshani, Bhiwani District, Haryana, India	78
3.4.2 Akenobe, Hyogo Prefecture, Honshu, Southwest Japan	79
3.4.3 Fukoku, Kyoto Prefecture, Honshu, Southwest Japan	82
3.4.4 Ikuno, Hyogo Prefecture, Honshu, Southwest Japan	82
3.4.5 Goka, Naegi District, Gifu Prefecture, Honshu, Southwest Japan	83
3.4.6 Omodani, Fukui Prefecture, Honshu, Southwest Japan	84
3.4.7 West Shropshire Orefield, England	84
3.4.8 Les Clochettes, Lautaret, Hautes Alpes, France	86
3.4.9 Saint-Martin-la-Sauvété District, Loire, France	86
3.4.10 Kutná Hora, Czech Republic	87
3.4.11 Pohled, Havlíčkův Brod, Czech Republic	88
3.4.12 Carguacollu, Oruro, Cordillera Oriental, Bolivia	89
3.4.13 Bolivar, Cerro Bonete Area, Cordillera Occidental, Bolivia	89
3.4.14 Huari-Huari, Potosi, Cordillera Oriental, Bolivia	91
3.4.15 San Luis, Berenguela District, Cordillera Occidental, Bolivia	91
3.4.16 San Vicente, Uyuni, Cordillera Oriental, Bolivia	91
3.4.17 Colquiri, Cochabamba Area, Cordillera Oriental, Bolivia	92
3.4.18 Colquechaca, Aiquile Area, Cordillera Oriental, Bolivia	92
3.4.19 Pulacayo, Uyuni, Cordillera Oriental, Bolivia	93
3.4.20 Morococha, Junin, Peru	93
3.4.21 Synthesis	93
3.5 Epithermal Deposits	94
3.5.1 Toyoha, Southwest Hokkaido, Japan	94
3.5.2 Nagybörzsöny, Börzsöny, Hungary	100
3.5.3 Kirki (St. Phillippe) Mine, Thrace, Greece	100

3.5.4 McLaughlin Gold Deposit, California, USA	102
3.5.5 Prasolov, Kunashir Island, Kuril Island Arc, Russia	103
3.5.6 Mutnovsky Area, Kamchatka, Russia	103
3.5.7 Julio Cesar, La Union District, Cartagena, Southwest Spain	104
3.5.8 Synthesis.....	105
3.6 Active Magmatic Systems	106
3.6.1 Kudryavyi Volcano, Iturup Island, Kuril Island Arc, Russia	106
3.6.2 Merapi Volcano, Central Java, Indonesia.....	107
3.7 Porphyry Copper Deposits.....	108
3.7.1 Central Sredna Gora District, Bulgaria.....	109
3.7.2 Central District, Southwest New Mexico, USA	110
3.7.3 Bingham District, Utah, USA.....	113
3.7.4 Synthesis.....	113
3.8 Skarn deposits.....	115
3.8.1 Dachang Ore Field, Gejiu, Guangxi, China.....	115
3.8.2 Ulsan, Ulju Gun, Gyeongsangnam Do Province, Republic of Korea.....	119
3.8.3 Kitel, Northern Ladoga, Karelia, Russia	120
3.8.4 Gåsborn Area, Bergslagen District, Sweden	121
3.8.5 Oelsnitz, Southwestern Vogtland, Saxony, Germany.....	122
3.8.6 Plavno, Krusné Hory Mountains, Czech Republic.....	122
3.8.7 Synthesis.....	123
4 Miscellaneous Indium Occurrences	125
4.1 Japan	125
4.1.1 Hokkaido	125
4.1.2 Honshu	125
4.1.3 Kyushu	126
4.2 Czech Republic	127
4.3 Commonwealth of Independant States.....	127
4.4 China.....	132
4.4.1 Qibaoshan, Hunan Province	132
4.4.2 Gejiu District, Yunnan	133
4.5 Peru, Bolivia	133
4.5.1 Cerro de Pasco, Peru	133
4.6 Asia.....	134
4.7 India	134
4.8 Austria.....	135
5 Spatial and Temporal Distribution of Indium-Bearing Ore Deposits	141
6 Model of Indium Ore Formation	147
6.1 Tectonic Constraints	147
6.2 Petrological Constraints	148
6.3 Mineralogical Constraints	149
6.4 Precipitation Processes.....	150

7 Historical and Actual Production of Indium.....	153
7.1 Indium Production at Toyoha, Hokkaido, Japan.....	156
7.2 Indium Potential in the Bathurst District, New Brunswick, Canada.....	156
7.3 Indium Potential in Russia.....	157
8 Stockpile Situation in Relation to Different Types of Ore Deposits.....	161
9 Technological Applications and Consumption of Indium	
by Industries.....	167
9.1 Indium Tin Oxide (ITO)	167
9.2 Indium Plating	170
9.3 Indium Alloys	171
9.4 Indium Compounds.....	171
9.5 Indium Recycling and Substitution.....	172
10 Characteristics of Indium Deposits.....	175
10.1 Tables of Deposit Characteristics	175
10.1.1 Akenobe, Japan	175
10.1.2 Axial Seamount, Northeast Pacific.....	176
10.1.3 Baal Gammon, Australia	176
10.1.4 Bakr-Tau, Bashkirian Republic.....	176
10.1.5 Balcooma, Australia	177
10.1.6 Bingham, USA	177
10.1.7 Bleiberg-Kreuth, Austria	178
10.1.8 Bolivar, Bolivia	178
10.1.9 Broken Hill, Australia	178
10.1.10 Broken Spur, Mid-Atlantic Ridge	179
10.1.11 Brunswick No. 12, Canada.....	179
10.1.12 Carguaicollu, Bolivia.....	180
10.1.13 Central District, USA	180
10.1.14 Central Sredna Gora, Bulgaria	181
10.1.15 Cerro de Pasco, Peru	181
10.1.16 Charrier, France.....	181
10.1.17 Chorolque, Bolivia	182
10.1.18 Cínovec, Czech Republic	182
10.1.19 Colquiri, Bolivia.....	183
10.1.20 Colquechaca, Bolivia	183
10.1.21 Dachang District, China	183
10.1.22 Deputaskoe, Russia	184
10.1.23 Dlouha Ves, Abertamy, Czech Republic.....	184
10.1.24 Dry River South, Australia.....	185
10.1.25 East Pacific Rise 12°58'N, Pacific Ocean.....	185
10.1.26 East Pacific Rise, 21°N, Pacific Ocean	185

10.1.27 Equity Silver, Canada.....	186
10.1.28 Förölach, Austria.....	186
10.1.29 Freiberg, Germany.....	187
10.1.30 Fukoku, Japan.....	187
10.1.31 Gaiskoye, Russia.....	187
10.1.32 Gåsborn, Sweden.....	188
10.1.33 Geco, Canada.....	188
10.1.34 Gejiu, China.....	188
10.1.35 Goka, Japan.....	189
10.1.36 Heath Steele, Canada.....	189
10.1.37 Huari-Huari, Bolivia.....	190
10.1.38 Ikuno, Japan.....	190
10.1.39 Julio Cesar, Spain.....	190
10.1.40 Kansay, Kazakhstan.....	191
10.1.41 Karamazar, Uzbek and Tadzhik Republics.....	191
10.1.42 Katsutoyo, Japan.....	192
10.1.43 Kidd Creek, Canada.....	192
10.1.44 Kirki (St. Philippe), Greece.....	192
10.1.45 Kitel', Russia.....	193
10.1.46 Komsomolskoye, Russia.....	193
10.1.47 Kudryavy Volcano, Kuriles, Russia.....	194
10.1.48 Kuroko, Japan.....	194
10.1.49 Kyzyl Espe, Batystau, Akchagyl, Karagayly, Kazakhstan.....	194
10.1.50 Långban, Sweden.....	195
10.1.51 Laochang, China.....	195
10.1.52 La Telhaie, France.....	196
10.1.53 Southern Lau Basin, Southwest Pacific.....	196
10.1.54 Les Clochettes, France.....	196
10.1.55 Letneye, Russia.....	197
10.1.56 Lifudsin, Russia.....	197
10.1.57 Mangabeira, Brazil.....	198
10.1.58 Eastern Manus Basin, Papua New Guinea.....	198
10.1.59 Maranda J, South Africa.....	198
10.1.60 Marienberg, Germany.....	199
10.1.61 McLaughlin, USA.....	199
10.1.62 Merapi Volcano, Indonesia.....	200
10.1.63 Morococha, Peru.....	200
10.1.64 Mount Chalmers, Australia.....	200
10.1.65 Mount Pleasant, Canada.....	201
10.1.66 Mutnovsky, Russia.....	201
10.1.67 Nagybörzsöny, Hungary.....	202
10.1.68 Neves-Corvo, Portugal.....	202
10.1.69 Oelsnitz, Germany.....	203
10.1.70 Omodani, Japan.....	203
10.1.71 Palinuro Seamount, Italy.....	203
10.1.72 Panagjuriste, Bulgaria.....	204

10.1.73 Pirquitas, Argentina.....	204
10.1.74 Plavno Zone, Czech Republic	205
10.1.75 Podolskoye, Russia.....	205
10.1.76 Pohled, Czech Republic	205
10.1.77 Prasolov, Russia	206
10.1.78 Pravourmiiskoe, Russia	206
10.1.79 Pribram, Czech Republic.....	206
10.1.80 Pulacayo, Bolivia	207
10.1.81 Qibaoshan, China	207
10.1.82 Rammelsberg, Germany	208
10.1.83 Rosebery, Australia	208
10.1.84 Saint-Martin-la-Sauvete District, France.....	208
10.1.85 San Luis, Bolivia	209
10.1.86 San Vicente, Bolivia.....	209
10.1.87 Sarykan, Kumyschkan, Kurgashinkan, Kazakhstan	210
10.1.88 Seto, Japan.....	210
10.1.89 Sibaiskoye, Russia.....	210
10.1.90 Silver Queen, Canada	211
10.1.91 Snake Pit, Mid-Atlantic Ridge	211
10.1.92 Eastern-Central Sredna Gora, Bulgaria	211
10.1.93 St. Agnes, England	212
10.1.94 St. George, England	212
10.1.95 Sullivan, Canada.....	213
10.1.96 TAG, Mid-Atlantic Ridge	213
10.1.97 Tosham, India.....	213
10.1.98 Toyoha, Japan.....	214
10.1.99 Turkank, Czech Republic	214
10.1.100 Ulsan, Korea.....	215
10.1.101 Vaulry, France.....	215
10.1.102 Waterloo/Agincourt, Australia	215
10.1.103 West Shropshire Orefield, England	216
10.1.104 Zulova, Czech Republic	216
